PROJECT 10073 RECORD

1. DATE - TIME GROUP
11-31 August 1965

2. LOCATION
Houston, Texas Area

3. SOURCE
Military and Civilians

4. NUMBER OF OBJECTS
Usually One

5. LENGTH OF OBSERVATION
Varied

6. TYPE OF OBSERVATION
(ALL) Ground-Visual

7. COURSE
Varied

8. PHOTOS
☒ Yes(Negatives Requested)
☐ No

9. PHYSICAL EVIDENCE
☐ Yes
☒ No

10. CONCLUSION

Reports followed the Great Planes Inversion sightings of 30 July - 4 August. This folder contains 59 reports submitted to Ellington AFB during 11-31 August 1965. The reports are evaluated as misinterpretation of conventional objects.

11. BRIEF SUMMARY AND ANALYSIS

10 Reports are probably A/C
7 Reports are probably either Satellites or A/C
14 Reports attributed to a Satellite
5 Reports were Insufficient Data for Evaluation
4 Reports were of Meteors
14 Reports were probably Stars/Planets
1 Report contained conflicting data
1 Report regarded as an unreliable report
1 Report considered as due to psychological Causes
1 Report either a Balloon or Astro object
1 Report followed up with Form 164
59

1 Report stated that photos were taken. Negatives requested.

DEPARTMENT OF THE AIR FORCE
2578TH AIR BASE SQUADRON (CONAC)
ELLINGTON AIR FORCE BASE, TEXAS 77030

REPLY TO ATTN OF: BDO-A

31 August 1965

SUBJECT: Transmittal of UFO Reports

TO: Foreign Technology Division
Wright-Patterson AFB, Ohio
ATTN: Major Hector Quintanilla

Attached are reports of UFOs received from personnel in the Houston, Texas, area 27 through 30 August 1965, investigating officer's notes, and a letter received in this office from a helpful citizen.

FOR THE COMMANDER

LAURENCE R. LEACH, JR., Major, USAF
Assistant Director of Operations
Directorate of Operations

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Nam[redacted] Addre[redacted]

Phone [redacted] Age ____ Occupation ____

b. Shape of Object DIAMOND c. Color ____

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
4" IN DIA e. Number of Objects ONE

f. Formation, if more than one ____

g. Unusual features of object ____

h. Was there a tail, vapor trail, or exhaust? ____ i. Any Sound ____

j. What called attention to the observer ____

k. What angle and elevation was the object on first observance ____

l. What angle and elevation was the object when disappeared ____

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object ____

n. How did the object disappear (instantly, to the north, no direction, etc.) ____

o. How long was the object visible (5 min, 1 hour, etc.) ____

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.) ____

q. Time and date of sighting ____

r. Light conditions (night, day, dusk) ____

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) ____

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) ____

u. Temperatures of day (80°, 90°, etc) ____

v. OTHER INFORMATION not answered above: ____

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

Similar to rpt #45 (Reverse) 49

1. How rules would be used at this time.

2. How they would be used in actual worship
services at this time (note: any setting
is over Hearing electronic equipment)

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Name MR [redacted] Addr [redacted] E.

Phone [redacted] Age ____ Occupation Housewife (11, 14 & 18 children)

b. Shape of Object Round c. Color Orange

d. Size (compare to dime, quarter, baseball, basketball, or larger item)

e. Number of Objects 1

f. Formation, if more than one n/a

g. Unusual features of object Glowing

h. Was there a tail, vapor trail, or exhaust? No i. Any Sound No

j. What called attention to the observer other people

k. What angle and elevation was the object on first observance overhead

l. What angle and elevation was the object when disappeared

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object N.W.

n. How did the object disappear (instantly, to the north, no direction, etc.) Moderately fast to N.W

o. How long was the object visible (5 min, 1 hour, etc.) 10 min stationary

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.) Naked eye

q. Time and date of sighting 9 p.m. 11 Aug

r. Light conditions (night, day, dusk) night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) SE of Houston

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) Clear

u. Temperatures of day (80°, 90°, etc)

v. OTHER INFORMATION not answered above:

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

Similar to rpt. #xx (see over) US

1. Raw radar reveals no UFO at this time.
2. Houston tower reveals no unusual visual sightings at this time (note: due to sighting in area. Houston Intercontinental airport)

