8. SUMMARY OF OBSERVATIONS

The first object observed was a small, dark, irregularly shaped object, possibly a piece of debris or a small aircraft, located in the upper left quadrant of the field of view. It was observed at approximately 10:00 hours on 10/10/50. The object was dark in color and appeared to be moving slowly.

The second object observed was a brighter, orange-colored object, possibly a piece of debris or a small aircraft, located in the lower right quadrant of the field of view. It was observed at approximately 10:05 hours on 10/10/50. The object was brighter in color and appeared to be moving more rapidly.

Both objects were sighted over the business area of [REDACTED] [REDACTED] [REDACTED].

Further details of this sighting were given in preliminary report and attached to Form 1.
