Dear Blue Book,

My mother saw a U.F.O. but feels she ridiculous about writing to you because she never believed in them.

It was on November 28, 1966 a Monday. The time of day was about 5:15 P.M. E.S.T. (the) It appeared approximately 200 yards above my mother. The duration was about one minute. Its color was white and lit up all over, It did not pulsate or make any sound. It was always level with the ground. The size was that of an oil truck (the kind that make home deliveries), Its shape was that of a stretched out egg. The estimated speed was about 5-10 miles per hour. The weather was so: dreary cloud cover, chilly and rainy. (No airplane were allowed to take off from the Philadelphia or land. airport.) My mother's emotional state before the siting was sad and (very) dreary. My mother wishes no publicity. Her name and address is [redacted] Circle Media Penna. The sighting was on Rosevally Road, Nether Providence, Township near Media.

If you would like to know the name of the other small road near the sighting; She

could find it out for you.

Sincerily Yours

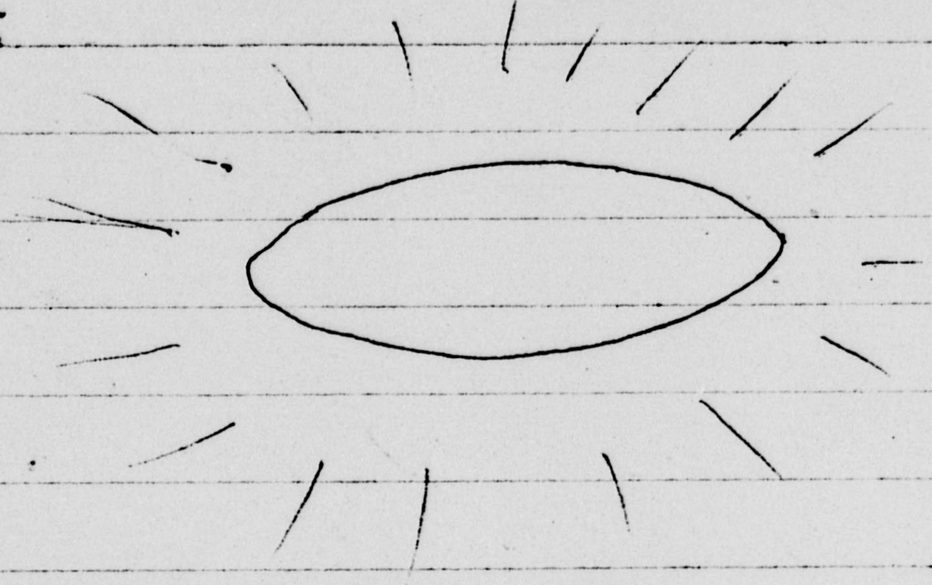
P.S. Please ~~write~~ what you think of it.



P.S.

At dusk. <u>all</u> lit-white.

The car in front of me made a sudden right turn up the side street to follow it. He didn't have his turn signal on — but when this UFO appeared he quickly turned off in the direction "it" was proceeding. I am <u>sure</u> he saw it too, but I didn't turn as I was leaning down to watch it out my ~~left~~ right hand window. It was definitely not a plane — or like anything I ever saw before. — B.B.
