10. BRIEF SUMMARY OF SIGHTING

Extremely bright blue object falling to earth SW of Sacramento. Undetermined distance. Object emitted bright blue light. Initial observation at 60 deg elevation. Disappeared at 10 deg above horizon after falling at what appeared to be a 30 deg descent. Date of sighting not included.

11. COMMENTS

No satelite decays this date and the fall as well as direction does not conform with this analysis. Duration excessive for the usual.

Meteor observation. Sounds like a flare of some sort. Data limited and no investigation made. Case carried as insufficient data.

15. SUMMARY:

(Leave Blank)

Mr. [redacted], Sacramento, California, called the McClellan Police Department and reported sighting an extremely bright blue object falling to earth at an undetermined location and distance, southwest of his residence. He described the object as about the size of a silver dollar held at arms length, round and emitting a bright blue light. Mr. [redacted] stated that he first sighted the object at 1801 hours, approximately 60 degrees above the horizon and observed it for 30 seconds until it disappeared at approximately 10 degrees above the horizon. He stated that the object appeared to fall at an angle of approximately 30 degrees to the perpendicular.

Weather conditions at time of report: High thin scattered clouds, visibility 10 miles.
