SUMMARY. (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 113—Part II.)

On 23 June 1953, an investigation was made of a reported flying object. The source, Mrs. ~~REDACTED~~, ~~REDACTED~~ Street, Shawnee, Kansas, gave the report as it appears in Part II and attachments. Mrs. ~~REDACTED~~ seemed to be thoroughly sincere in her report. She had never before seen or experienced anything of that nature before, but appeared to have a very clear picture in her mind of the object as she saw it. Mrs. ~~REDACTED~~ was firmly convinced of the shape and appearance of the object, but could not advance any knowledge as to what she thought it might have been or the actual size of the object.

Answers to U. S. Air Force Technical Information Sheet (Form B)

Name: [REDACTED]
Date: 23 June 1953

The objects were round and flat. One seemed to be slightly in back of the other, as I could only see about 3/4 of the one. There seemed to be something connecting the two together. As an example, it would be like 2 wagon wheels with the back one not on line with the other in the manner shown.

U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes; and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

(Daylight)

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. Was the object brighter than the background of the sky?

(Circle One):

a. Yes

b. No

c. Don't remember

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight? *No*

(Circle One) a. A mile or more away (a distant car)?

b. Several blocks away?

c. A block away?

d. Several yards away?

e. Other *Not to be a Headlight*

11. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't Know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't Know
c. Break up into parts or explode?	Yes	No	Don't Know
d. Give off smoke?	Yes	No	Don't Know
e. Change brightness?	Yes	No	Don't Know
f. Change shape?	Yes	No	Don't Know
g. Flicker, throb, or pulsate?	Yes	No	Don't Know

12. Did the object move behind something at anytime, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind:

13. Did the object move in front of something at anytime, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved in front of:

14. Did the object appear: (Circle One):

a. Solid?

b. Transparent?

c. Don't Know.

