Selfridge Air Force Base
Mt. Clemens, Michigan

1. A Mr. [redacted] Ogden Dunes, Indiana, telephoned this headquarters on 17 July 52, at approximately 1500 hours and gave the following report:

At approximately 2200 hours on 16 July he noticed a large orange-colored light in the sky moving very fast from west to east across Lake Michigan. It seemed to be about 2,000 feet high and travelled on a straight line out over the horizon. It did not zigzag as a meteor might. It was about the size of a full moon and disappeared very suddenly from sight. Another object appeared about one minute later, same description, and it too disappeared at about the same place. He was at the lake front in East Chicago, Indiana when he observed the objects.

2. This headquarters contemplates no further action in the matter.

CHARLES W. TENNANT
Lt Colonel, USAF
Acting Air Provost Marshal
INSPECTOR GENERAL'S OFFICE

Telephone transcript of conversation between [REDACTED] and Lt. Col. C. W. Tennant, Acting Air Provost Marshal, WEAPD, on 29 July 1952, at approximately 1300.

Col. Tennant: Col. Tennant speaking.

[REDACTED] Hello. I would like to report on a flying saucer I saw.

Col. Tennant: Do you mind if I record this call.

[REDACTED] Not at all.

Col. Tennant: O.K. and who is this speaking.

Col. Tennant: [REDACTED]

[REDACTED] That's right.

Col. Tennant: And where do you live, [REDACTED]

Col. Tennant: [REDACTED]

[REDACTED] That's right.

Col. Tennant: In Los Angeles?

[REDACTED] That's right.

Col. Tennant: O.K. Tell me what you saw.

[REDACTED] Well, it was the night of the 16th of this month and it was about 8 o'clock at night. I was in the Baldwin Hills area and I was climbing the hills around there when I went down into this ravine where they hold motorcycle races every Sunday and I saw 2 saucers that were on the ground and they were about 15 feet wide and about 2 feet thick and they had a dull bluish green glow.

Col. Tennant: I see.

[REDACTED] And they weren't "lying" on the ground. They were on stilts like. They were attached on the body of the saucer and they were about 3 feet off the ground and I was with my brother, [REDACTED]

Col. Tennant: [REDACTED]

[REDACTED]: That's right.

Col. Tennant: I see.

[REDACTED]: And we looked at them for about five minutes. Finally, we decided we should go down there and get a closer look. So we were about 25 feet away when the objects gave a sharp whine and shot straight up in the air. They were gone in about 5 seconds. That was all that we saw then, except for that five-minute look that we had from about 100 feet away.

Col. Tennant: 100 feet away.

[REDACTED]: That's right.

Col. Tennant: Did they leave any imprint on the ground?

[REDACTED]: I don't know. We went down there where the saucers were and we saw nothing at all.

Col. Tennant: A bluish grey color.

[REDACTED]: That's right. It was sort of a glow, like a fluorescent glow.

Col. Tennant: How old are you Larry?

[REDACTED]: I am 14.

Col. Tennant: And your brother's age?

[REDACTED]: 13.

Col. Tennant: Well, thank you very much for the information. Somebody might call on you [REDACTED]

[REDACTED]: O.K.

Col. Tennant: Thank you very much.

[REDACTED]: Your're welcome.

FROM (Agency)	REPORT NO.	PAGE	OF	PAGES
SAAMA	UNCLASSIFIED	1	1	1

In accordance with Air Force Letter 200-5 dated 29 April 1952, the following information is submitted:

(1) A single, cigar shaped object was seen flashing low across the sky by Mrs [REDACTED], a civilian employee at Kelly AF Base, Texas. Object appeared to the observer to be approximately three by six feet and emitted a green, phosphorescent color. No aerodynamic features were noticed by observer. Observer could not recall having seen any trail or exhaust nor hear any noise made by object. Object flew a straight and level flight at a tremendous, but undetermined, rate of speed. Observer stated that object traveled faster than any conventional aircraft seen by her. Object disappeared rapidly.

(2) The observer was uncertain about the time object was sighted but states that it was between 2300 hours 15 July 1952 and 0200 hours 16 July 1952, Central Standard Time. Length of time observed estimated at between three to five seconds.

(3) A visual ground observation was made.

(4) The observer was at her residence, [REDACTED] Drive, San Antonio, Texas at the time of sighting. Object was in the Southeast sky, bearing West, distance undetermined, altitude estimated at 150 to 200 feet.

(5) Reliability of observer unknown.

(6) Fair weather prevailed at the time of the sighting.

(7) No apparent logical explanation for the sighting.

(8) No physical evidence of sighting.

(9) No interception or identification action taken.

(10) Location of any air traffic in the general area at the time of the sighting unknown.

SIGHTINGS OF UNIDENTIFIED FLYING OBJECTS
OVER SPAIN AND AFRICA, JULY - OCTOBER 1952

16 July 52
Rabat, Fr. Morocco

DISKS APPEAR OVER MARRAKECH -- Rabat, L'Echo du Maroc, 17 Jul 52

Marrakech (special correspondent) -- At 2100 hours [presumably on 16 July 1952], many people saw a large, luminous disk flying horizontally, with a leaping and bounding motion. Then, there was a burst of light. A second disk of smaller dimensions appeared, going off horizontally toward the southwest. The whole appearance lasted about one minute.