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Name [redacted] Add [redacted]

Phone [redacted] Age 21 Occupation KLM American Pilot.

b. Shape of Object Round c. Color Red - bright yellow

d. Size (compare to dime, quarter, baseball, basketball, or larger item) Base ball e. Number of Objects (1)

f. Formation, if more than one N/A

g. Unusual features of object Changing colors

h. Was there a tail, vapor trail, or exhaust? No i. Any Sound No

j. What called attention to the observer star watching

k. What angle and elevation was the object on first observance 45° A - 35000 ft. over.

l. What angle and elevation was the object when disappeared 35° A - 40,000 ft.

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object East to west. South south - to South North - raise and lower

n. How did the object disappear (instantly, to the north, no direction, etc.) straight up disperned.

o. How long was the object visible (5 min, 1 hour, etc.) 30 minutes

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.) Naked Eye

q. Time and date of sighting 13 Aug 55 - 2000 hrs.

r. Light conditions (night, day, dusk) night.

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) North west of Houston

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) 70°

v. OTHER INFORMATION not answered above:

wanted to find out what it was.

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Name [redacted] Address [redacted]

Phone [redacted] Age 52 Occupation Salesman

b. Shape of Object Round c. Color white

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
basketball e. Number of Objects 1

f. Formation, if more than one n/a

g. Unusual features of object

h. Was there a tail, vapor trail, or exhaust? no i. Any Sound no

j. What called attention to the observer watching star

k. What angle and elevation was the object on first observance 10 o'clock
Looking North - 30000 ft

l. What angle and elevation was the object when disappeared 2 o'clock.

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object [illegible]
Moving to East to South East

n. How did the object disappear (instantly, to the north, no direction, etc.)
Faded out

o. How long was the object visible (5 min, 1 hour, etc.) 5 min or less

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
Naked eye

q. Time and date of sighting 12 Aug 65 - 2015 hrs.

r. Light conditions (night, day, dusk) night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) [illegible]

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) 90

INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Name [redacted] Address [redacted]

Phone [redacted] Age 23 Occupation City Bus driver

b. Shape of Object Round c. Color Bright Bright silver

d. Size (compare to dime, quarter, baseball, basketball, or larger item) Baseball e. Number of Objects 1

f. Formation, if more than one N A

g. Unusual features of object

h. Was there a tail, vapor trail, or exhaust? N/o i. Any Sound No

j. What called attention to the observer Just looked

k. What angle and elevation was the object on first observance

l. What angle and elevation was the object when disappeared

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object Northeast - Straight

n. How did the object disappear (instantly, to the north, no direction, etc.) fast

o. How long was the object visible (5 min, 1 hour, etc.) 2 1/2 min

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)

q. Time and date of sighting

r. Light conditions (night, day, dusk) day

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) North east

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) Clear

u. Temperatures of day (80°, 90°, etc)

v. OTHER INFORMATION not answered above:

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

All needed for investigation

4P

1. ADW radar worked no UFO's

2. Houston approach control (radar) reported negative UFO's

3. Weather

0700 20 O/C 8 miles vis. winds calm. Ground fog at Ellington but clear at Houston Intercontinental. Inversion layer (wind not available.)

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a.Name [redacted] Address [redacted] Houston, Tex

Phone _____ Age 18 Occupation None

b. Shape of Object flat circular disc c. Color silvery

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
size of 3 houses joined e. Number of Objects 1

f. Formation, if more than one n/a

g. Unusual features of object 2 light like things on each side

h. Was there a tail, vapor trail, or exhaust? ____ i. Any Sound Roaring (tornado)

j. What called attention to the observer Heard noise and looked up

k. What angle and elevation was the object on first observance Vertical - directly overhead.

l. What angle and elevation was the object when disappeared 1000 fts

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object West - going straight.

n. How did the object disappear (instantly, to the north, no direction, etc.)
Saw it disappear over horizon.

o. How long was the object visible (5 min, 1 hour, etc.) 30 min

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
naked eye - Used binoculars to observe departure.

q. Time and date of sighting 1100, 18 Aug

r. Light conditions (night, day, dusk) day, slightly cloudy

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) SW Houston

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) Broken clouds

u. Temperatures of day (80°, 90°, etc) 92°

v. OTHER INFORMATION not answered above: Hovered in field 3 blocks from home about 4 feet off ground then went --- Party hung up on the phone before other questions could be asked. Also, wanted to know if there would be an investigation. When informed that such would be determined later, he lost interest.