15. Did you observe the object through any of the following?

- a. Eyeglasses
- b. Sun glasses
- c. Windshield
- d. Window glass

Yes
Yes
Yes
Yes

No
No
No
No

- e. Binoculars
- f. Telescope
- g. Theodolite
- h. Other

Yes
Yes
Yes

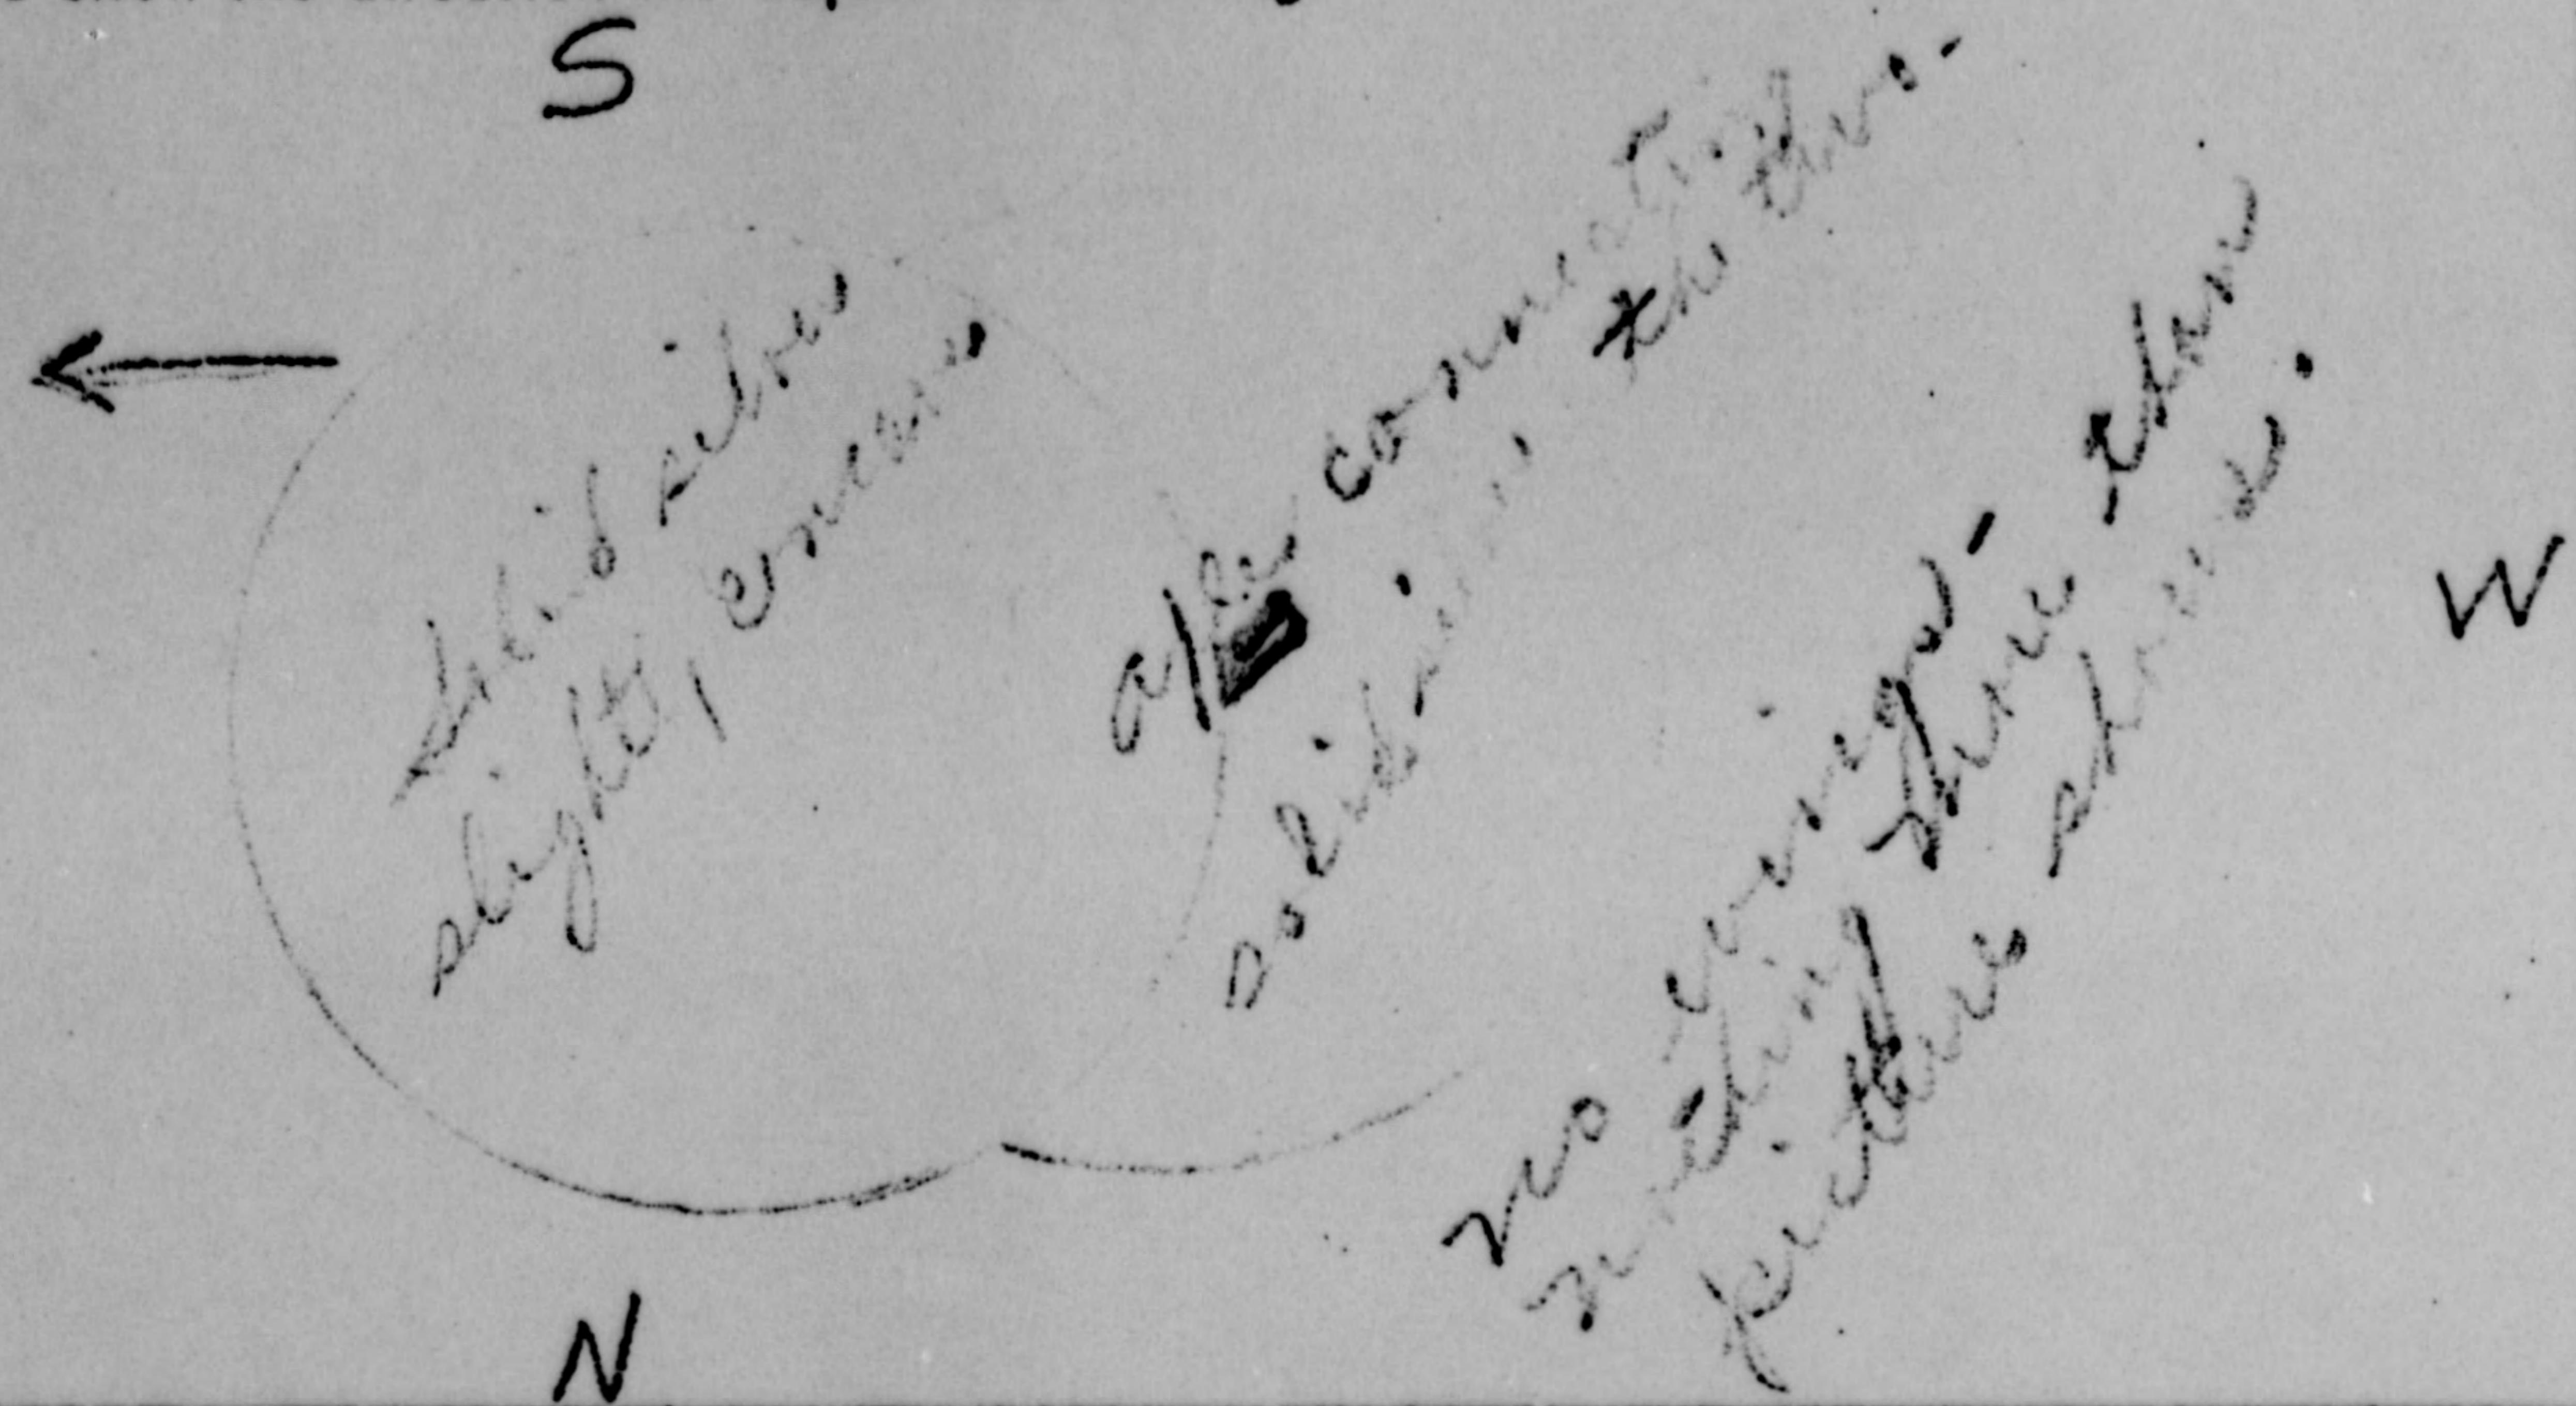

No
No
No

16. Tell in a few words the following things about the object.

a. Sound No sound

b. Color Bright silver

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were:

(Circle One):

- a. Fuzzy or blurred
- b. Like a bright star
- c. Sharply outlined
- d. Don't remember

e. Other _____

19. IF there was MORE THAN ONE object, then how many were there? Two solid wheels connected.
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

This picture would be the same as the one above.
When Sergeant Tolson interviewed me, I asked him to sketch the drawings on his typewriter which he did. Therefore his drawing may differ from mine, but the above picture is as I saw it, as nearly correct as I can draw it.

N

20. Draw a picture that will show the motion that the object or objects made. Place on "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

5

B ————— A

The object moved in a straight line no change in its course, W shape, color, or size.

N

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.

feet. ~~In the sky it appeared to be the size~~

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

- a. Head of a pin
- b. Pea
- c. Dime
- d. Nickel
- e. Quarter
- f. Half dollar
- g. Silver dollar
- h. Baseball
- i. Grapefruit
- j. Basketball
- k. Other. ~~large solid wagon wheel~~

22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.

- a. Certain
- b. Fairly certain
- c. Not very sure
- d. Uncertain

23. How did the object or objects disappear from view?

~~while rotating it it just vanished it did not grow smaller it changed shape right in front of me.~~

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

I would make it of aluminum foil. It would be the size of a farm wagon wheel. The shape would be round, like a solid silver wheel.

25. Where were you located when you saw the object? (Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other On front porch

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

27. What were you doing at the time you saw the object, and how did you happen to notice it?

I was sitting on my front porch visiting with a lady friend the brilliance of the sun sheltered my flat silver object and
since it made up directly at it.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

a. North	c. East	e. South	g. West
b. Northeast	d. Southeast	f. Southwest	h. Northwest

28.2 How fast were you moving? _____ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

a. North	c. East	e. South	g. West
b. Northeast	d. Southeast	f. Southwest	h. Northwest

30. What direction were you looking when you last saw the object? (Circle One)

a. North	c. East	e. South	g. West
b. Northeast	d. Southeast	f. Southwest	h. Northwest

