AIR INTELLIGENCE INFORMATION REPORT		
SUBJECT (UNCLASSIFIED) Unidentified Flying Objects Reporting (Short Title: FLYOBRPT)		
AREA REPORTED ON Middletown Air Materiel Area	FROM (Agency) Intelligence Office Olmsted Air Force Base, Middletown, Pa.	
DATE OF REPORT 27 August 1952	DATE OF INFORMATION 25 August 1952	EVALUATION
PREPARED BY (Officer) John L. Spiegel, 2d Lt, USAF	SOURCE Civilian Observer	
REFERENCES (Control number, directive, previous report, etc., as applicable) Air Force Letter No. 200-5, 29 Apr 52		
SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)		
Mr. [REDACTED] Palmyra, Penna., [REDACTED] reported sighting an unidentified flying object on 24 August at 2150Z. Mr. [REDACTED] described a "very bright" light in the West approximately 45° above the horizon which remained stationary in the sky. The light was visible for approximately five minutes and three times during this period it "blinked on and off". At the end of five minutes it disappeared and did not reappear. Three other members of Mr. [REDACTED] family also witnessed the sightings. Mr. [REDACTED] is employed as a signal maintainer on the Reading Railroad. The observer explained that there was an aircraft in the area at the time which he was also observing, but he stated that the reflections from the plane were quite different from the light which he reported. Weather at the time was clear with 15 miles visibility with winds at 8 from the northwest. This office can offer no definite explanation of the sighting. The length of observation seems to discount the probability of an aircraft but it would appear that a weather balloon is still a strong possibility.
