3. DATE-TIME GROUP Local _____ GMT 06/2140Z	4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Air-Visual	5. PHOTOS <input type="checkbox"/> Yes <input type="checkbox"/> No	
6. SOURCE civilians	7. LENGTH OF OBSERVATION ten minutes	8. NUMBER OF OBJECTS two	9. COURSE stationary
10. BRIEF SUMMARY OF SIGHTING Obj high in sky, light was not bright but appeared similar to fluorescent lights, appeared to be reflecting light. Tops of obj more luminous. Appeared to be stationary.	11. COMMENTS Objs appear to be a balloon reflecting light from the sun.		

U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

6      November      1954  
Day      Month      Year

2. Time of day: 4      30 - 40  
Hour      Minutes

(Circle One):      A.M.      or      P.M.

3. Time zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

Old Highway 60 south of Brandenburg      Kentucky  
Nearest Postal Address      City or Town      State or Country

Additional remarks: \_\_\_\_\_

5. Estimate how long you saw the object. 5-10  
Hours      Minutes      Seconds

5.1 Circle one of the following to indicate how certain you are of your answer to Question 5.

a. Certain  
b. Fairly certain  
c. Not very sure  
d. Just a guess

6. What was the condition of the sky?

(Circle One): a. Bright daylight *just before*  
b. Dull daylight *Twilight*  
c. Bright twilight  
d. Just a trace of daylight  
e. No trace of daylight  
f. Don't remember

7. IF you saw the object during DAYLIGHT, TWILIGHT, or DAWN, where was the SUN located as you looked at the object?

(Circle One): a. In front of you  
b. In back of you  
c. To your right  
d. To your left  
e. Overhead  
f. Don't remember

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. Was the object brighter than the background of the sky?

(Circle One):

a. Yes

b. No

c. Don't remember

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight?:

(Circle One) a. A mile or more away (a distant car)?

b. Several blocks away?

c. A block away?

d. Several yards away?

e. Other *The top was bright like an incandescent*

11. Did the object:

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness? *Top became brighter*
- f. Change shape?
- g. Flicker, throb, or pulsate?

(Circle One for each question)

Yes	No
Yes	<input checked="" type="radio"/>

Don't Know  
Don't Know

12. Did the object move behind something at anytime, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind:

13. Did the object move in front of something at anytime, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved in front of:

14. Did the object appear: (Circle One):

a. Solid?

*This is like a cloud*

b. Transparent?

c. Don't Know.