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

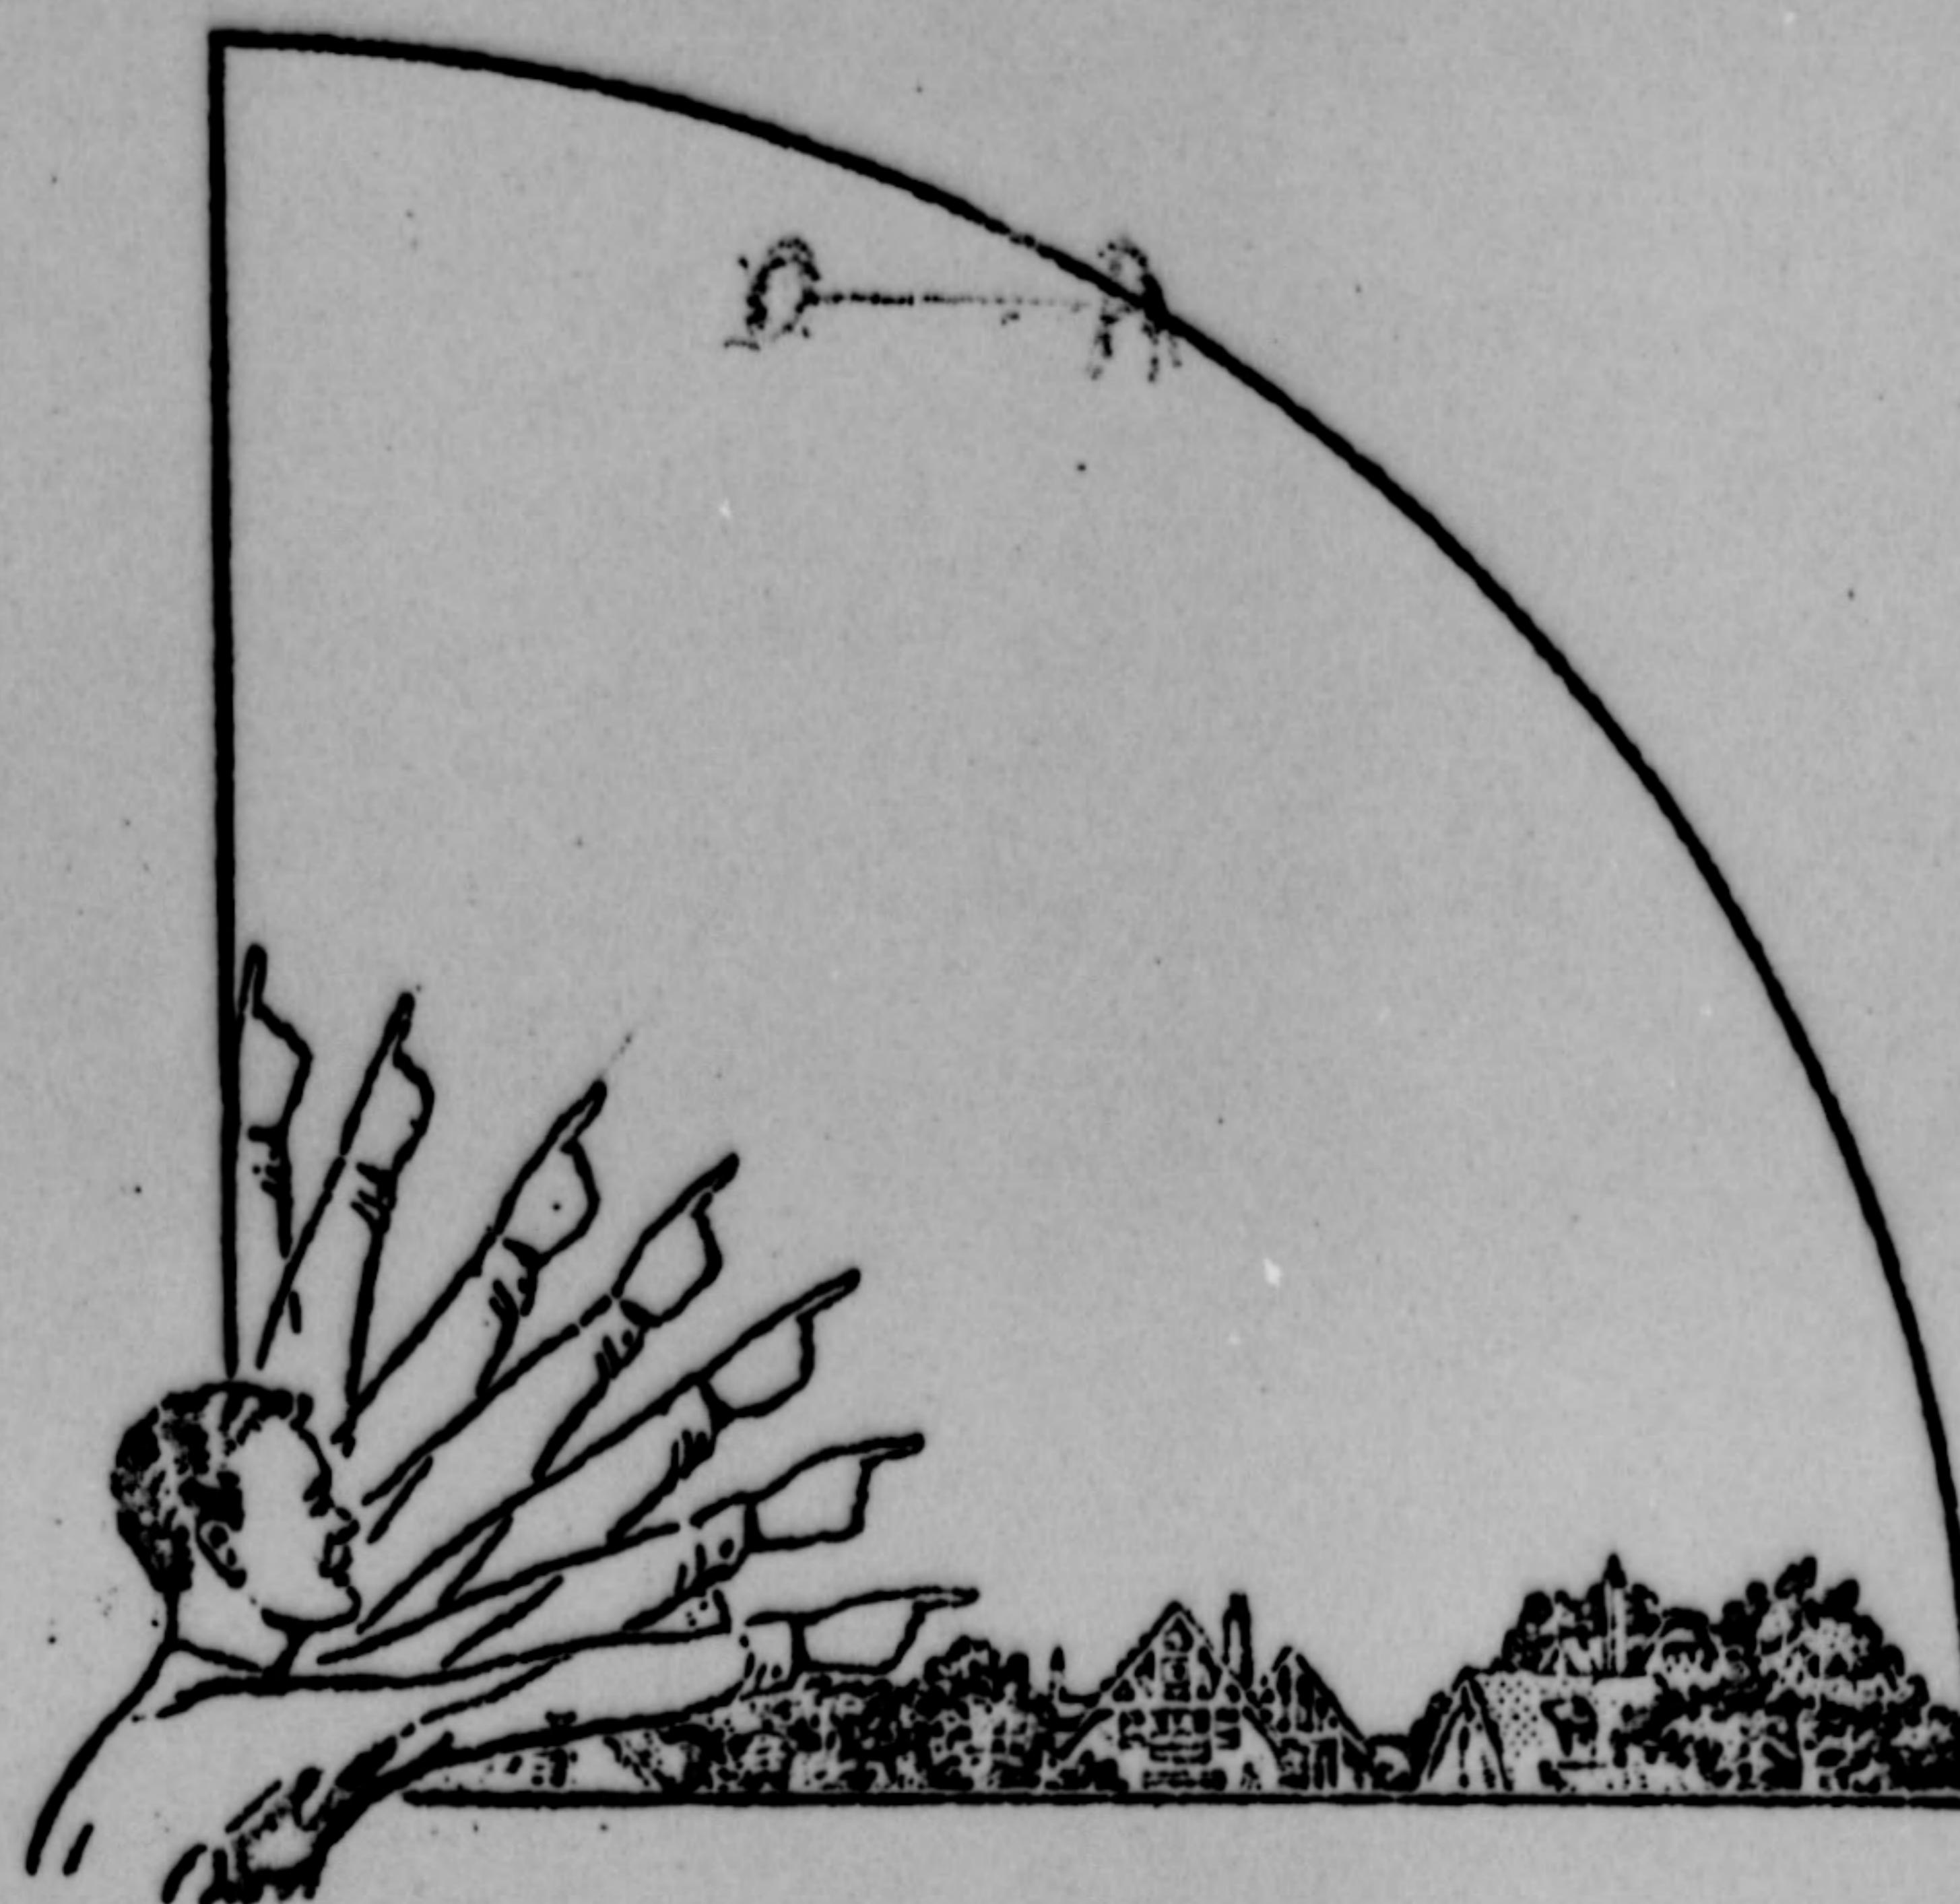

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

31.2 When it disappeared:

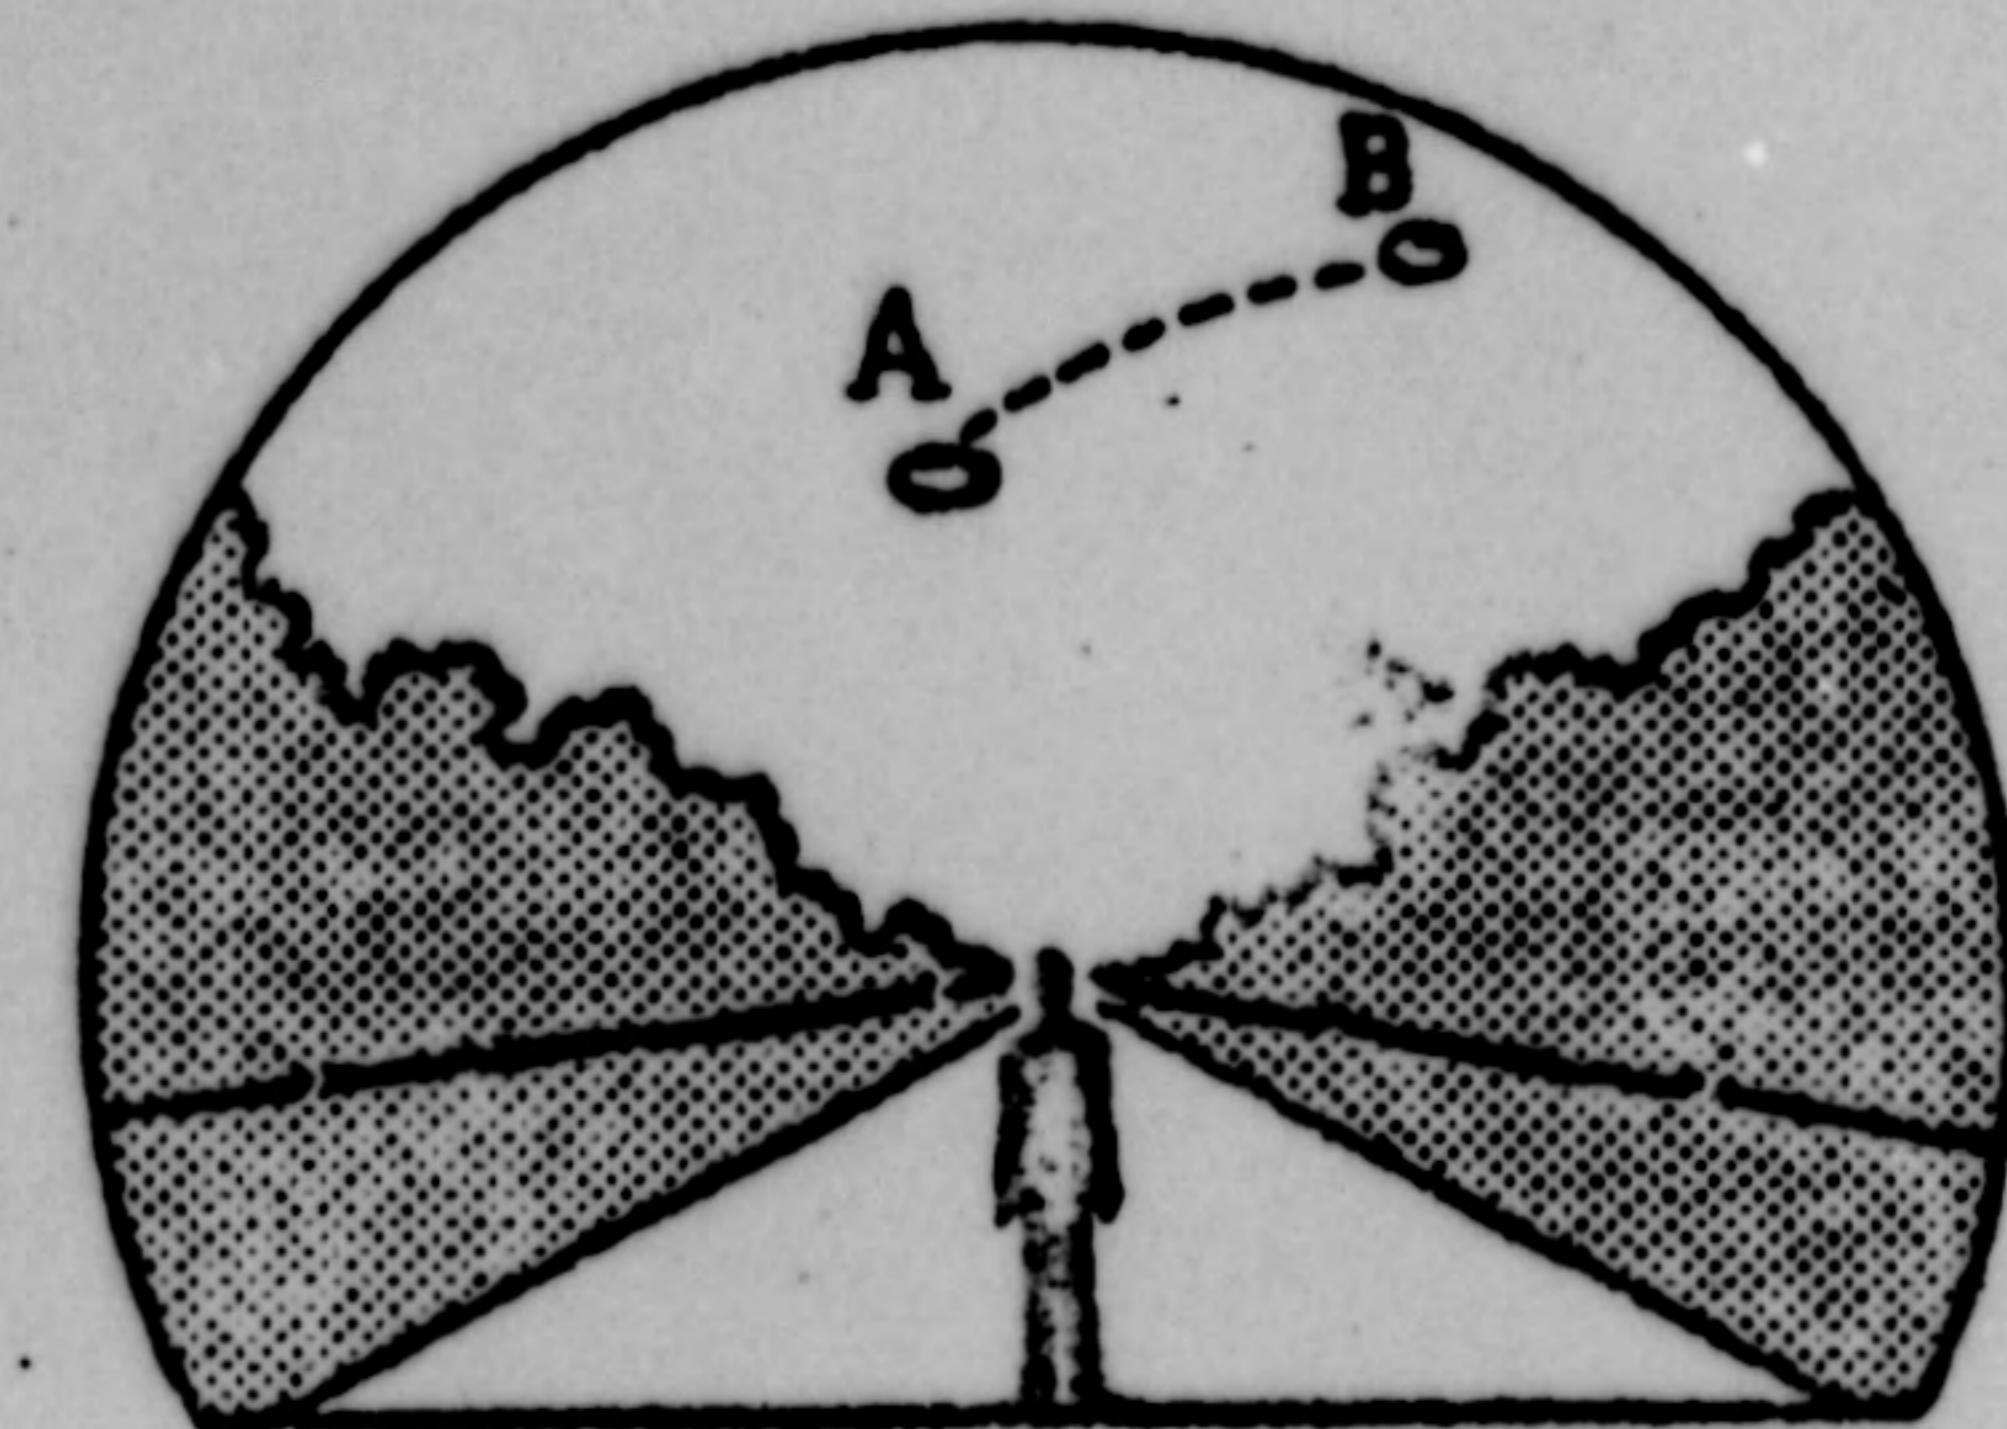

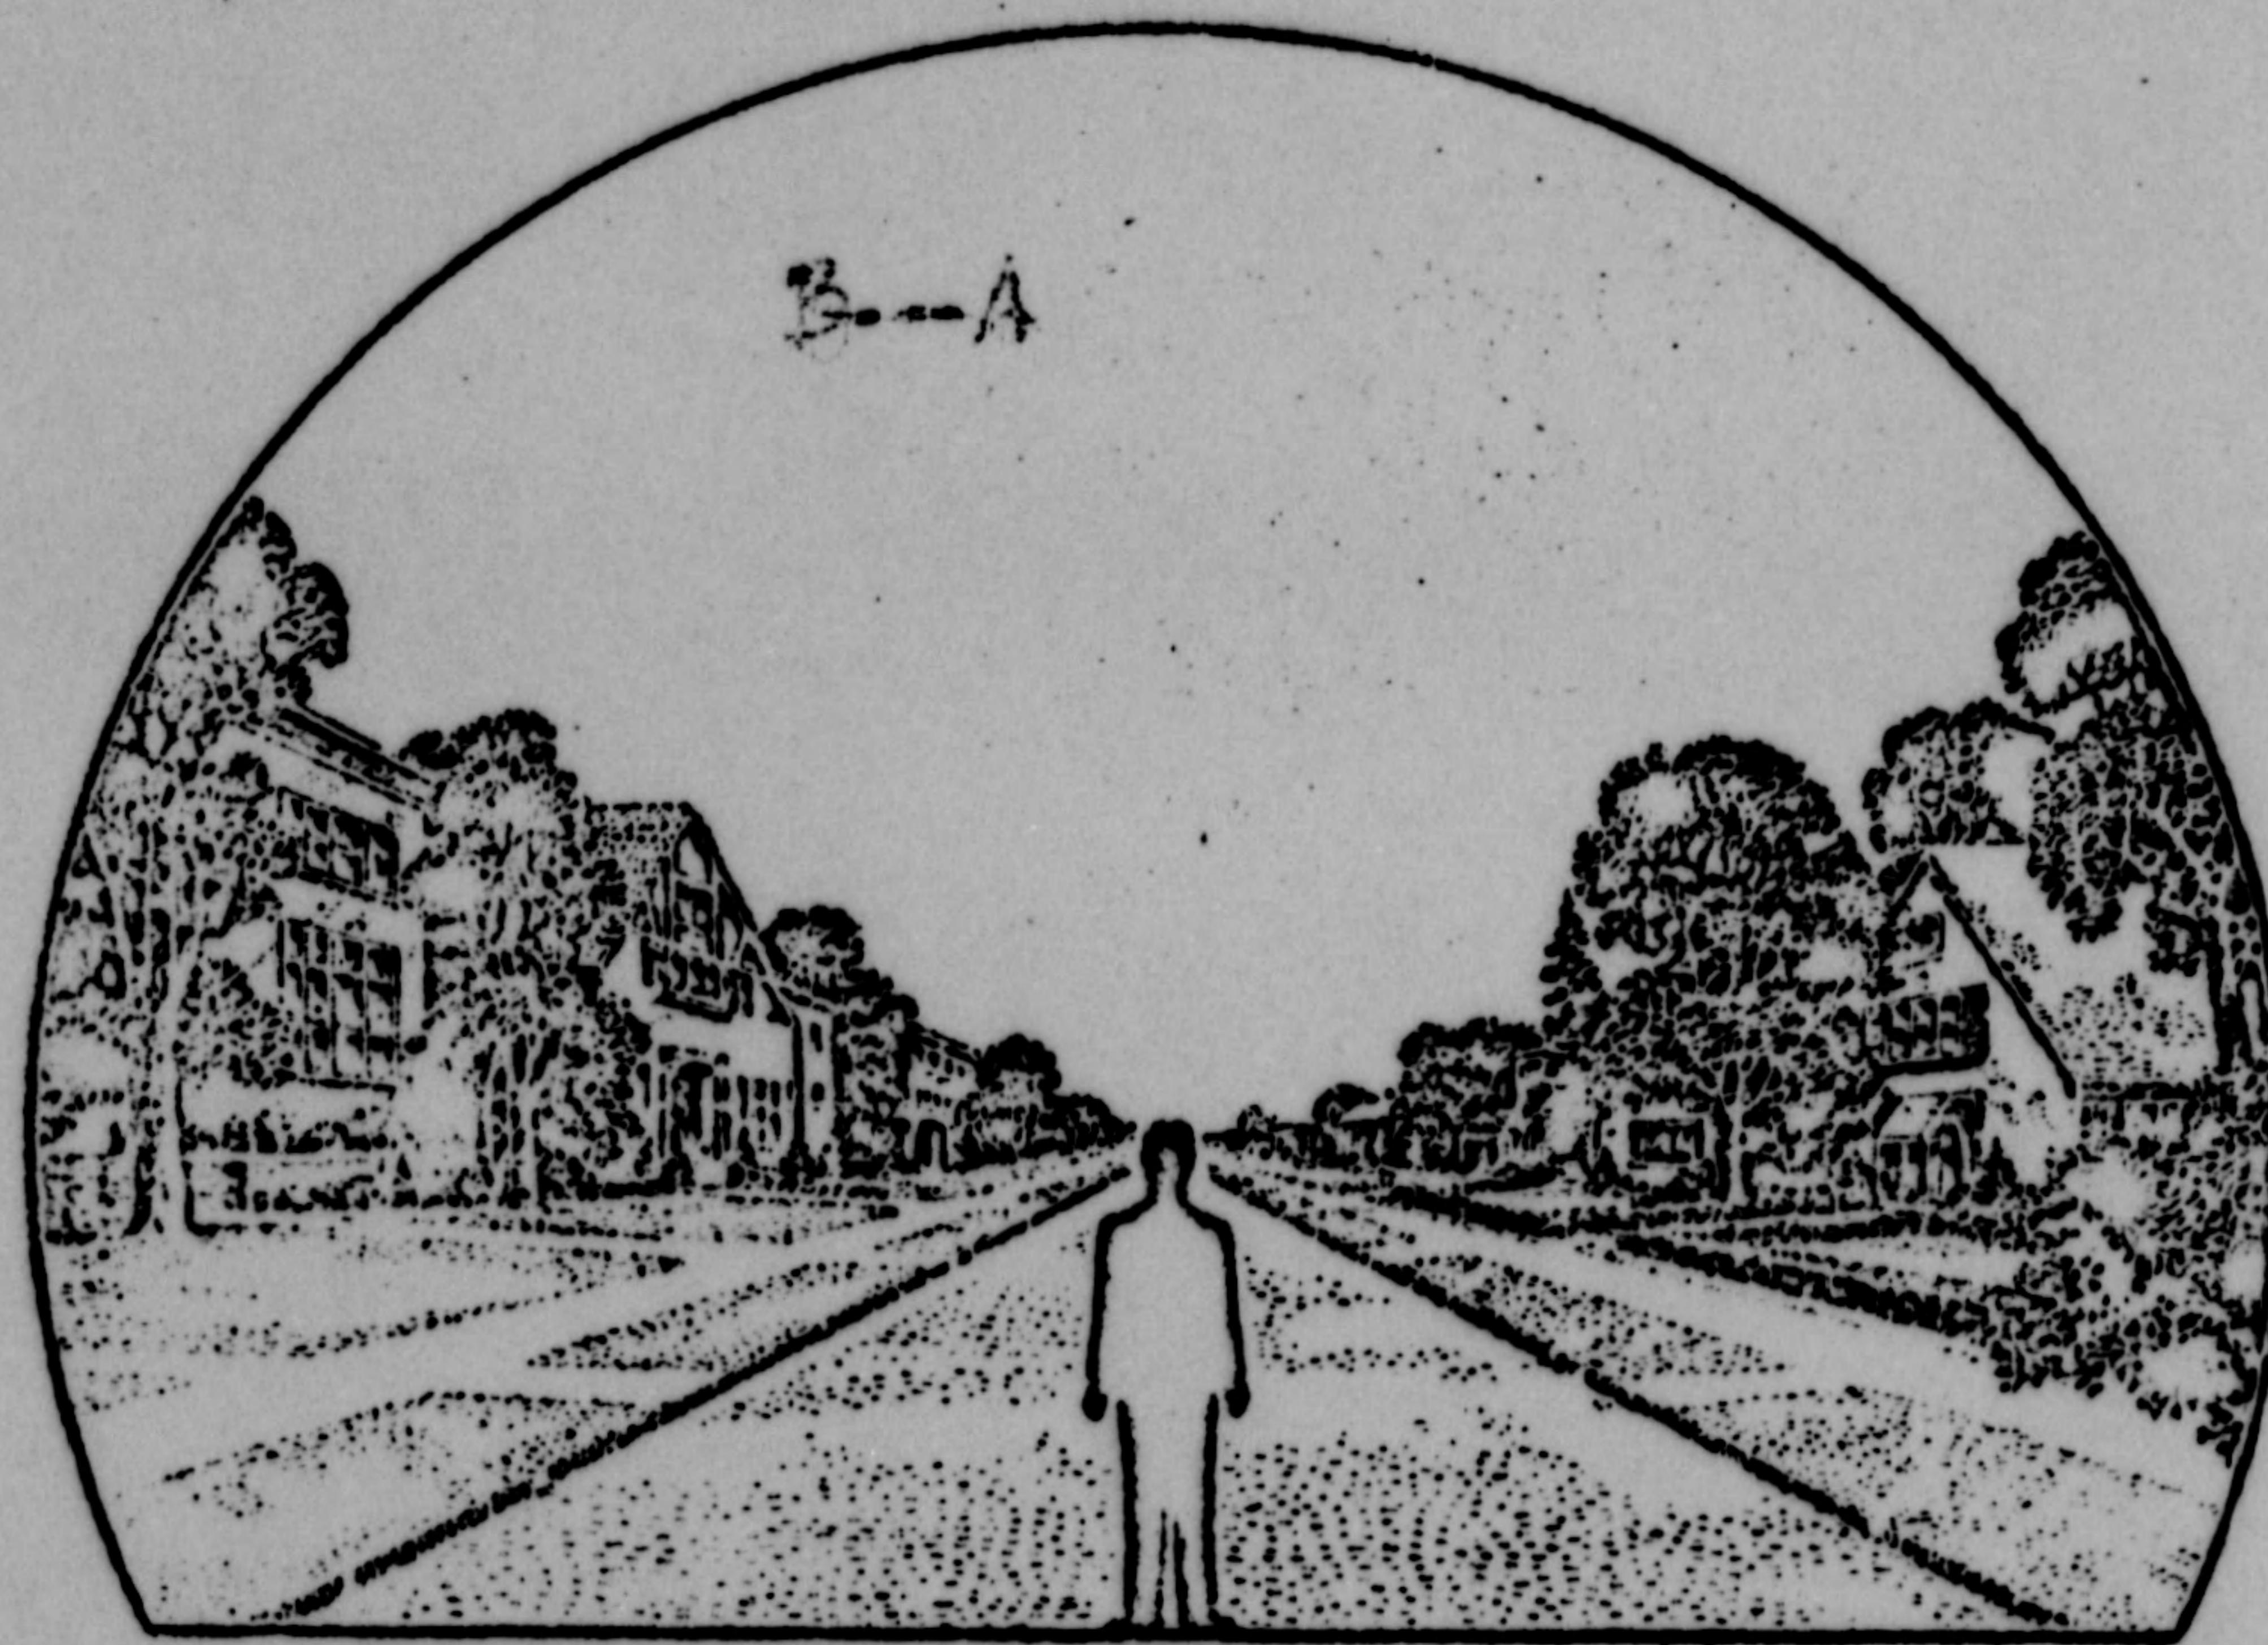

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

*Sergeant Tatman
estimated this for
me - I believe he
said 45 degrees.*

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it.

33. In the following larger sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind
- b. Slight breeze
- c. Strong wind
- d. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- c. Warm
