SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

Subject: FLYOBRRPT

In accordance with APL 200-5, dated 29 April 1952, Subject: Unidentified Flying Objects Reporting (Short Title: FLYOBRRPT), the following report of unidentified flying object is submitted:

On 8 May 1952, [redacted] and [redacted], residing at the the American Institute of Foreign Trade, Glendale, Arizona were interviewed by the Regional office # 5, 115th CIO Detachment, Phoenix, Arizona and stated in substance as follows: At 2300 hours 3 May 1952, while driving with their wives, Valeria D. Duncan and [redacted], in downtown Phoenix in a convertible with the top down, they observed an object which they believed to be a flying saucer. The object was moving west at approximately 500 miles per hour. Neither the size of the object, nor its distance, nor altitude could be determined. However, it was cigar-shaped and about five times as long as it was thick. It appeared to be descending at a slight angle. It gave off a phosphorescent white glow and emitted what appeared to be molten drippings or possibly jet exhausts. The object was observed for about four seconds when it suddenly disappeared from view. [redacted] is an ex-member of the United States Air Force, and [redacted] is an ex-pilot of the United States Navy who was formerly a celestial navigator. Both stated that in their experience with aircraft they had never seen any similar object. [redacted] stated that approximately 200 people attending an out-door party at Camelback Inn, Phoenix, Arizona, that same night witnessed the above phenomenon.

The reliability of the informants is unknown and therefore, the truth cannot be judged.