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Name Miss [redacted] Address [redacted] Texas

Phone [redacted] Age 17 Occupation Student.

b. Shape of Object long, but thin in Front, and large in the back c. Color GREEN AND RED then turned white

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
150 Feet Long e. Number of Objects One

f. Formation, if more than one None

g. Unusual features of object ONE Window, Triangler Shape

h. Was there a tail, vapor trail, or exhaust? No i. Any Sound No

j. What called attention to the observer she was looking up at the stars when she notice it.

k. What angle and elevation was the object on first observance
About a 60° angle of Elevation

l. What angle and elevation was the object when disappeared
Below the Horizon

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object Appeared to come from the west and disappeared in the TREES toher right (Westerly Direction)

n. How did the object disappear (instantly, to the north, no direction, etc.)
Slowly and then picked up speed.

o. How long was the object visible (5 min, 1 hour, etc.) 10 Seconds

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
naked eye

q. Time and date of sighting 18 Aug 1965 2230 hrs

r. Light conditions (night, day, dusk) Night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) west of Alandale

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) 82°

v. OTHER INFORMATION not answered above: None

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

Let more like this investigation! 50

Investigation:

At approximately 1430 hours, 19 Aug, Mrs [redacted] called to report, in a very upset manner, that her daughter was still upset over what the law did with Ryan (see report on record file). He said he had gone to the area (field across from his house) where his daughter thought the law "gone skip" land. He said there was a big hole there and some footprints. I attempted to calm him down and then asked him if would object to the Austin police investigate. He agreed, and I requested the police dept. to send a car to both the area ASAP. at 1445 Officers Rhodes and [redacted] and stated that he talked with Mr. [redacted] but his daughter wasn't at home. He investigated the area but couldn't find any hole, footprints, or anything else suspicious. A check was accomplished with NCIC index. They had an "unknown" at 112 Lewis which was later identified as a deceased person. However, the area under consideration is in the local ground clutter due to the slope. No further action is planned.

[redacted]

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO [redacted]

3.a. Name [redacted] Address South Park, Texas

Phone [redacted] Age 36 Occupation Signal Oil and Gas Co

b. Shape of Object Looked like a star c. Color White Glow

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
RoseBall e. Number of Objects ONE

f. Formation, if more than one None

g. Unusual features of object None

h. Was there a tail, vapor trail, or exhaust? None i. Any Sound None

j. What called attention to the observer He was looking up at the stars

k. What angle and elevation was the object on first observance
80° angle of elevation

l. What angle and elevation was the object when disappeared
40° angle OF elevation

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object Traveled in a S pattern East to West about 4 O'clock High then turned to the north.

n. How did the object disappear (instantly, to the north, no direction, etc.)
High rate of Speed

o. How long was the object visible (5 min, 1 hour, etc.) less then 2 minutes

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
Naked eye

q. Time and date of sighting 19 Aug 1965 0105 hrs

r. Light conditions (night, day, dusk) Night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) west towards Houston

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) 75°

v. OTHER INFORMATION not answered above: None

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

Texas Notebook

Splendor Out of the Night's Sky

SEE RPT #75 →

This was a result of my coordination with the Museum of Natural Science. It actually occurred on Aug 27 & not July 27th.

Louis Hofferbert is still on special assignment. Today's guest columnist is Armand Yramategui of the Houston Museum of Natural Science.

BY ARMAND YRAMATEGUI

ON JULY 27, at 2:30 a.m., Mr. and Mrs. W. H. Janes Jr., 942 Thornton, were returning to Houston after a vacation trip. Traveling south on Interstate 45, Janes saw a spectacular sight. To his right and in the direction of Huntsville State Park he observed a brilliant object streaking down almost vertically. As the brilliant white sphere reached a point close to the horizon it seemed to explode and the country-side was momentarily bathed in white.

Rare Sight

His wife, asleep in the front seat, was awakened by the flash of light. No sound was heard. We frequently see "shooting stars" or, to use a better term, meteors, in the sky. To see one brilliant enough to cast shadows, however, is unusual and the average individual may see such a fireball one or twice during a lifetime.

