Dear Sirs:

Although I am only 13, I'm very interested in the investigation of U.F.O.'s. I know I should have an open mind in the matter but I'm very much convinced that U.F.O.'s(from outer space) exist. I have done much research in the matter and am writing to different sources of information on this matter . The reason for believing in these U.F.O.'s is because I've seen 3(with many other reliable people) I called the Air Force(Otis Air Force Base)and talked to Commander Bachelor and told them about it. Here is the description of them:

NOV. 1966 1. TIME SEEN:7:15;small white light turning into a larger red light and moved upward across the sky, in no course at all. Disappeared. Made no sound. About 2 or 3 times larger than a star.

NOV. 1966 2.TIME SEEN: 7:15-7:30;All colors; Moved very slowly; Little larger than a star; Made no sound.

DEC. 1966 3. White light; Moved very fast; Size of star; no sound.

I read the article you wrote in the Science Digest December 1966 Issue and I'd like to say that I was nervous, but happy when I saw the objects. I did not panic.

100374

This matter on U.F.O.'s is very important to me. I am being called crazy,etc. because I feel so strongly in them, but somehow we will find a conclusive proof on these objects.

I would appreciate it very much if you could send me some information on the subject of U.F.O.'s. My address is below. Please send as quickly as possible. THANK YOU FOR YOUR TIME.

Yours very truly,