15. Did you observe the object through any of the following?

- a. Eyeglasses
- b. Sun glasses
- c. Windshield
- d. Window glass

Yes

Yes

Yes

Yes

No

No

No

No

e. Binoculars

Yes

f. Telescope

Yes

g. Theodolite

Yes

h. Other

No

No

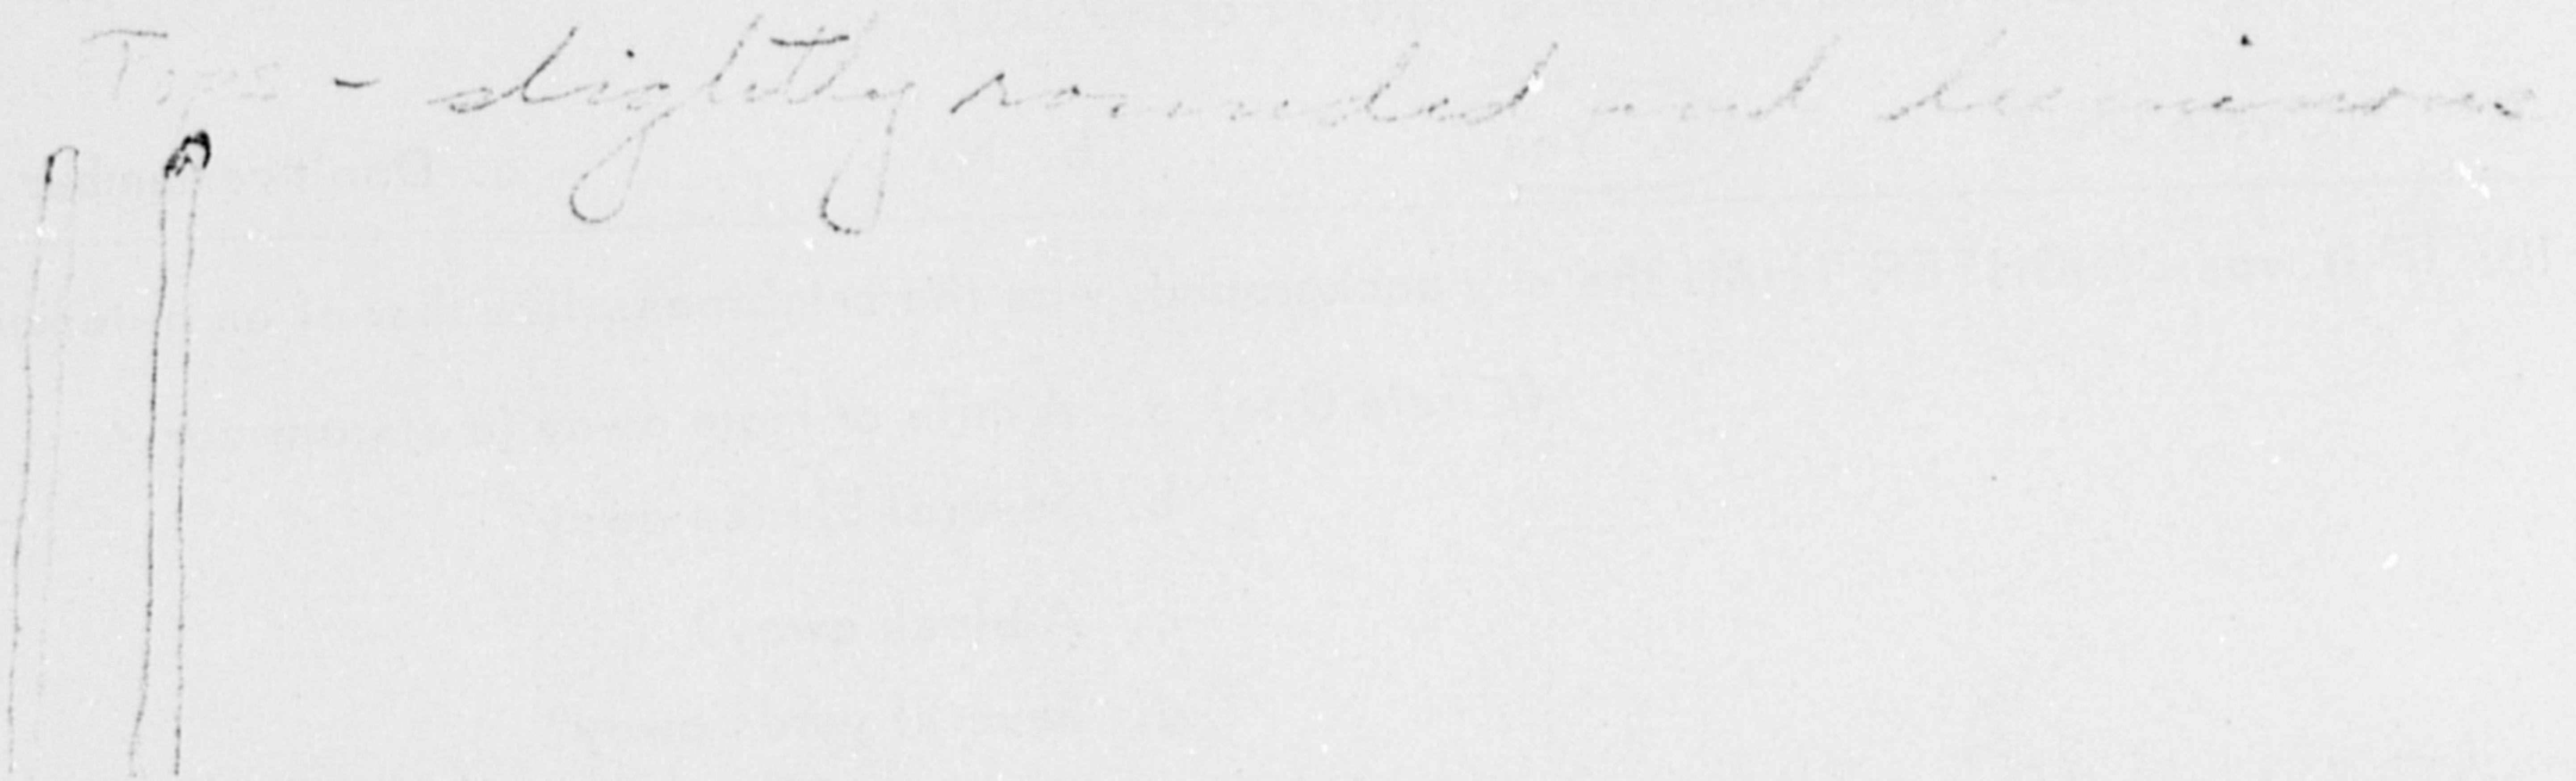

No

16. Tell in a few words the following things about the object.

a. Sound Can't hear it

b. Color The two columns were white, like the clouds

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

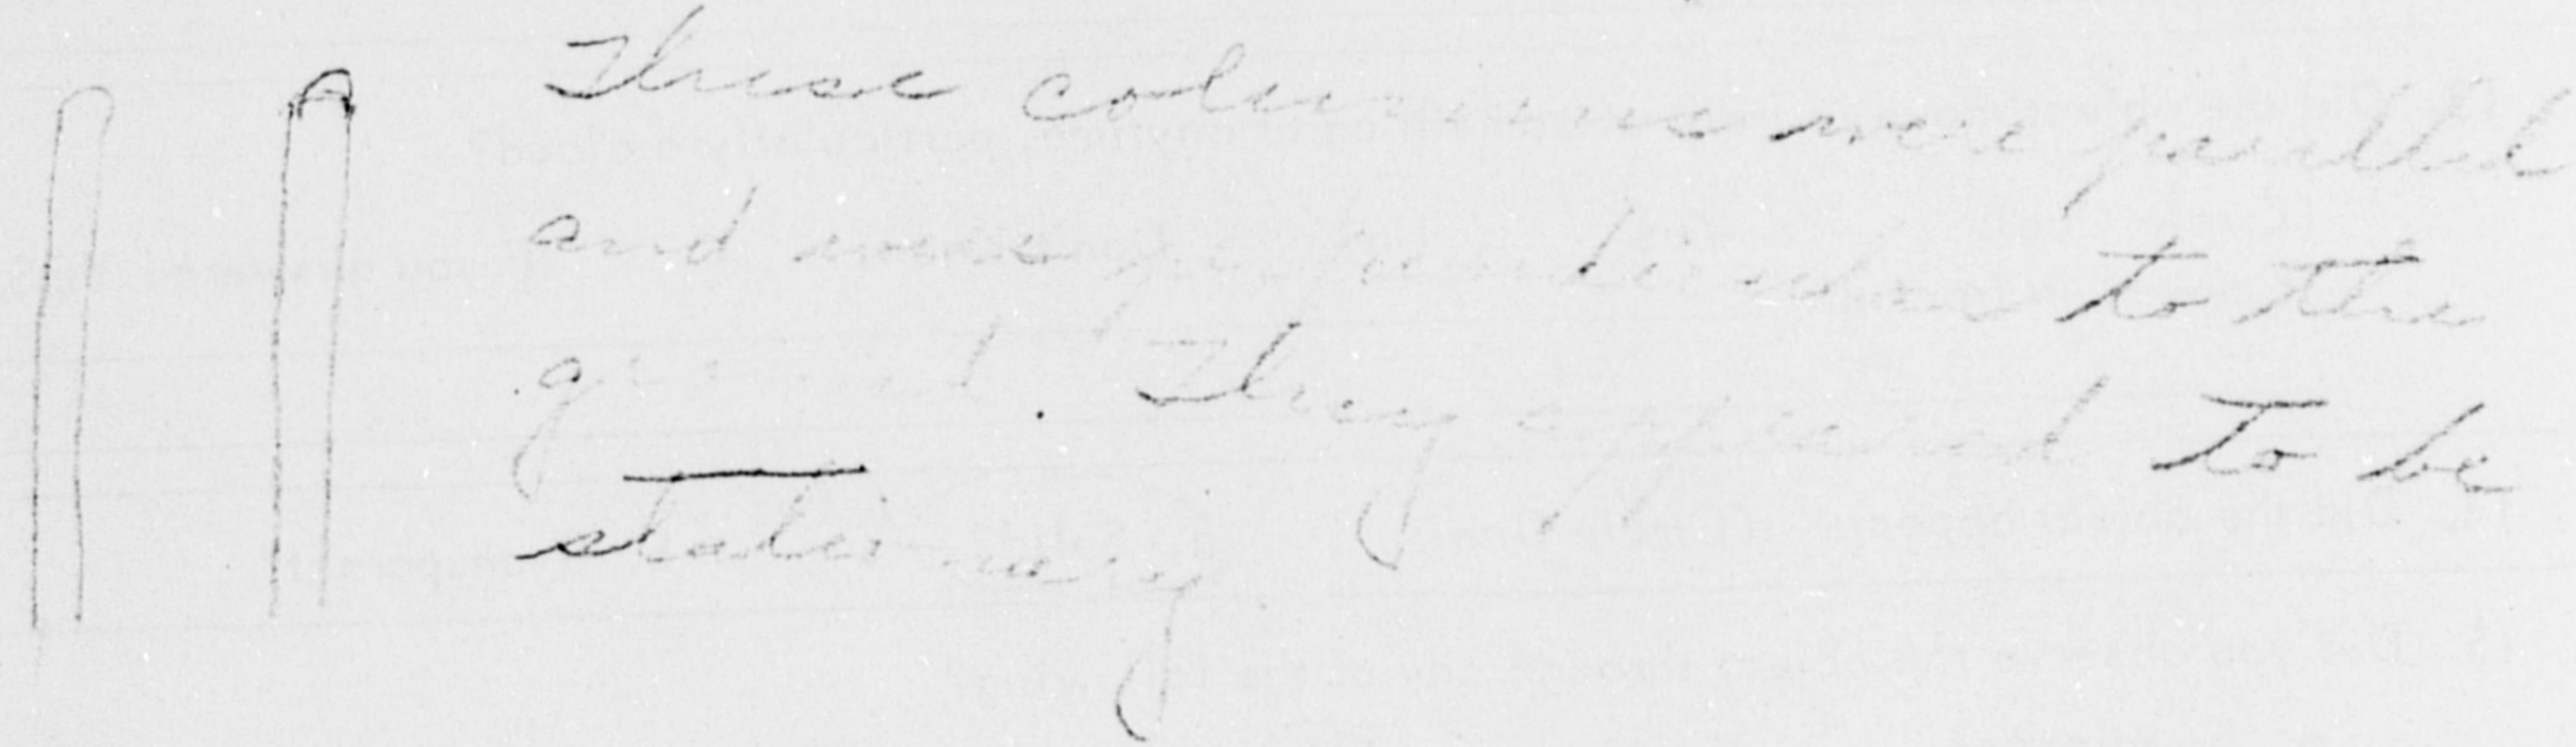

These two columns were slightly transparent  
at the bottom.

18. The edges of the object were:

- (Circle One): a. Fuzzy ~~or blurred~~ <sup>blurred</sup> bottom  
b. Like a bright star  
c. Sharply outlined <sup>tops</sup>  
d. Don't remember

- e. Other \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

19. IF there was MORE THAN ONE object, then how many were there? Two parallel columns.  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.  
 \_\_\_\_\_ feet.

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

- (Circle One):
- |                  |   |
|------------------|---|
| a. Head of a pin | g. Silver dollar  |
| b. Pea           | h. Baseball   |
| c. Dime          | i. Grapefruit   |
| d. Nickel        | j. Basketball   |
| e. Quarter       | k. Other  |
| f. Half dollar   | <i>Each column looked as though it were 12-14 inches long &amp; broad and</i> |

- 22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.)

- |                          |                  |
|--------------------------|------------------|
| a. Certain               | c. Not very sure |
| <u>b. Fairly certain</u> | d. Uncertain     |

23. How did the object or objects disappear from view? *As we drove along a winding road it was finally above our car & then faded out so that we could no longer see it.*

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

*The objects looked like two white columns of smoke as from a jet plane. Only they didn't disappear and remained stationary with the tops of each column more parallel and defined.*

25. Where were you located when you saw the object? (Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other \_\_\_\_\_

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

27. What were you doing at the time you saw the object, and how did you happen to notice it?

*I was driving over saw on the side road to the  
Toward the Newgate Road when another  
called my attention to the object.*

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? About 45-45 miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

