10. BRIEF SUMMARY OF SIGHTING

A round bright light half the size of a dime was seen moving quite rapidly seeming to move into distance.

11. COMMENTS

The preparing officer of report personally observed a search light reflection from clouds and the presence of the light in Atlanta was confirmed by a C-47 pilot. Concur.

Has been repeatedly proven, visually and photographically, that impingement search light beam can often be seen — but not the beams themselves.
