AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency) Headquarters, 3800th AU Wing Maxwell AFB, Alabama	REPORT NO. IR-1-53	PAGE 2 OF 2 PAGES
---	-----------------------	----------------------

At 1705C, 11 January 1953, an unidentified flying object was sighted by approximately twenty(20) citizens of Gadsden, Alabama. Among the sighters were the [REDACTED] and the [REDACTED] [REDACTED] interviewee, sighted the object while taking daily weather observations. The object was sighted NNW of the town of Gadsden at an estimated altitude of eight(8) or nine(9) thousand feet traveling SSE for five(5) to ten(10) minutes during which time it traveled from one horizon to the other. [REDACTED] had handy a small pair of binoculars through which he viewed the object. The object appeared to be a bright, glowing, multicolored mass but the relative size and shape were not ascertainable. There were no sounds nor were there any signs of an exhaust such as vapor trails. The weather was clear, visibility twelve(12) to fifteen(15) miles, and moderate winds NNW. The object seemed to be drifting with the winds and finally beyond the horizon. There was no air traffic in the location at the time. [REDACTED] knew of no meteorological conditions existing at the time that would cause such a sighting. Only one(1) object was seen and there is no known existing physical evidence (photographs, etc.).

AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency) Headquarters, 3800th AU Wing Maxwell AFB, Alabama	REPORT NO. IR-1-53	PAGE 2 OF 2 PAGES
---	-----------------------	-------------------

At 1705C, 11 January 1953, an unidentified flying object was sighted by approximately twenty(20) citizens of Gadsden, Alabama. Among the sighters were the Civilian Air Defense Director and the Manager of the Gadsden Airport, Mr. James Lassiter. Mr. Lassiter, interviewee, sighted the object while taking daily weather observations. The object was sighted NNW of the town of Gadsden at an estimated altitude of eight(8) or nine(9) thousand feet traveling SSE for five(5) to ten(10) minutes during which time it traveled from one horizon to the other. Mr. Lassiter had handy a small pair of binoculars through which he viewed the object. The object appeared to be a bright, glowing, multicolored mass but the relative size and shape were not ascertainable. There were no sounds nor were there any signs of an exhaust such as vapor trails. The weather was clear, visibility twelve(12) to fifteen(15) miles, and moderate winds NNW. The object seemed to be drifting with the winds and finally beyond the horizon. There was no air traffic in the location at the time. Mr. Lassiter knew of no meteorological conditions existing at the time that would cause such a sighting. Only one(1) object was seen and there is no known existing physical evidence (photographs, etc.).