30. What direction were you looking when you last saw the object? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

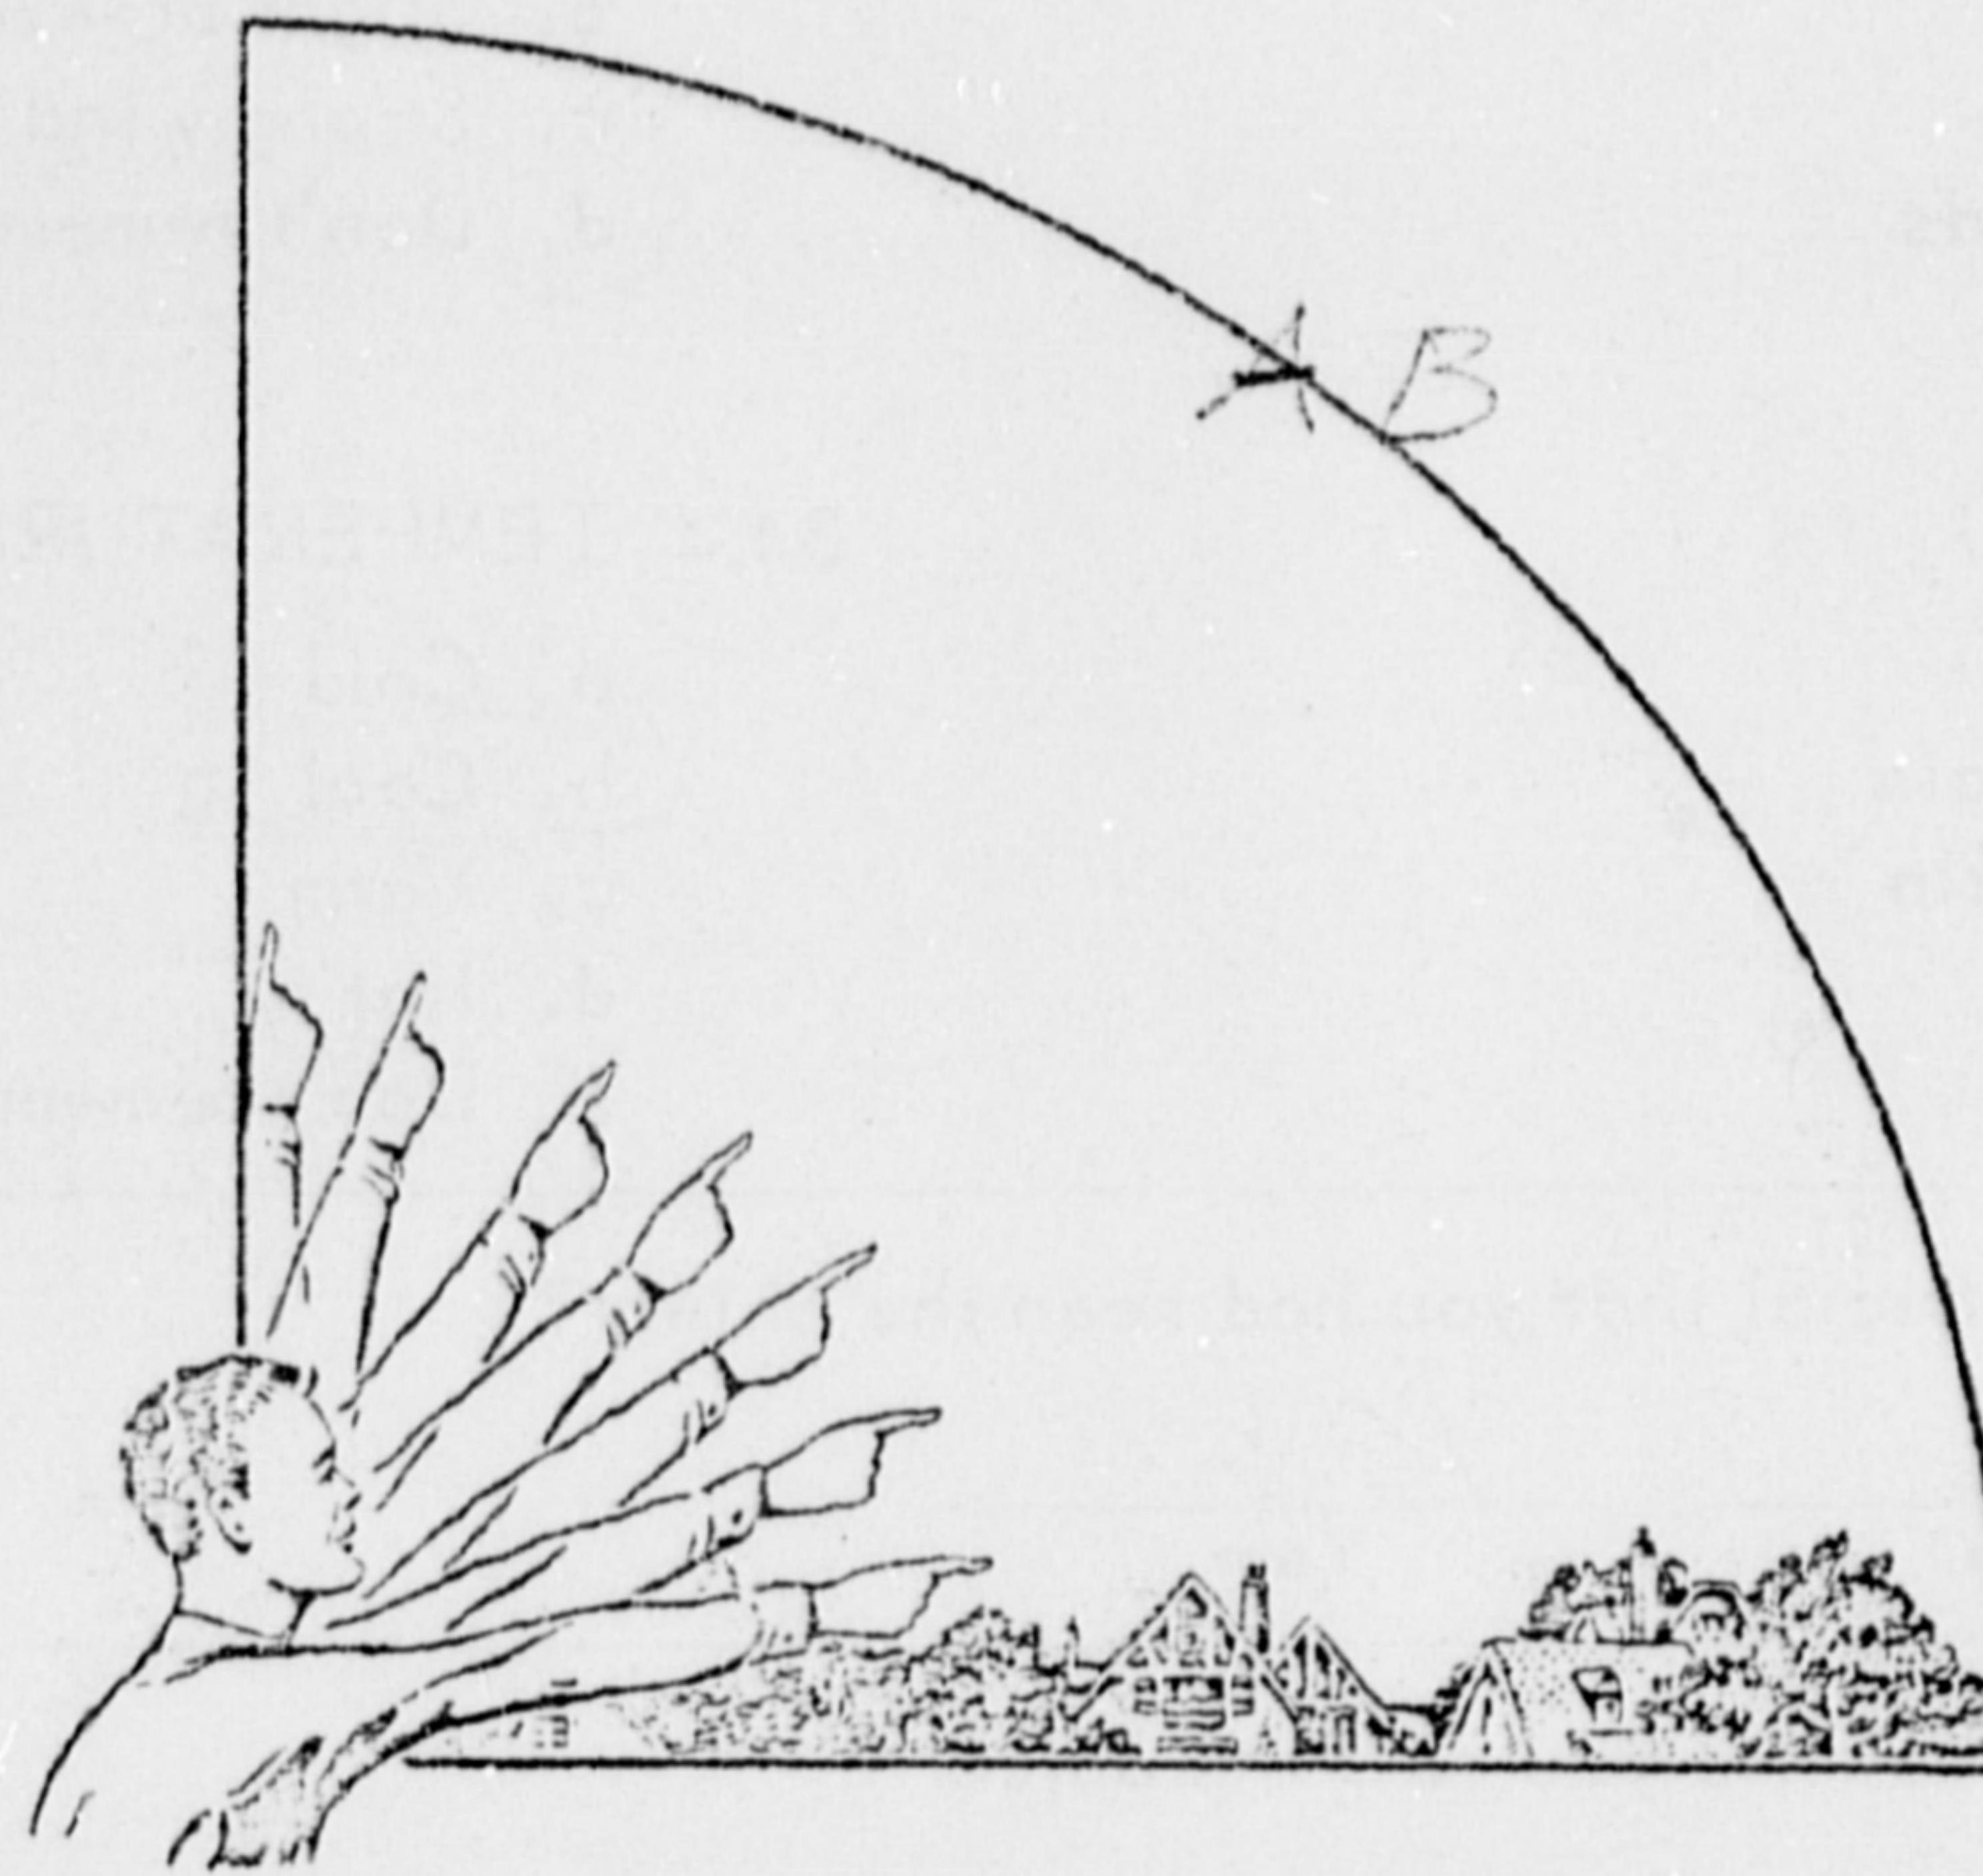

31.1 When it first appeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon \_\_\_\_\_ degrees.

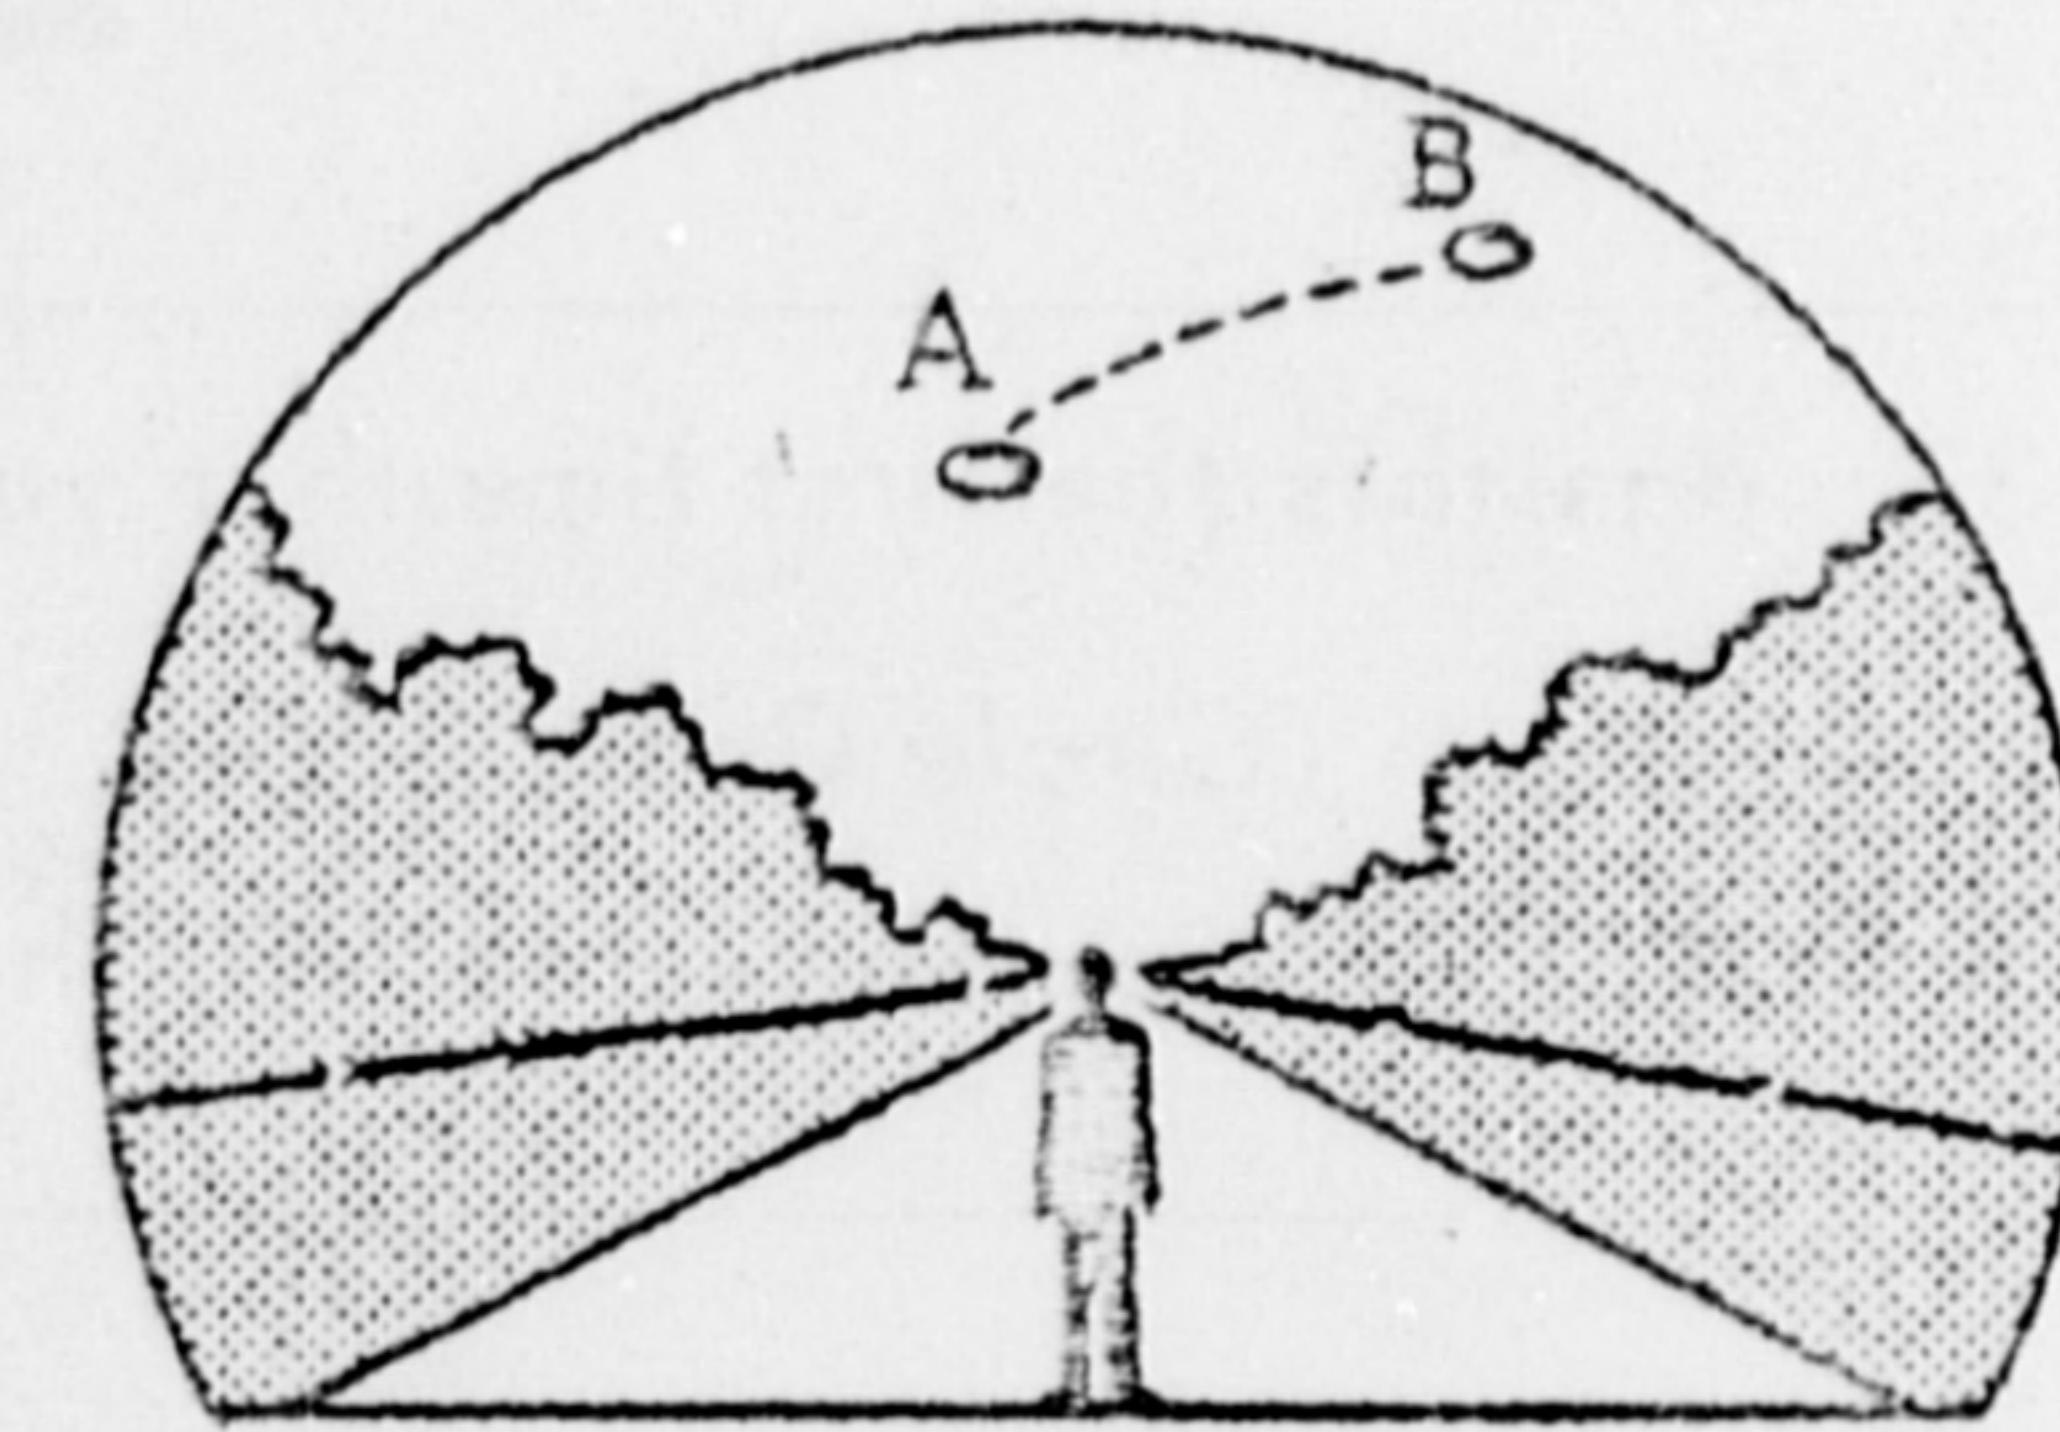

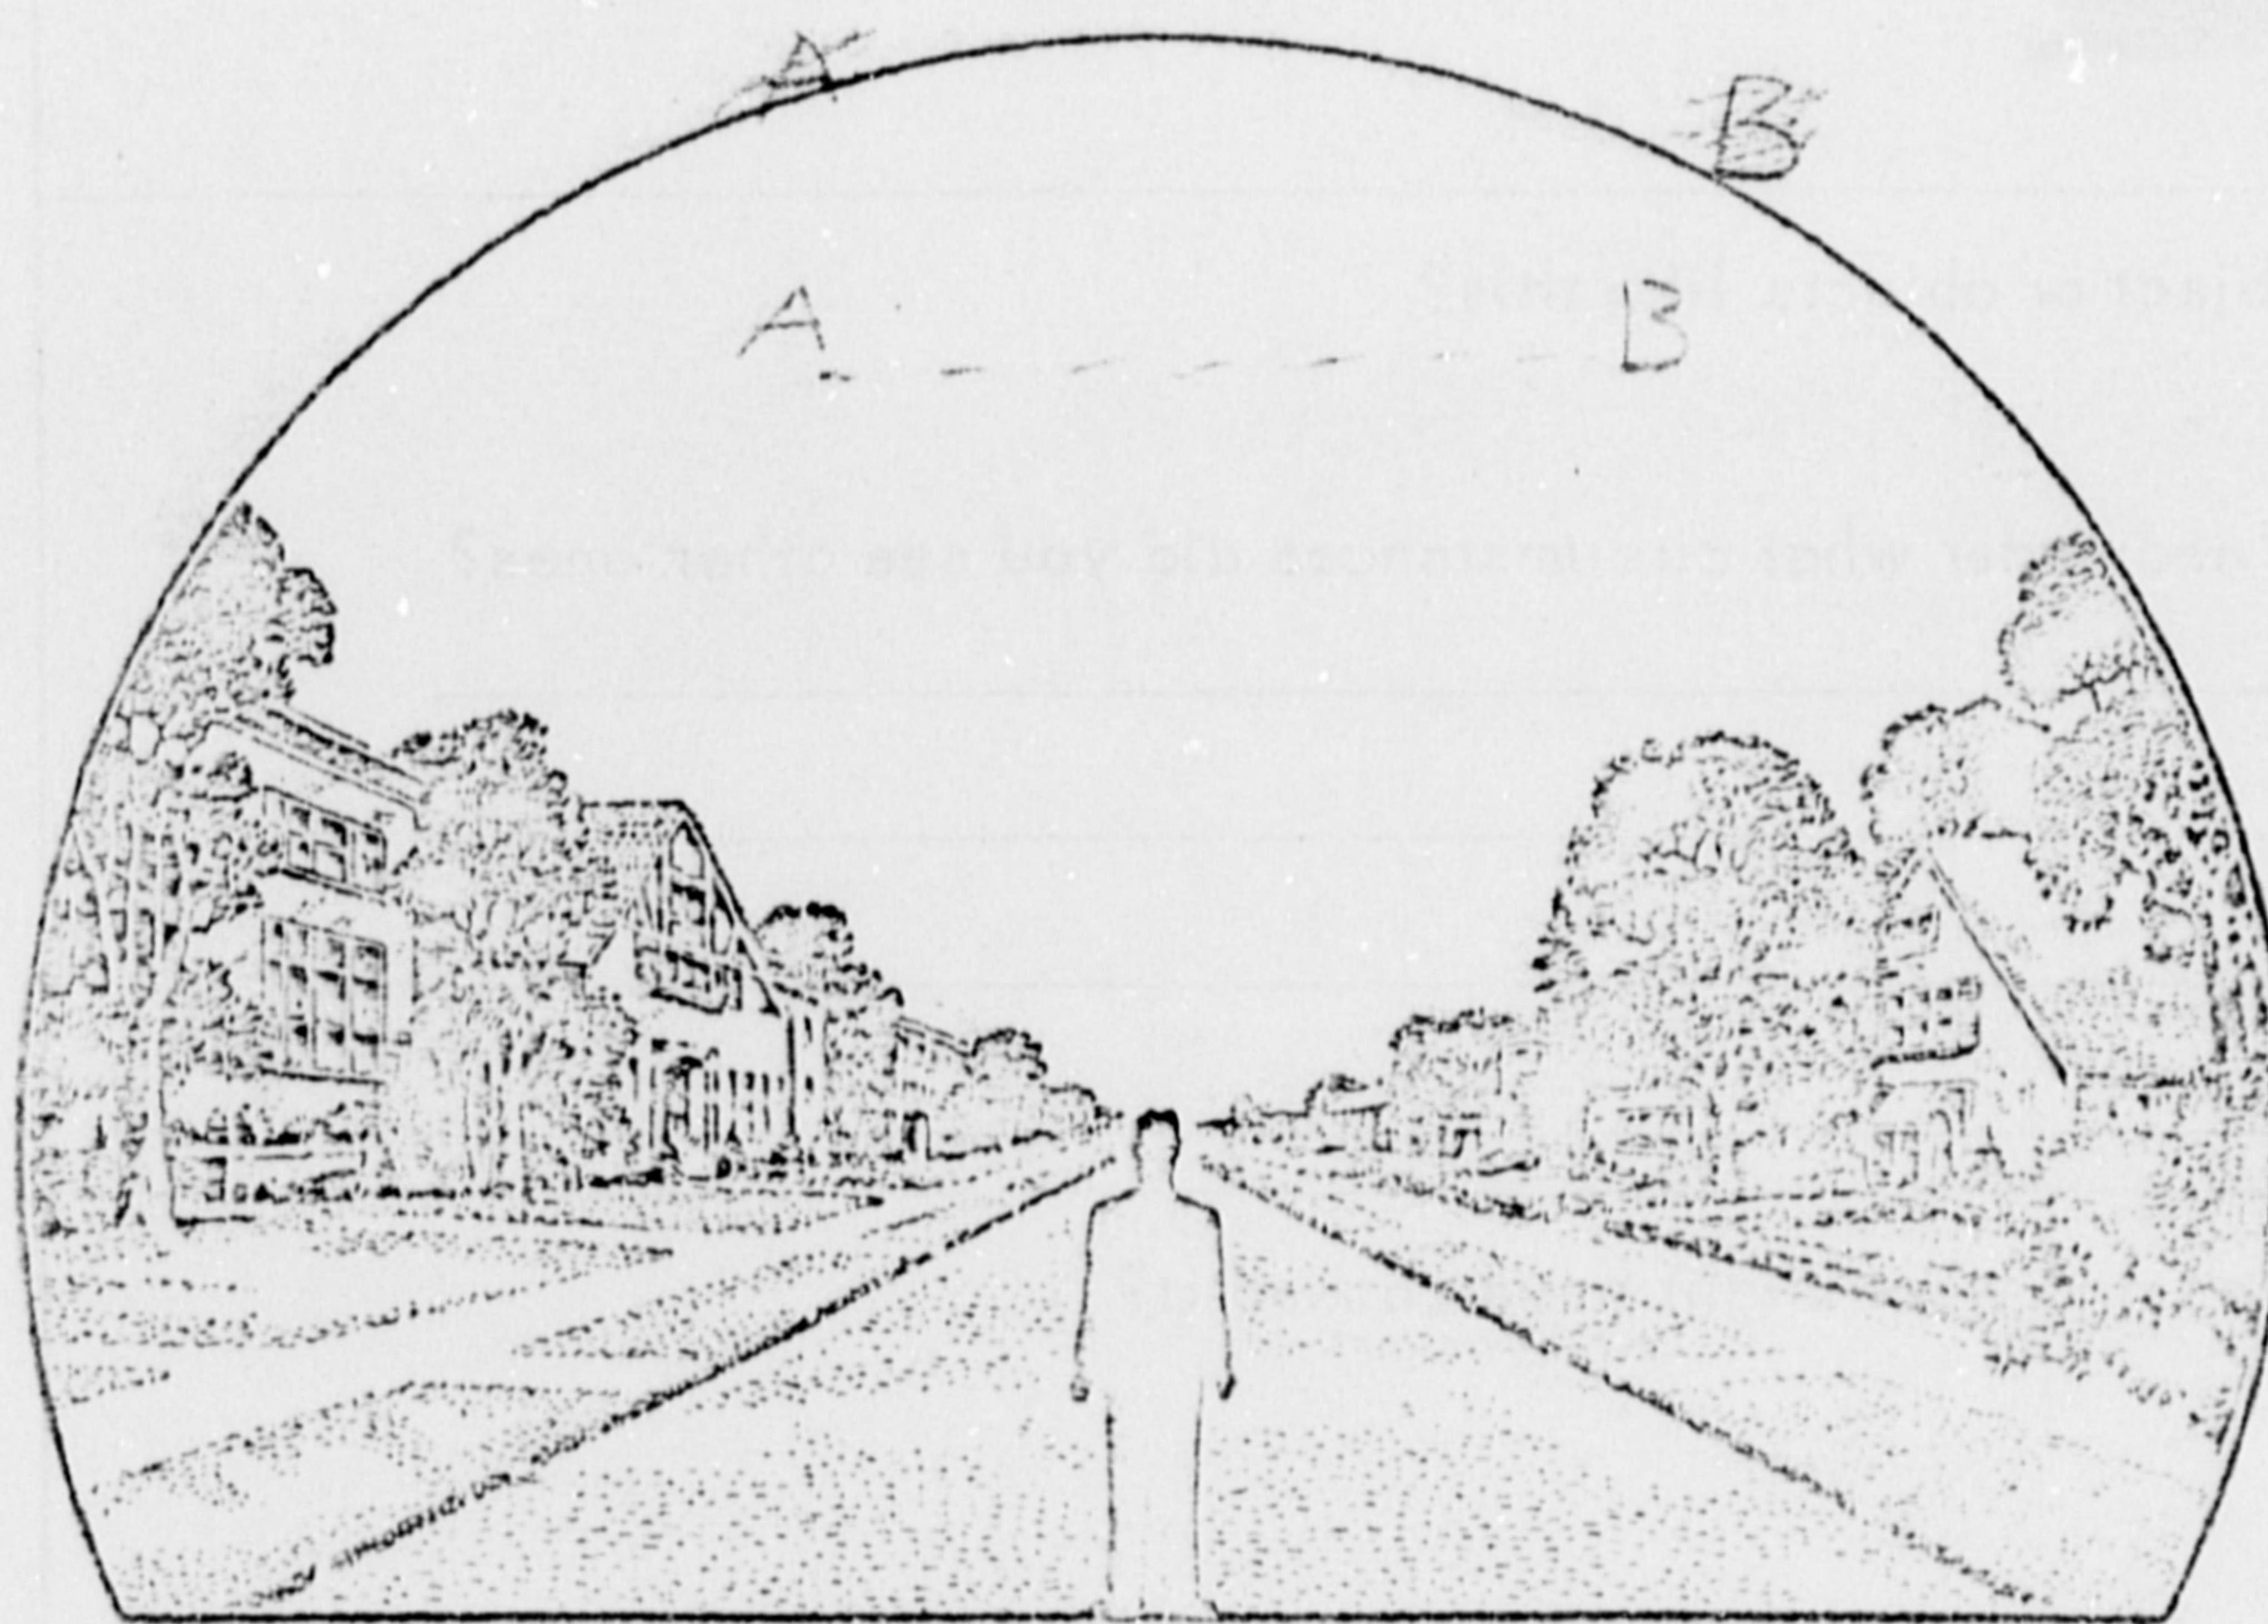

31.2 When it disappeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon \_\_\_\_\_ degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind
- b. Slight breeze
- c. Strong wind
- d. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- c. Warm
- d. Hot
- e. Don't remember

35. When did you report to some official that you had seen the object?

8

Nov.

1954

Day

Month

Year

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes No

36.2 Please list their names and addresses:

