UNCLASSIFIED

Report of unidentified flying object by Mr. [REDACTED], CID agent, Naval Air Station, Millington, Tenn., reports he and daughter [REDACTED] sighted Unconventional Flying Object while enroute from Ripley, Miss., to Millington. Observers driving Northwest on Highway 72 about two miles from Walnut, Miss. Object sighted at daybreak on morning of 7 April 1952. Object appeared to be very bright with "brilliance of big arc light". Object was many times brighter than aircraft beacon nearby. Traveling too fast to estimate speed. Distance unestimated but object appeared to be smaller than full moon. Object appeared solid. Thinking object was meteor about to crash, observer stopped, and cut off engine. Observers expected crash but object disappeared behind pine trees. Object made no sound, left no trail or exhaust. 516th Wing Comments: Daughter confirmed report. She is employed (garbled) Commissioner Leslie Nicholson, Memphis. Both sources appear reliable, veracity appears unquestionable to this interviewer. Report released by INS described "fireball" sighted, Macon, Mo., about 350 airline miles NNW Memphis early morning 7 April 1952. Considering position of this sighting two objects possibly could have been one and same.

COUNTRY USA-MATS	REPORT NO. IR-166-52	(LEAVE BLANK) AF434159
AIR INTELLIGENCE INFORMATION REPORT		
SUBJECT Unidentified Flying Object over Memphis, Tennessee		
AREA REPORTED ON Tennessee	FROM (Agency) Intelligence Division, Hq MATS, Andrews AF Base, Washington 25, D. C.	
DATE OF REPORT 14 April 1952	DATE OF INFORMATION 7 April 1952	EVALUATION F-6
PREPARED BY (Officer) Charles J. Powley, Captain, USAF	SOURCE Mrs. [REDACTED] Parkview Hotel, Memphis, Tennessee - Tel. 36-2927	
REFERENCES (Control number, directive, previous report, etc., as applicable)		

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

1. Source reports that she sighted an unidentified flying object at 0445C, 7 April 1952, west of the Parkview Hotel, Memphis, Tennessee. Additional information follows:

- a. Number - one
- b. Shape - basket
- c. Size - not estimated
- d. Color - not reported
- e. Speed - unknown
- f. Maneuverability - not maneuvering
- g. Heading - Northwest
- h. Altitude - unknown
- i. Sound - no sound
- j. Exhaust trail - Ring size with bluish light, trailing fire from top

2. The weather at the time of sighting was clear with visibility of 12 miles.

3. At 0841C, 7 April 1952, the Memphis Air Route Traffic Control Center, Memphis, Tennessee, advised the Maxwell Flight Control Center that they had received the above report of a flying object.

4. The controller at Memphis Air Route Traffic Control Center telephoned Mrs. Hunger and verified the report. She seemed very sincere in describing the object but could offer no additional information.

COUNTRY United States of America	REPORT NO. 2 - 52	(LEAVE BLANK) 9440628
SUBJECT Unidentified Flying Objects		
AREA REPORTED ON Memphis, Tennessee	FROM (Agency) 516th Troop Carrier Wg. Intelligence	
DATE OF REPORT 21 April 1952	DATE OF INFORMATION 7 April 1952	EVALUATION F-3
PREPARED BY (Officer) Julius J. Laurenzi, Captain, USAF	SOURCE Mrs Ray H. Menger, Parkview Hotel, Memphis	
REFERENCES (Control number, directive, previous report, etc., as applicable) TWX: 516 TEW - WINT - 4-82		

SUMMARY: (Enter concise summary of report. Give significance in final one sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

At 0445 hours 7 April 1952, Mrs. Ray H. Menger of Parkview Hotel, Memphis, claims to have seen an unidentified flying object traveling N-NW over the heart of the city at a speed "many times that of commercial aircraft" often seen in the same vicinity. Although distance was undetermined, observer estimated a distance of two to four miles. It appeared larger than a full moon and larger than aircraft at a similar distance. The altitude appeared to be that of commercial aircraft routes coming in to Memphis during bad weather (1000 to 1500 feet).

The object sighted was shaped "like a cotton basket", and had a blue-white brilliance with a reddish glow near the top. It made no sound and left no exhaust or vapor trail. It appeared to arc slightly in its trajectory.

The weather was clear and warm and the morning of the sighting the observer was sitting before a large picture window looking north over the city as dawn was just beginning to break. She reported having arisen early to see her husband off on a business trip.

The source of the information is 38 years old and wears glasses while reading. She is the wife of a business executive and by all indications, reliable and rational.

It is highly probable that this observer sighted some unconventional material object.

Comments: Mrs. Menger remained adamant during questioning. However, she expressed a great deal of interest in other sightings and had read recent publicity regarding same. Two reports at nearly the same time lend credibility to this report. Mrs. Menger did not have knowledge of the other sightings (re: report No. 2-52 516th Troop Carrier Wing Intelligence).

COUNTRY United States of America		REPORT 3-52	UNCLASSIFIED (LEAVE BLANK) AF 440413
AIR INTELLIGENCE INFORMATION REPORT			
SUBJECT Unidentified Flying Objects			
AREA REPORTED ON Walnut, Miss.		FROM (Agency) 516th Troop Carrier Wing Intelligence	
DATE OF REPORT 21 April 1952		DATE OF INFORMATION 7 April 1952	EVALUATION A-3
PREPARED BY (Officer) Julius J. Laurenzi, Capt., USAF		SOURCE Mr. C. C. Smith and Audrey Smith	
REFERENCES (Control number, directive, previous report, etc., as applicable) TWX: 516 TCW-WINT-4-81			

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112-Part II.)

Mr. [REDACTED] and daughter, [REDACTED] report sighting an unconventional flying object while en route from Ripley, Miss., to Millington, Tenn., while driving NW on Highway 72 approaching Walnut, Miss.

Object was sighted just at daybreak on the morning of 7 April 1952. The object appeared very bright with a "brilliance of a big arc light", and had a greenish cast. It was many times brighter than an aircraft beacon nearby. Although the object was traveling too fast to estimate speed, it stayed in sight long enough to step the car and observe it indicating that it was a great distance away. The distance is unestimated, but the object appeared smaller than a full moon. It appeared to be solid.

Thinking it was a meteor about to crash, the observers pulled to a stop and cut engine. The observers expected a crash which did not come. The object was still visible when pine trees beside the road obstructed their vision. Exact shape of the object was undetermined because of its brilliance. It made no sound and left no vapor trail or exhaust.

Because of the vivid descriptions given, it is possible the observers sighted a material flying object.

COMMENTS: Mr. [REDACTED] is a CID agent at Naval Air Station, Millington, Tenn. His daughter is an employee of U. S. Commissioner Leslie Nielsen of Memphis. Both appear reliable, and their veracity appeared unquestionable.

A report released by International News Service describes a "fireball" sighted at Macen, Mo., some 350 air miles N-NW of Memphis during the early morning of 7 April 1952. Considering the position of this sighting the objects could possibly been one and the same. A third report, reference Report No. 2-52, 516 TCW INT, appears to fit in the same flight pattern of the above reported object.
