AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency) Wing Intelligence 3525th Plt Tng Wg (Bsc SE) Williams Air Force Base, Chandler, Arizona	REPORT NO.	PAGE 2 OF 2 PAGES
--	------------	-------------------

Summary of Information:

On 7 May 1952, Mr. [REDACTED] Street, Phoenix, Arizona, was interviewed and stated in substance as follows: At 2200 hours 5 May 1952, [REDACTED] observed an object in the sky which he believed to be a flying saucer. The object was moving in a northeasterly direction at an altitude of approximately ten thousand feet and was ascending at an angle of about ten degrees. The shape of the object could not be determined. However, it gave off an iridescent bluish-green light similar in color to the arc made by an electric welder. The speed of the object could not be determined, but was believed to be in excess of 1,000 miles per hour. The object was observed for about two seconds. No sound was attributed to the object. (F-6)

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112--Part II.)

Subject: FLYORRPT

In accordance with AFL 200-5, dated 29 April 1952, Subject: Unidentified flying Objects Reporting (Short Title: FLYORRPT), the following report of unidentified flying object is submitted:

On 7 May 1952, Mr. [REDACTED], 1010 N. 10th Street, Phoenix, Arizona, was interviewed by the Regional Officer # 5, 115th GIC Detachment, Phoenix, Arizona and stated in substance as follows: At 2200 MGT on the 5th of May 1952, [REDACTED] observed an object which he believed to be a flying saucer. The object was moving in a northeasterly direction at an altitude of approximately 10,000 feet and was ascending at an angle of about 10 degrees. The shape of the object could not be determined; however, it gave off an iridescent bluish-green light similar in color to the arc made by an electric welder. The speed of the object could not be determined, but the object was believed to have been going at a speed in excess of 1,000 miles per hour. The object was observed for about two seconds. sound was attributed to the object.

The reliability of the informant is unknown and therefore, the truth cannot be judged.