Although many fireballs are blue-white in color, others are vivid red, green or orange. Sparks frequently fly in all directions from the fireball and a long trail will persist in the sky for several minutes.

If it is relatively close you may hear a rumble similar to thunder and possibly a whishing sound. The average meteoroid is usually smaller than a grain of sand and it is believed that it is debris left in orbit by a comet. As the earth whirls through space at a speed of nearly 70,000 m.p.h. these meteoroids are intercepted. When they strike the earth's atmosphere they burn completely and only a tiny cinder floats down to earth.

A fireball is a very brilliant meteor that because of its size is probably not cometary debris but possibly part of a shattered planetoid. Being larger, friction with the atmosphere would cause only its outer surface to burn and slough off. The remainder would strike the earth and this visitor from outer space is a meteorite.

Found in Fields

Meteorites are most likely to be found by farmers plowing fields in regions where there are no natural rocks. In order to keep it out of his way a farmer may place it alongside a fence line or may use it to tie down a fence. Some meteorites are of iron while others are stony.

Although of no commercial value, meteorites are valuable to science and their study adds to our understanding of the universe. When given to such organizations as the Houston Museum of Natural Science they are not only available for study by qualified scientists but available also to the public to see and enjoy.

The meteorite seen by the Janes may never be found since no other reports came in and these are necessary to help plot its path. It may have fallen as far west as San Antonio. If you see a fireball report it to your local newspaper. It is possible that others may yet thrill, though vicariously, to your visitor from outer space.

Houston Chronicle

What's going on?

What's going on? What's with the story . . . several weeks ago, "Martians Wonderful" (Post Aug 15) and all the flying saucer reports? Mainly the one when a man saw a spaceman come out of a saucer in Florida that several of Houston's main radio stations made so much of? Are these true or just a lot of fiction?

NAME WITHHELD

Houston

"A lot of fiction" may be oversimplifying it, Mr X, but Major Hector Quintanilla of the Air Force (Post Aug 29) says all these strange things aren't strange at all, and that so far they have all been explainable.

Atmospheric conditions play tricks on the human eye or on radar and, hey, there it is, a flying saucer!

Quintanilla says all the reports investigated in 18 years have turned out to be balloons, aircraft, reflections of ground lights, satellites (there are a number of these going around up there now), meteorites, fireworks, flares, chaff, satellite junk, birds, planets or other heavenly bodies, searchlights, jet exhausts, hoaxes, or mirages.—Editor.

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.)

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) CLEAR.

u. Temperatures of day (80°, 90°, etc)

v. OTHER INFORMATION not answered above: RECEIVED PHONE DRIVING ⇒ SOUTH ON HIGHWAY JUST BEFORE ENTERING SOUTH PART SOUTH OF HOUSTON. WHILE DRIVING OBJECT WAS WITHIN 1 MILE OF OBSERVER. FIRE ALSO SAW.

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

IT WAS FIRE OR SMOKE OBSERVED. UPWARD TO BE GIVEN A DISTANCE FROM ROAD.

OVER.

75

27 Aug.

Mr. [redacted] the Hunter Museum of Natural Science said this sitting sounds very much like a meteorite and will call Mr. [redacted] to get additional information. He will investigate and call me back on 30 Aug.

JL

30 Aug

Mr. [redacted] stated today that he talked with Mr. [redacted] and his description of the object does not doubt in his mind that this was a meteorite. He checked with the newspaper and police in the Huntsville area but could not find anyone else that saw it. He is putting an article in the Hunter paper on Thurs. (2 Sept) requesting anyone else that saw or heard it to contact him.

Land object observed at 20:15 hours 7 Sept 65.
Object seemed to come off of the moon and go
to the west very fast. It went higher and then
slowed down, then stopped. Then it started to
move up and down for a while. It then
started westward, change course and went
to the south and stopped again. Object
then went down towards the earth for about
10 min. Object disappeared at about 45°.

ADDITIONAL INFORMATION ON UFO SIGHTING

16 September 1965

The following additional information was secured from Mr. [redacted] over the phone on this date. Mr. [redacted]'s residence is located in the southern part of Houston, 3 miles west of the Houston International Airport.