Mr. and Mrs. [REDACTED]  
[REDACTED]  
[REDACTED]  
Johnstown, N.Y.

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

---

---

---

38. In your opinion what do you think the object was and what might have caused it?

I don't know.

U. S. AIR FORCE TECHNICAL INFORMATION SHEET  
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

NAME <u>Mrs. [REDACTED]</u> <small>(Please Print)</small>	<small>(Do Not Write in This Space)</small> CODE: <u>[REDACTED]</u>
SIGNATURE <u>[REDACTED]</u>	
DATE <u>Nov 10<sup>th</sup> 1954</u>	

I first saw this object moving to the left and it had a light. I watched it for a little before seeing any light because I thought it might be a meteor or something like that. It was dark outside. But it did not move, or to leave any trail behind it so I could see the trail. As far as I could see it didn't change its position only as we turned relative to it. Then it was more to the right. I said in the report it looked like the light of a car or like a helicopter except the light was not bright. It was more like the light of the moon by just this same light going down.

I might add the light seemed to move at a constant velocity like electric light bases more than anything.

39. Do you think you can estimate the speed of the object?

(Circle One) Yes  No

IF you answered YES, then what speed would you estimate? \_\_\_\_\_ m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One) Yes  No

IF you answered YES, then how far away would you say it was? \_\_\_\_\_ feet.

41. Please give the following information about yourself:

NAME \_\_\_\_\_  
Last Name \_\_\_\_\_

First Name \_\_\_\_\_

Middle Name \_\_\_\_\_

ADDRESS \_\_\_\_\_  
Street \_\_\_\_\_  
City \_\_\_\_\_  
Zone \_\_\_\_\_  
State \_\_\_\_\_

TELEPHONE NUMBER \_\_\_\_\_

What is your present job? \_\_\_\_\_

Age \_\_\_\_\_ Sex Female

Please indicate any special educational training that you have had.

a. Grade school \_\_\_\_\_

e. e. Technical school \_\_\_\_\_

b. High school \_\_\_\_\_

(Type) \_\_\_\_\_

c. College \_\_\_\_\_

f. Other special training \_\_\_\_\_

d. Post graduate \_\_\_\_\_

42. Date you completed this questionnaire:

Wednesday Nov 15  
Day \_\_\_\_\_ Month \_\_\_\_\_ Year \_\_\_\_\_

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind
- b. Slight breeze
- c. Strong wind
- d. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- c. Warm
- d. Hot
- e. Don't remember

