I went out on my front porch which faces east. Saw this peculiar light peculiar silhouette start flicker as it approached me had a resonance jumpy as it moved or said. I call to my family and my daughter said she has seen the light out there when she went out there 15 or 20 minutes before I did. When my husband and children got to the porch they viewed it for a minute or two all at once it started sailing up and went out of sight for a second and then drop down a little. When I first saw it there weren't but about two others in the sky. I told my husband to go to town and tell some one about it. Couple of men were on the streets and looked at it, but said it didn't appear like the Cancer everyone else saw. Said it was a peculiar light.

While my husband was gone to town my daughter & I got the binoculars, they were borrowed ones but when borrowed the owner said they were used to hunt elk tracks in last winter near Ft. At this while I saw it the binoculars I saw figures 2, 3, 4, 5. They had no sound and no proper trails, from a search after I saw it with a naked eye it appeared man made & planned. The weather was cold and I had to get in house & warm while my daughter viewed it, we took turns. I took at it with the naked eye about 10:20 that night and it was really taking up and down. The moon was shining well bright that night.

Next day I reported it to the Intelligence of the Lake Charles Airforce Base, they acknowledged receiving the letter.

Intelligence, Lake Charles Airbase,  
Dear Sirs:

Last night between 8:15 and 8:30 I walked out on my front porch and saw a light coming towards me, (my house faces East and is in the uppermost north east corner of Calcasieu parish). The house sets back 60 acres from road that separates Calcasieu from Beauregard parish. The light was very bright and moving resembling the red light of an aeroplane moving like an airplane travels. In a second I saw it wasn't an airplane that the object was much brighter and had began to flicker around. Upon closer observation the light look like this the arrows were two colors: on tip ends green and pointed red and some yellow.

I called the family and told my husband to go to town and tell some one else, but didn't tell him to call the base. I took it for granted that he would, but he didn't and I dont know if the spectators he showed it to did either. Getting back to when I call the family about the time they got to the porch and began to looking all at once the object began to rise in the sky. It went out of sight but came back but never at the altitude it was when I first seen the object. After he left to go to town my daughter thought of some spy glasses we had here, supposed to be like the ones they use to spot submarines during the last war. We took turns looking at the object. The first time I looked the object flickered so it would not stay in the lens I thought it might be that I was shaking, but I soon discovered it was the flickering of the object. The next time I look it looked like an acorn cup lighted with neon light. The outer rim being reddish pink with green red and yellow to the centre.

Each line denotes the color the outer rim being a reddish pink. The next time I looked it looked this way:

The parachute part of object was reddish pink but the long vertical thing was lit red and green look like neon light very bright at intervals it would bend at ends or twirl in a baton fashion sometimes it would bend like a snake.

Other times it seems like it had taken altitude and it was a acorn cup just reddish pink all over. Twice it took this same way while other were looking with the spy glasses it seen to be different from the object I saw even after it took altitude. The flicker could be seen with the naked eye. At 10:15 we went to bed and it was still up in the air at about the same altitude when it came back in to sight.

This is the only report I have given of object and don't intend to inform anyone else unless it would be the Pentagon.