Mr. [redacted] "On the night of 13 September 1965, between 7:10 and 7:15 p.m., my wife and I observed a round dazzling white object coming from the direction of the airport (Houston International) about 1000' high and traveling slow (estimated between 80 and 100 mph). The object was traveling in a southerly direction towards Galveston and changed altitudes up and down about 100' in each direction. It did not hover and there was no noise associated with its flight. It faded away as it traveled south. Object appeared to be about 1/2 the size of an airliner or about 100 to 150' in diameter. It was a clear night and I am sure that it was not an aircraft from the airport because I am used to seeing them fly over the house. Also, it did not seem to take the same path that most of the planes from the airport take. I am sure that this was not a reflection because the light was so bright that it almost hurt my eyes to look at it. There were no lights on the object other than the large bright light. The sun had gone down and it was dusk and therefore I do not believe it could be the reflection of the sun off an aircraft. Soon after losing sight of this object, other aircraft passed over the house in their landing patterns to the airport. No one else, to my knowledge, saw this object other than my wife and myself."

INVESTIGATION:

1. The statement contained in paragraph "Other Information" on the UFO Information Sheet "airliners made pass" does not refer to an airliner making a pass at the unknown object but to the aircraft passing over Mr. [redacted]'s house.

2. A check with the Supervisor (Mr. [redacted]) of the Houston International Airport tower revealed no information on their records indicating such a sighting as contained in this report, either on airport radar or visually by tower operators. Mr. Weitzel felt quite sure that if such an incident happened it would have been observed in the tower because of its close proximity to the airport. Ellington's AC&W radar also reported negative radar UFOs during this period. No further investigation is planned by this office unless directed by your section.

ADDITIONAL INFORMATION ON UFO SIGHTING

0900, 16 Sep 1965

Talked with Mrs [redacted] by phone on this date. She stated that when she was going outside the house to hang the wash she looked up in the sky and saw a large round object, estimated to be fifty feet in diameter, over her house. The object was very shiny and bluish silver in color and seemed to blend in with the sky. She could not tell exactly how high it was but stated that it was very low and compared in altitude to helicopters that occasionally passed over her house. She said there was no noise associated with the object and it was definitely not any type of aircraft which she has ever seen. I asked her to describe the shape of the object and she stated that it appeared to be two circles of the same size overlaid on each other with the possibility of windows where the two circles converge. The only other visible identifying feature was something sticking out underneath the object which looked like a TV antenna. She was not sure about the windows because she was so startled and nervous. There were no visible lights of any type. She said although the weather was clear and bright there were some clouds in the sky. The object appeared to go straight up for a while and then headed in a northly direction.

Mrs. [redacted] attempted to call one of her neighbors to show it to her but by the time the neighbor got there the object had disappeared. She has no knowledge of anyone else in the neighborhood seeing this object at this time.

Mrs. [redacted] saw a similar object 12 years ago (approximately 12 May 1953) when she was living in another house not too far from her present address.

I asked Mrs. [redacted] if she could draw a picture of the object and send it to me but she stated she was not very good at drawing pictures and could not do it. She reiterated the fact that she knows an airplane when she sees it and this was definitely not an aircraft. She further stated that both she and her husband observed numerous peculiar lights in the sky over her house last night (15 Sep 1965) which had peculiar flight paths not normally associated with aircraft she has seen flying at night.

INVESTIGATION:

Mrs. [redacted] residence is located in the extreme northwest section of Houston and is not immediately adjacent to any active airport. On the map this area appears to be a well developed part of Houston; however, Mrs. [redacted] stated that there are not too many homes around where she lives. A check with the Houston Tower radar and the local AC&W radar failed to disclose any UFOs reported in the area at the time of this sighting. Although I cannot come up with any explanation for this sighting, I do not plan to investigate any further unless directed by your office.

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

9 Sep 10/0120Z

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Name MRS [redacted] Address [redacted]

Phone [redacted] Age 46 Occupation House-wife

b. Shape of Object Like a STAR "Evening" c. Color Yellowish

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
Same as item B e. Number of Objects 11

f. Formation, if more than one None

g. Unusual features of object Goes Real Slow

h. Was there a tail, vapor trail, or exhaust? No i. Any Sound No

j. What called attention to the observer Started watching these objects 2 Weeks Ago.

k. What angle and elevation was the object on first observance over head

l. What angle and elevation was the object when disappeared unknow, went out of sight behind trees.

