UNIDENTIFIED FLYING OBJECT SUMMARY
SUMMARY AND EXTRACT SHEET

UFOB REPORT # _____

DATE OF INCIDENT: 9 NOVEMBER 1957

LOCATION OF INCIDENT: VIC. AFTON, OKLAHOMA TIME: 0210 - 0300 hrs (Z) (8:10 TO 9:00 PM)

SUMMARY OF INCIDENT:

Apparently a red, white and green FLASHING light was observed in the vicinity of SE of AFTON, Oklahoma. Observer could not give shape only that it was flashing — and was still in the same position when he reported it.

Note: The flashing light must have been at some distance to the SE — as he required binoculars to see it.

INVESTIGATIVE EFFORTS:

(1) Complete check made of U.S. C&G Aero Charts No 359 + 360. Results: See Final Evaluation: below.

(2). Check if any other UFOs reps from Radar, GOC, air flight operations (mil. + civil), others from that area and general time. Results: Negative!

PHYSICAL EVIDENCE:

— None.

FINAL ATIC EVALUATION:

Careful plot and check of facilities in the area of alleged sighting discloses the following:

a. A flashing beacon ESE of Afton - approx. 11 miles away
b. A rotating flashing beacon, approx. 35 miles away - at Bentonville, Ark. SSE
c. A rotating light - with code lights - also SE by S ~~of~~ near ~~Fayetteville~~ Bentonville, Ark.

Conclusions: Other (Prob. Airway Flash. Beacons.