From several points of the Marrakech region, luminous disks were seen traveling at a dizzy speed.

On 14 July, flying saucers had been seen over the Ifrane region, flying toward Meknes.

LUMINOUS DISK OR BALL SEEN OVER MOULAY BOUSSELHAM -- Rabat, L'Echo du Maroc,
5 Aug 52

On 2 August 1952, at about 2045 hours, a group of five trustworthy persons saw a luminous disk or ball in the sky over Moulay Bousselham, French Morocco. The object, red in the center and bluish around the edge, flew very rapidly from southeast to northwest, remaining visible for at least 20 seconds before it disappeared over the horizon.

SAUCER-LIKE CRAFT SEEN IN SPAIN -- Tangier, Espana, 12 Aug 52

5. According to the Cifra news agency, on the evening of 10 August 1952, a resident of Cuenca, Spain, while walking along the Cuenca-Madrid road, saw an object similar to the so-called flying saucers. It crossed the sky at high speed in a matter of seconds. The object was round and gave off two luminous trails. REF CASE-16 JUL 52, RABAT, FR. MOR.

6. OBSERVE TWO STRANGE FLYING OBJECTS IN SPAIN -- Tangier, Espana, 22 Aug 52

REFER TO 16 JUL 1952 - RABAT, FR MOR.

6. Several inhabitants of Puerto Real, 6 kilometers from San Fernando, recently saw two elongated oval objects in the sky approaching each other from opposite directions. When it seemed that they were about to collide, each object made a right turn, picked up speed, and then disappeared. The objects flew at a great height, seemed lead-gray in color, and appeared to be piloted.

(CLASSIFICATION)

AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)	REPORT NO.	PAGE	OF	PAGES
Langley Air Force Base, Va.	TAC IR-6-52	1	2	

- Two amber lights, further apart than they would be on a plane, were flying northwards. Size unknown. No noise, no sound. The two amber lights made 180 degree turn towards the West. The apparent altitude varied from about 10 degrees when first sighted to about 20 degrees altitude at the middle of their turn. When these two lights made the turn they jockeyed for position in a jagged movement. About this time a third light came up and joined them, placing itself right beneath the other two. They were a strong amber or straw color. There was no variation of intensity or change in the appearance of the lights when they turned. There was an airplane coming from the Southeast, the direction of Norfolk Airport, toward the Northwest and, as it came across Hampton Roads, it seemed to cut right between the lights. The noise of the airplane was heard and its green and white lights seen. This placed the fact that the yellow lights were apparently well in the background of the airplane. Other than this no estimate of their distance or size was possible. As they went South, they held constant altitude for a while and then seemed to be climbing until they were possibly twice as high as when they first were seen. After traveling South about a minute, three other lights appeared to join them as they went away, seeming to form more or less of a circle and faded out in the distance.
- The time of this sighting was 2100 to 2103 EST.
- Observed from the ground, looking South over Hampton Roads. No type of optical or electronic equipment was used.
- The observer was on Chesapeake Avenue, two blocks West of [REDACTED] Avenue, Hampton, Virginia. Actual altitude and size of objects unknown. The first two lights approached observers from distance unknown at an angle of 10 degrees flying from South to North.
- Mr. [REDACTED], Assistant Division Chief (with 13 years experience), Pilotless Aircraft Research Division of NACA, Langley AFB, Virginia, was the observer making report. This incident was also witnessed by his companion, Miss [REDACTED] Librarian at NACA, 145 Victoria Avenue, Hampton, Virginia.
- Hampton Weather: 2030 EST: 4000 ft scattered, 25000 ft scattered, Visibility 10 Miles, Winds S-SW 10 Knots, Lightning cloud to cloud N-NW. At 2130 EST: 4000 ft scattered, Visibility 10 miles, Winds S-SW 8 Knots: Occasional lightning cloud to cloud N-NW.
- There is a very slight possibility that lightning from cloud to cloud from N-NW might have affected these sightings.
- There were no fragments, nor photographs.

SPOT INTELLIGENCE REPORT

24 July 1952

15D 24-0

SUBJECT: Sighting of Unidentified Aerial Object,
17 July 1952, by Mr. [REDACTED]
[REDACTED], Long Beach, New York
SPECIAL INQUIRY

TO: Director of Special Investigations
Headquarters, USAF
Washington 25, D.C.

1. On 21 July 1952, this office was advised by Mr. [REDACTED] that he had sighted an unidentified aerial object while aboard a United Airlines airplane, east of Sandusky, Ohio over Lake Erie, at about 11:00 AM on 17 July 1952.

2. Mr. [REDACTED] described himself as a private pilot since 1929 and the owner of a Buick agency in Brooklyn, N.Y. According to [REDACTED] the United Airlines plane was approximately 12,000 feet when the object was sighted at three or four thousand feet, and was estimated to be 150-200 feet in diameter. This object was further described as round, with the outer border of approximately 75 feet being a reddish color and having a black center. Mr. [REDACTED] stated that during his observance the object was stationary. He did not make a report of this information to the pilot of the plane.

3. In accordance with AFCSI Letter 85, dated 23 October 1950, two copies of this letter are being directed to the Commanding General, Air Materiel Command, Wright-Patterson AFB, Dayton, Ohio, Attention MCIS.

4. This office does not contemplate further inquiry into this matter.
