UFO Observations

[redacted]

Minneapolis, Minnesota 55407

Dear Mr. [redacted],

Reference your letter of 5 December 1966 regarding the observation of an unidentified flying object approximately one month earlier. The sighting that you mentioned occurred while you were walking through a deserted park. Comprehensive analysis can be made if you complete the enclosed FTD Form 164 and return it in the envelope provided.

In regards to your other observations, at such a late date a detailed and meaningful study would be extremely difficult.

Thank you for reporting your observations to the Air Force.

Sincerely,

HECTOR QUINTANILLA, Jr, Major, USAF
Chief, Project Blue Book

One of my ~~incident~~ sightings is related to a story written by a doctor in a current magazine where I saw a low flying unidetiable object (A string of orange lights) land in a field ~~being~~ 10 blocks from me. I got there as fast as I could and when I got there there was a circle of flame in this field. It was in the suburbs of a large city surrounded half by forest. this was quite awhile ago though.

to all investigate

Dear Sir,

I noticed in a magazine that it listed things to do if you see a U.F.O. Having worked for two school papers and two Institution papers I have learned to write both sides to a controversial subject. Well anyway to report the incident, About a month ago I was walking alone through a deserted park and something caught my attention to make me look up at the sky and just like that something appeared. At first I thought it was a falling star but it was real low and large, then I thought it was an airplane since I live near an airport but it was going much to fast for an aircraft and all of a sudden dissapeared. I do have glasses and was not wearing them at the time, they are only for reading. I thought of it being a sattelite but why would it be so low going so fast and dissapearing. It is also true that a couple of weeks later a person I know told me about something he saw from the same place in the park before I told him of my incident. He said a large red light went in a direction like a square and dissapeared in the sky. This incident is the third I have seen and cannot explain. Thank you for your time.

Sincerely,

[redacted]
