COMMENTS Received by AF Form 112. A check by this headquarters with ADC Weather Service revealed that four (4) balloons out of Vernallis, Calif. were in the Montana area, location unknown due to failure of telemetering equipment. It is known that these balloons were at a preset altitude of an 40,000 feet. It is the opinion of this headquarters that this sighting was possibly caused by two of the aforementioned balloons.		
CONCLUSIONS Possibly balloons.

K. MARIO CAPPELLI, Captain, USAF. There is a possibility that this (UFOB), unidentified flying object can be attributed to light reflections from the haze since this is a frequent occurrence in this area, however no conclusion can be definitely reached due to lack of evidence. All pertinent information on the incident is included in this report. Any new information which may occur in the future will be immediately forwarded.