- d. Hot
- e. Don't remember

35. When did you report to some official that you had seen the object?

20 January 1953

Day

Month

Year

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes No

36.2 Please list their names and addresses:

Mr. & Mrs. [REDACTED]
[REDACTED]
Monroeville, Indiana

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

38. In your opinion what do you think the object was and what might have caused it?

I do not know.

39. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate?

I believe that Sergeant
Fitzman arrived at some
conclusion about this.

m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was?

Same as above.

feet.

DATE		CODE:

On Saturday afternoon, June 20th 1953
I was sitting on our front porch (our
faces south). A friend had just stopped
by to visit a few minutes and was
sitting to my right about four feet.
Suddenly something caused me to
look up (it seemed to be a brilliant
ray of light from the sun) shining on
that silver object in the sky. I was
so amazed, I wed by what I saw
the bluest of skies. the beautiful
silver of the object and the glorious
sunshine against the object. The
light must have been just right,
because every detail of the object stood
out clearly. It seemed to stand still,
but it did not move while I
watched, it crossed as a pale
beam of light.

on our screened in porch line and the east and I measured that distance on the surface of the ground and it would be about $1\frac{1}{2}$ to 2 feet. The moving seemed to be in a straight line and while it did not change its shape or color or size at it we were looking right at it it was gone just as though it had never been there at all. When I first saw it I said aloud "It looks like two silver," and that attracted Mrs. Means' attention and she stepped outside the door to look at it but it was gone. She saw it while she was on the porch but she stepped outside thinking she could see it better. It looked like two large silver wagon wheels, but solid, one wheel the two connected by what I describe as an axle. I cannot find silver is the word I say best describe the metal. It is slightly concave. At that distance it looked the size of large wagon wheels. From wagon wheels I have heard speak, I left that up to the Sergeant Gitman who interviewed me yesterday about such things. I like I have been able to make this clear to you. Sincerely,