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object Going North East from the South East.

n. How did the object disappear (instantly, to the north, no direction, etc.)
Slowly behind a large tree

o. How long was the object visible (5 min, 1 hour, etc.) 3 or 4 minutes

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
naked eye

q. Time and date of sighting 1920 - 1925 hrs. 9 Sept 65

r. Light conditions (night, day, dusk) Just Turning dark

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) North East of Houston

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) unknown

v. OTHER INFORMATION not answered above: 1920 each
Sometimes it seem to pause in one spot

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1 Sep

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO. [redacted]

3.a. Name [redacted] Address _____

Phone [redacted] Age 17 Occupation Student

b. Shape of Object Round c. Color White

d. Size (compare to dime, quarter, baseball, basketball, or larger item) quarter e. Number of Objects 1

f. Formation, if more than one only one

g. Unusual features of object no

h. Was there a tail, vapor trail, or exhaust? no i. Any Sound no

j. What called attention to the observer Watching for UFO's

k. What angle and elevation was the object on first observance 45°

l. What angle and elevation was the object when disappeared 30° north

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object south to north

n. How did ~~the object~~ disappear (instantly, to the north, no direction, etc.) clouds over Angleton

o. How long was the object visible (5 min, 1 hour, etc.) 5 min.

p. How was the object observed (naked eye, radar, telescope, ~~binoculars~~, etc.) binoculars

q. Time and date of sighting 2015, 1 Sep 65

r. Light conditions (night, day, dusk) ~~[redacted]~~ night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) South of Houston, north of Lake Jackson, Texas

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) 85°

v. OTHER INFORMATION not answered above: This UFO was observed by approximately 6 persons. The mother, sister, and 3 persons who live next door.

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

02/0212Z

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Name [redacted] Address [redacted] Houston, Tex

Phone [redacted] Age 38 Occupation Engineer

b. Shape of Object oblong, fat in center c. Color bright white

d. Size (compare to dime, quarter, baseball, basketball, or larger item) similar to football e. Number of Objects 1

f. Formation, if more than one none

g. Unusual features of object odd shaped star

h. Was there a tail, vapor trail, or exhaust? no i. Any Sound no

j. What called attention to the observer just happened to look up

k. What angle and elevation was the object on first observance 75°

l. What angle and elevation was the object when disappeared Just disappeared into clouds, "or something".

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object Flying to the north then turned easterly, made complete circle of Houston.

n. How did the object disappear (instantly, to the north, no direction, etc.) Instantly to the southwest.

o. How long was the object visible (5 min, 1 hour, etc.) 5 to 10 min.

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.) naked eye

q. Time and date of sighting 2012, 1 Sep 65

r. Light conditions (night, day, dusk) night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) northwest of Houston.

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) Cloudy

u. Temperatures of day (80°, 90°, etc) 75°

v. OTHER INFORMATION not answered above:

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a.Name [redacted] Address [redacted]

Phone [redacted] Age 27 Occupation _____

b. Shape of Object Big star c. Color yellow

d. Size (compare to dime, quarter, baseball, basketball, or larger item) amaller than a dime, but larger than any star e. Number of Objects 1

f. Formation, if more than one none

g. Unusual features of object Bright to dim in color, but not very often

h. Was there a tail, vapor trail, or exhaust? no i. Any Sound no

j. What called attention to the observer just looked up and saw it.

k. What angle and elevation was the object on first observance 30° to west

l. What angle and elevation was the object when disappeared still in sight

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object XXXXXXXXXXXXXXXXXXXXXX

Seems to be moving south to north out of the west.

n. How did the object disappear (instantly, to the north, no direction, etc.)

o. How long was the object visible (5 min, 1 hour, etc.) still watching 30 min.

p. How was the object observed (naked eye, radar, telescope, binoculars, ~~etc.~~)

naked eye

q. Time and date of sighting 1920, 1 Sep 65

r. Light conditions (night, day, dusk) night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) northwest of Houston toward Hwy 90

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) cloudy

u. Temperatures of day (80°, 90°, etc) 82°

v. OTHER INFORMATION not answered above: has finally gotten smaller and disappeared. Was twinkling slightly but not often.

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.
