Dear Major:

Thank you for your
Dear reply of the 25th
letter. I have kept it out
of the file of letters
until this day, so I
too much of your time.

I am an 8th grader, 13
years old, at Pasler Jr. High
in Dallas, Texas. Recently,
my and a friend of mine
were riding our bicycles
together, and we saw a flying
thing like a wheel
[illegible]
and was the top
[illegible] night
the produce.

The one that looks like a
dog, but is the second picture
I took, and the other one is
the last one I took. The
bell broke off. I did
not take it off.

I hope I have not taken
too much of your valuable
time.

Sincerely,

[redacted]

P.S. If it is not too much
trouble, would you please
send me some information
on Project Blue Book. Thank
you very much for your
time and patience.

U.F.O. sighting

On August 9, 1957, me and a friend of mine had been riding our bikes around together. We were coming back to visit my mom by way of Pony Road when my friend ([redacted]) pointed to round the side of the road. I couldn't see what it was until I caught up with him. I thought the light was some bright object. At first, I thought it was a plane, but I laid down my bike to investigate anyway. Then [redacted] and I had run a little ways toward the object we could see it more clearly. It resembled an airplane. It looked like a giant metallic hat. It was a silver white color on top. On bottom

tom it was black with
a white spot in the
middle. I walked all
a little ways. It looked
like a large stump.
I couldn't see how
that is big. Then I
watched a bird circled
to go I speeded get my
camera. I ran to my
bike and peddled home
as fast as I could.
live just a few blocks away
so it didn't take me long
to get back. The object
hadn't moved much.
Mark told me to hurry
up and take the picture
hands were shaking
when I took it. I was
ready to take another
picture if it began
to move. Needless to say
had been here for
a little time, but now
it began to move slowly.

I photographed it in the
starting position. Then
it slowly started out again
and began to rise straight
up. I took a picture of
it rising. After that, it
disappeared behind
a cloud. I was afraid
that it would crash into
earth. That was the last
we saw of it. We all
hoped that it landed between
1:00 and 2:00 on Wednesday.

Dear Sir,

Per the D. mentioned you about me sending a film on August 9, 1967. I also sent you pictures which I took of it.

I certainly would appreciate it if you would send me back the two pictures as soon as possible. It is necessary that I have them by September 26.

1. Reference your letter of September 14, 1967 in which you reported your unidentified flying object (UFO) observation and subsequent photographs of August 9, 1967. Additional information on your sighting and your original negatives are needed to perform a scientific investigation. Request you complete the attached photographic data sheet and FTD Form 164 and return them with your original negatives. Upon completion of analysis we will return your negatives along with our findings.

2. Your letter indicates that three photographs were taken of the unidentified object, however, you forwarded only two photographs. Would you please state whether two or three photographs were taken.

3. Reference your letter of September 19, 1967 in which you requested the return of your photographs. Your two photographs are attached. An analysis has not been performed on them.

Dear Sir,

I am extremely sorry about the stir I caused over my "U.F.O.", but it seems that my friends were playing a little joke on me. You see, some of [redacted] friends got together and made up a kite which resembled a U.F.O., so I'm afraid that that's all it was. I can't say how sorry I am at the stir I caused. Please forgive me.

Sincerely,