35. When did you report to some official that you had seen the object?

26 May 1964 54  
Day Month Year

36. Was anyone else with you at the time you saw the object?

(Circle One)  Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One)  Yes No

36.2 Please list their names and addresses:

37. Was this the first time that you had seen an object or objects like this?

(Circle One)  Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

---

---

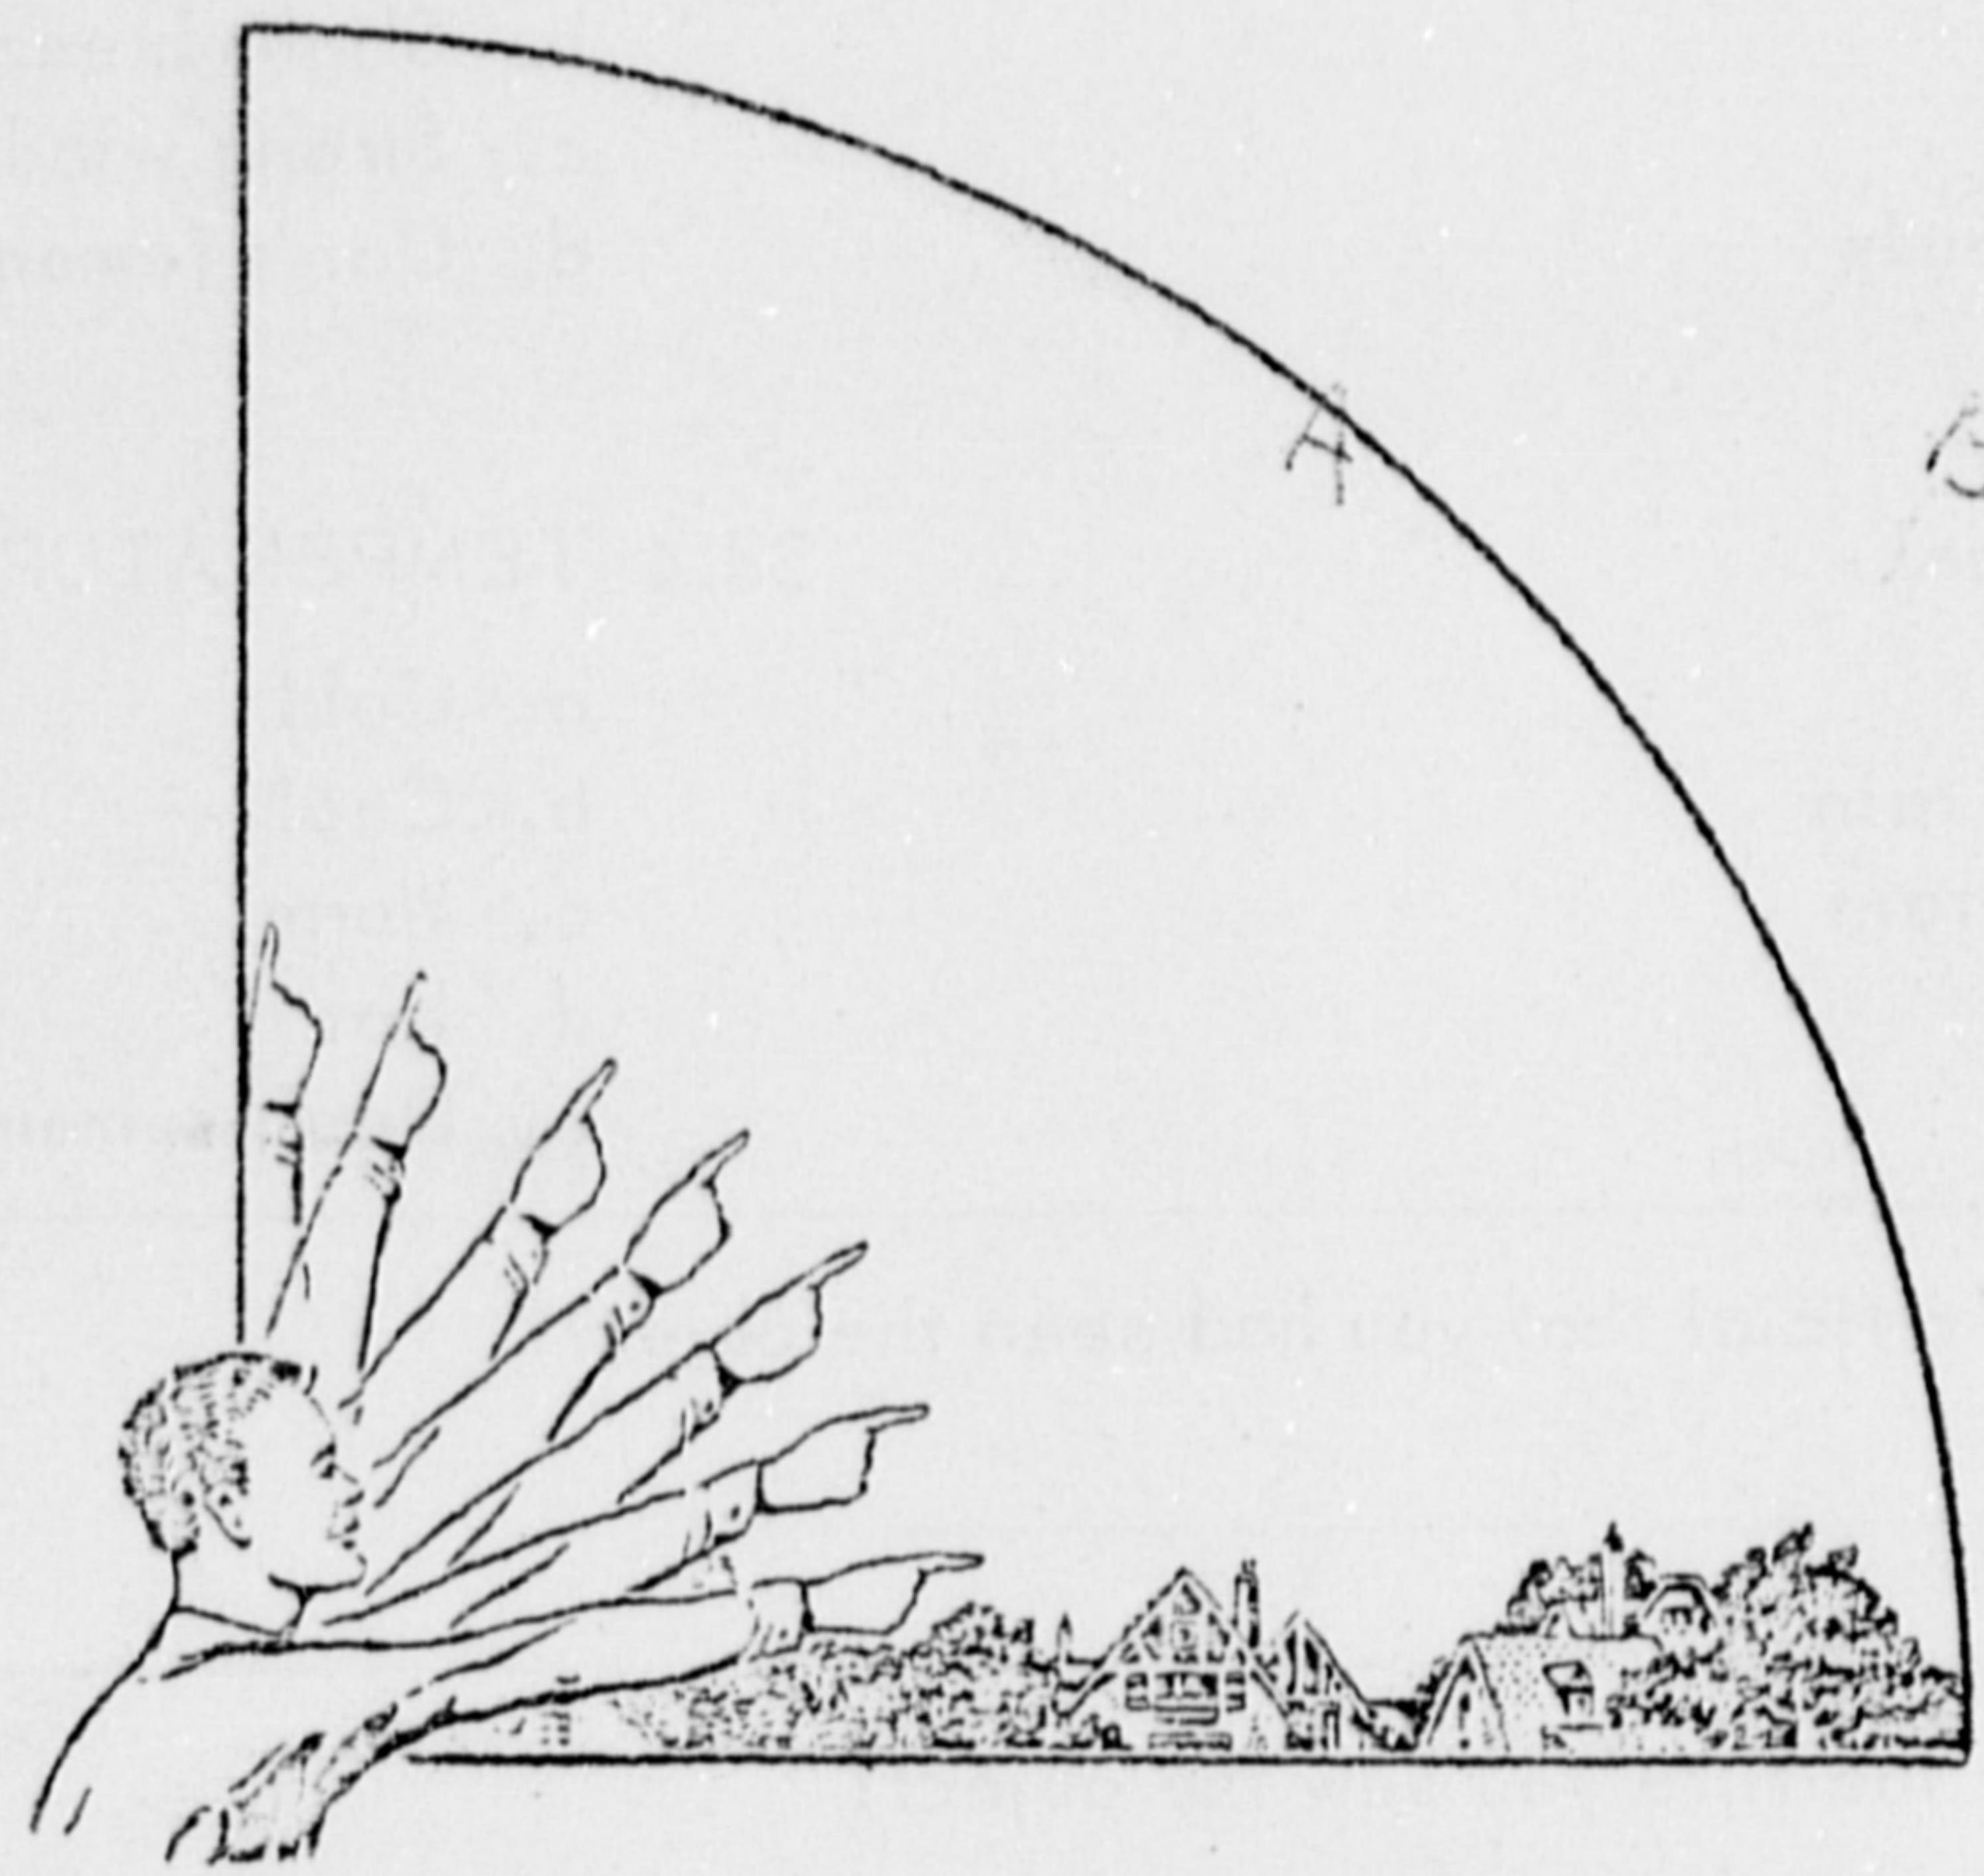

---

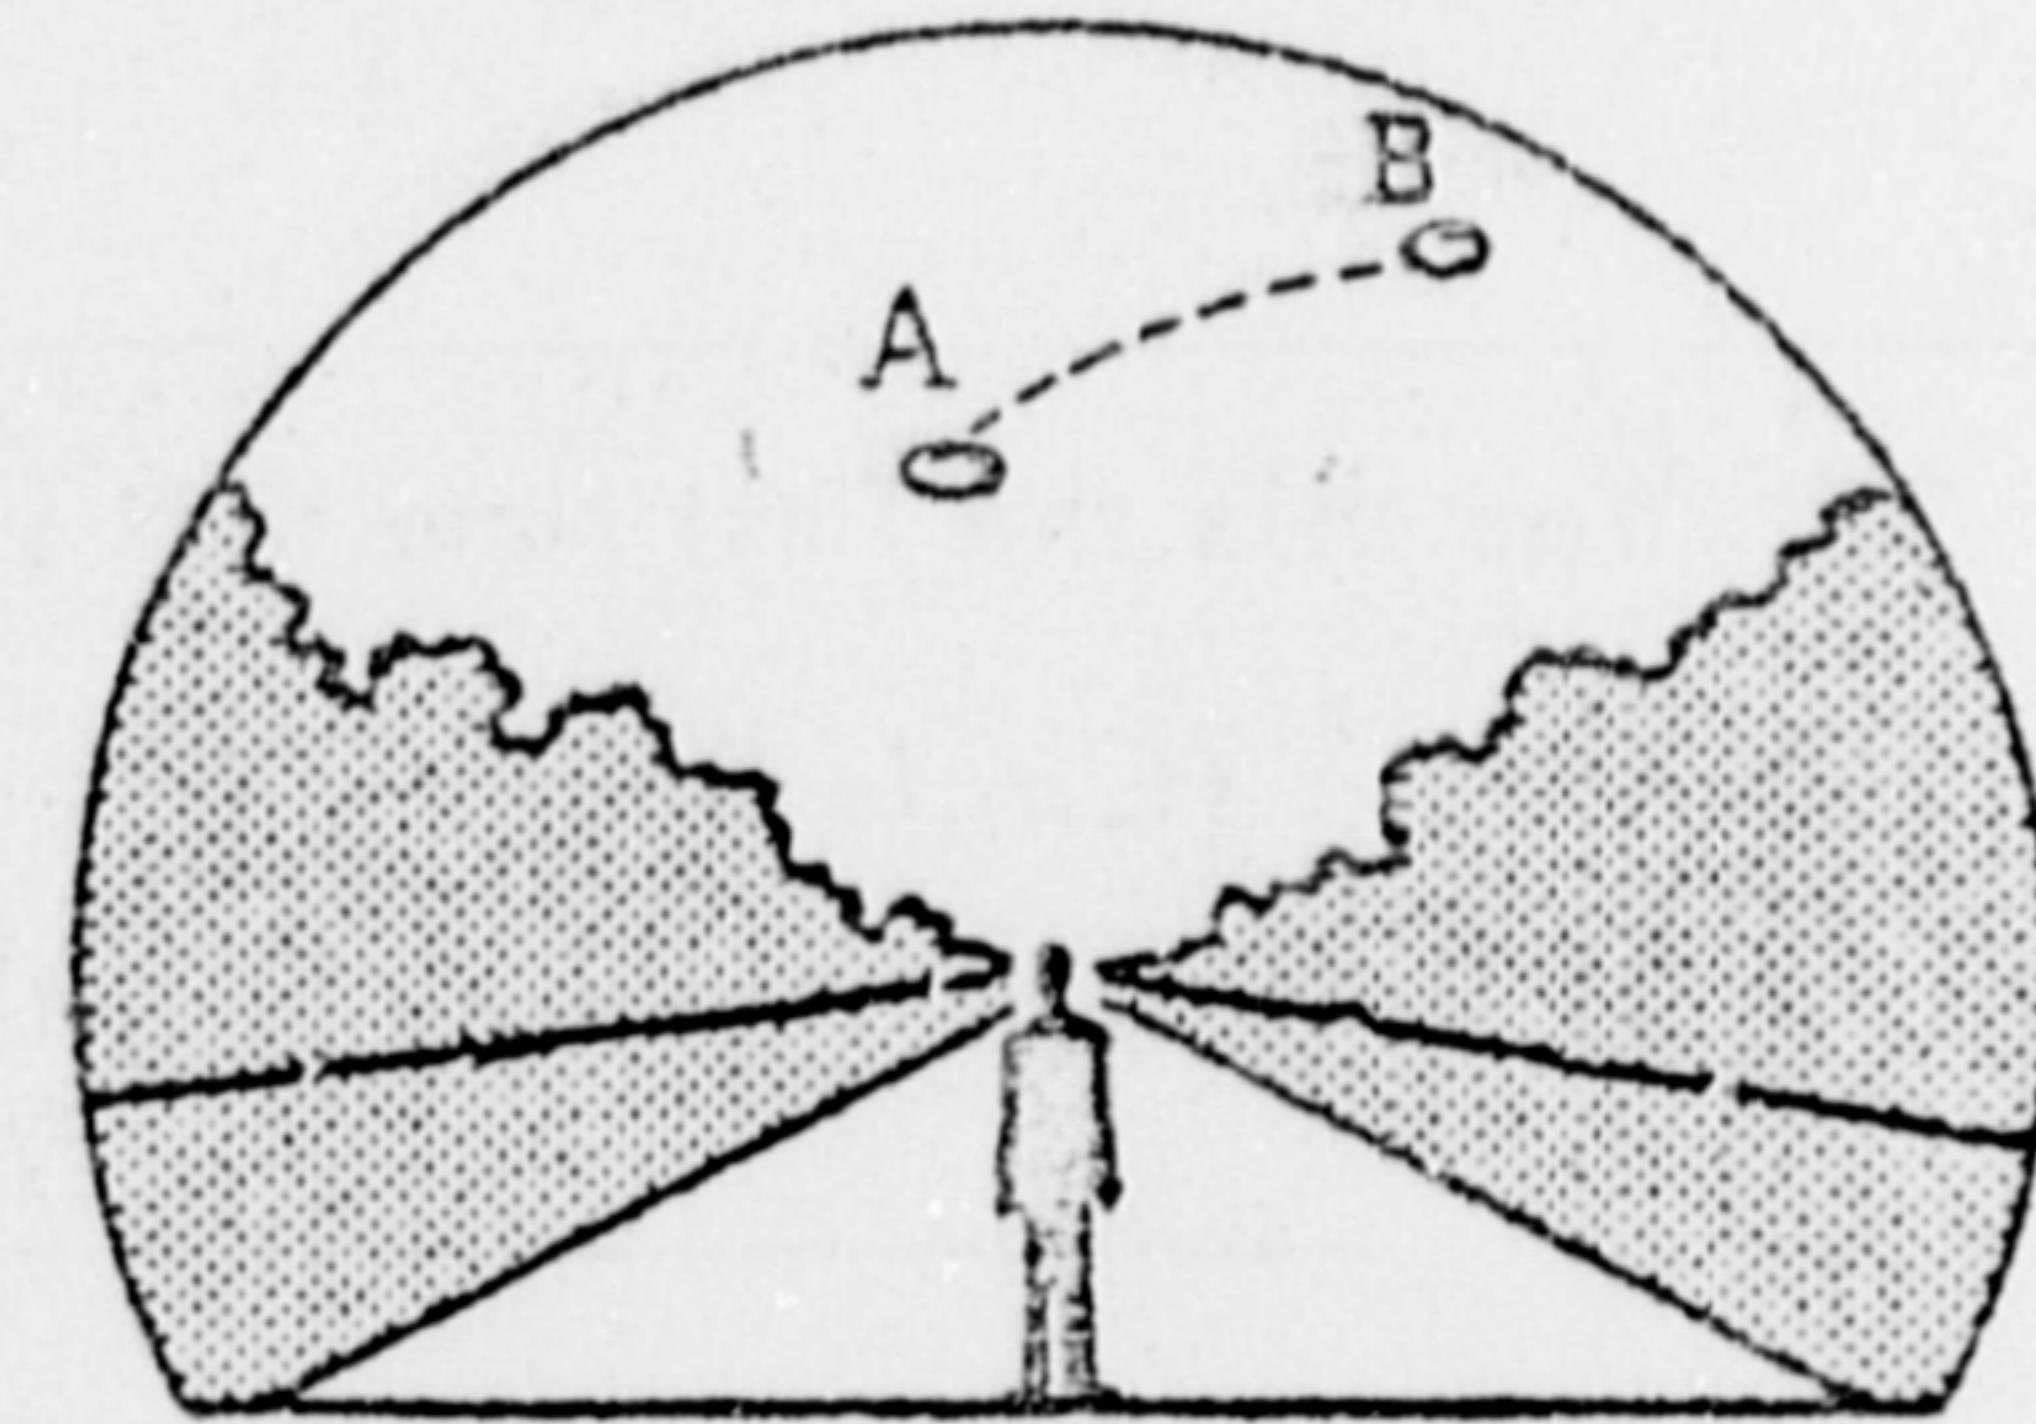

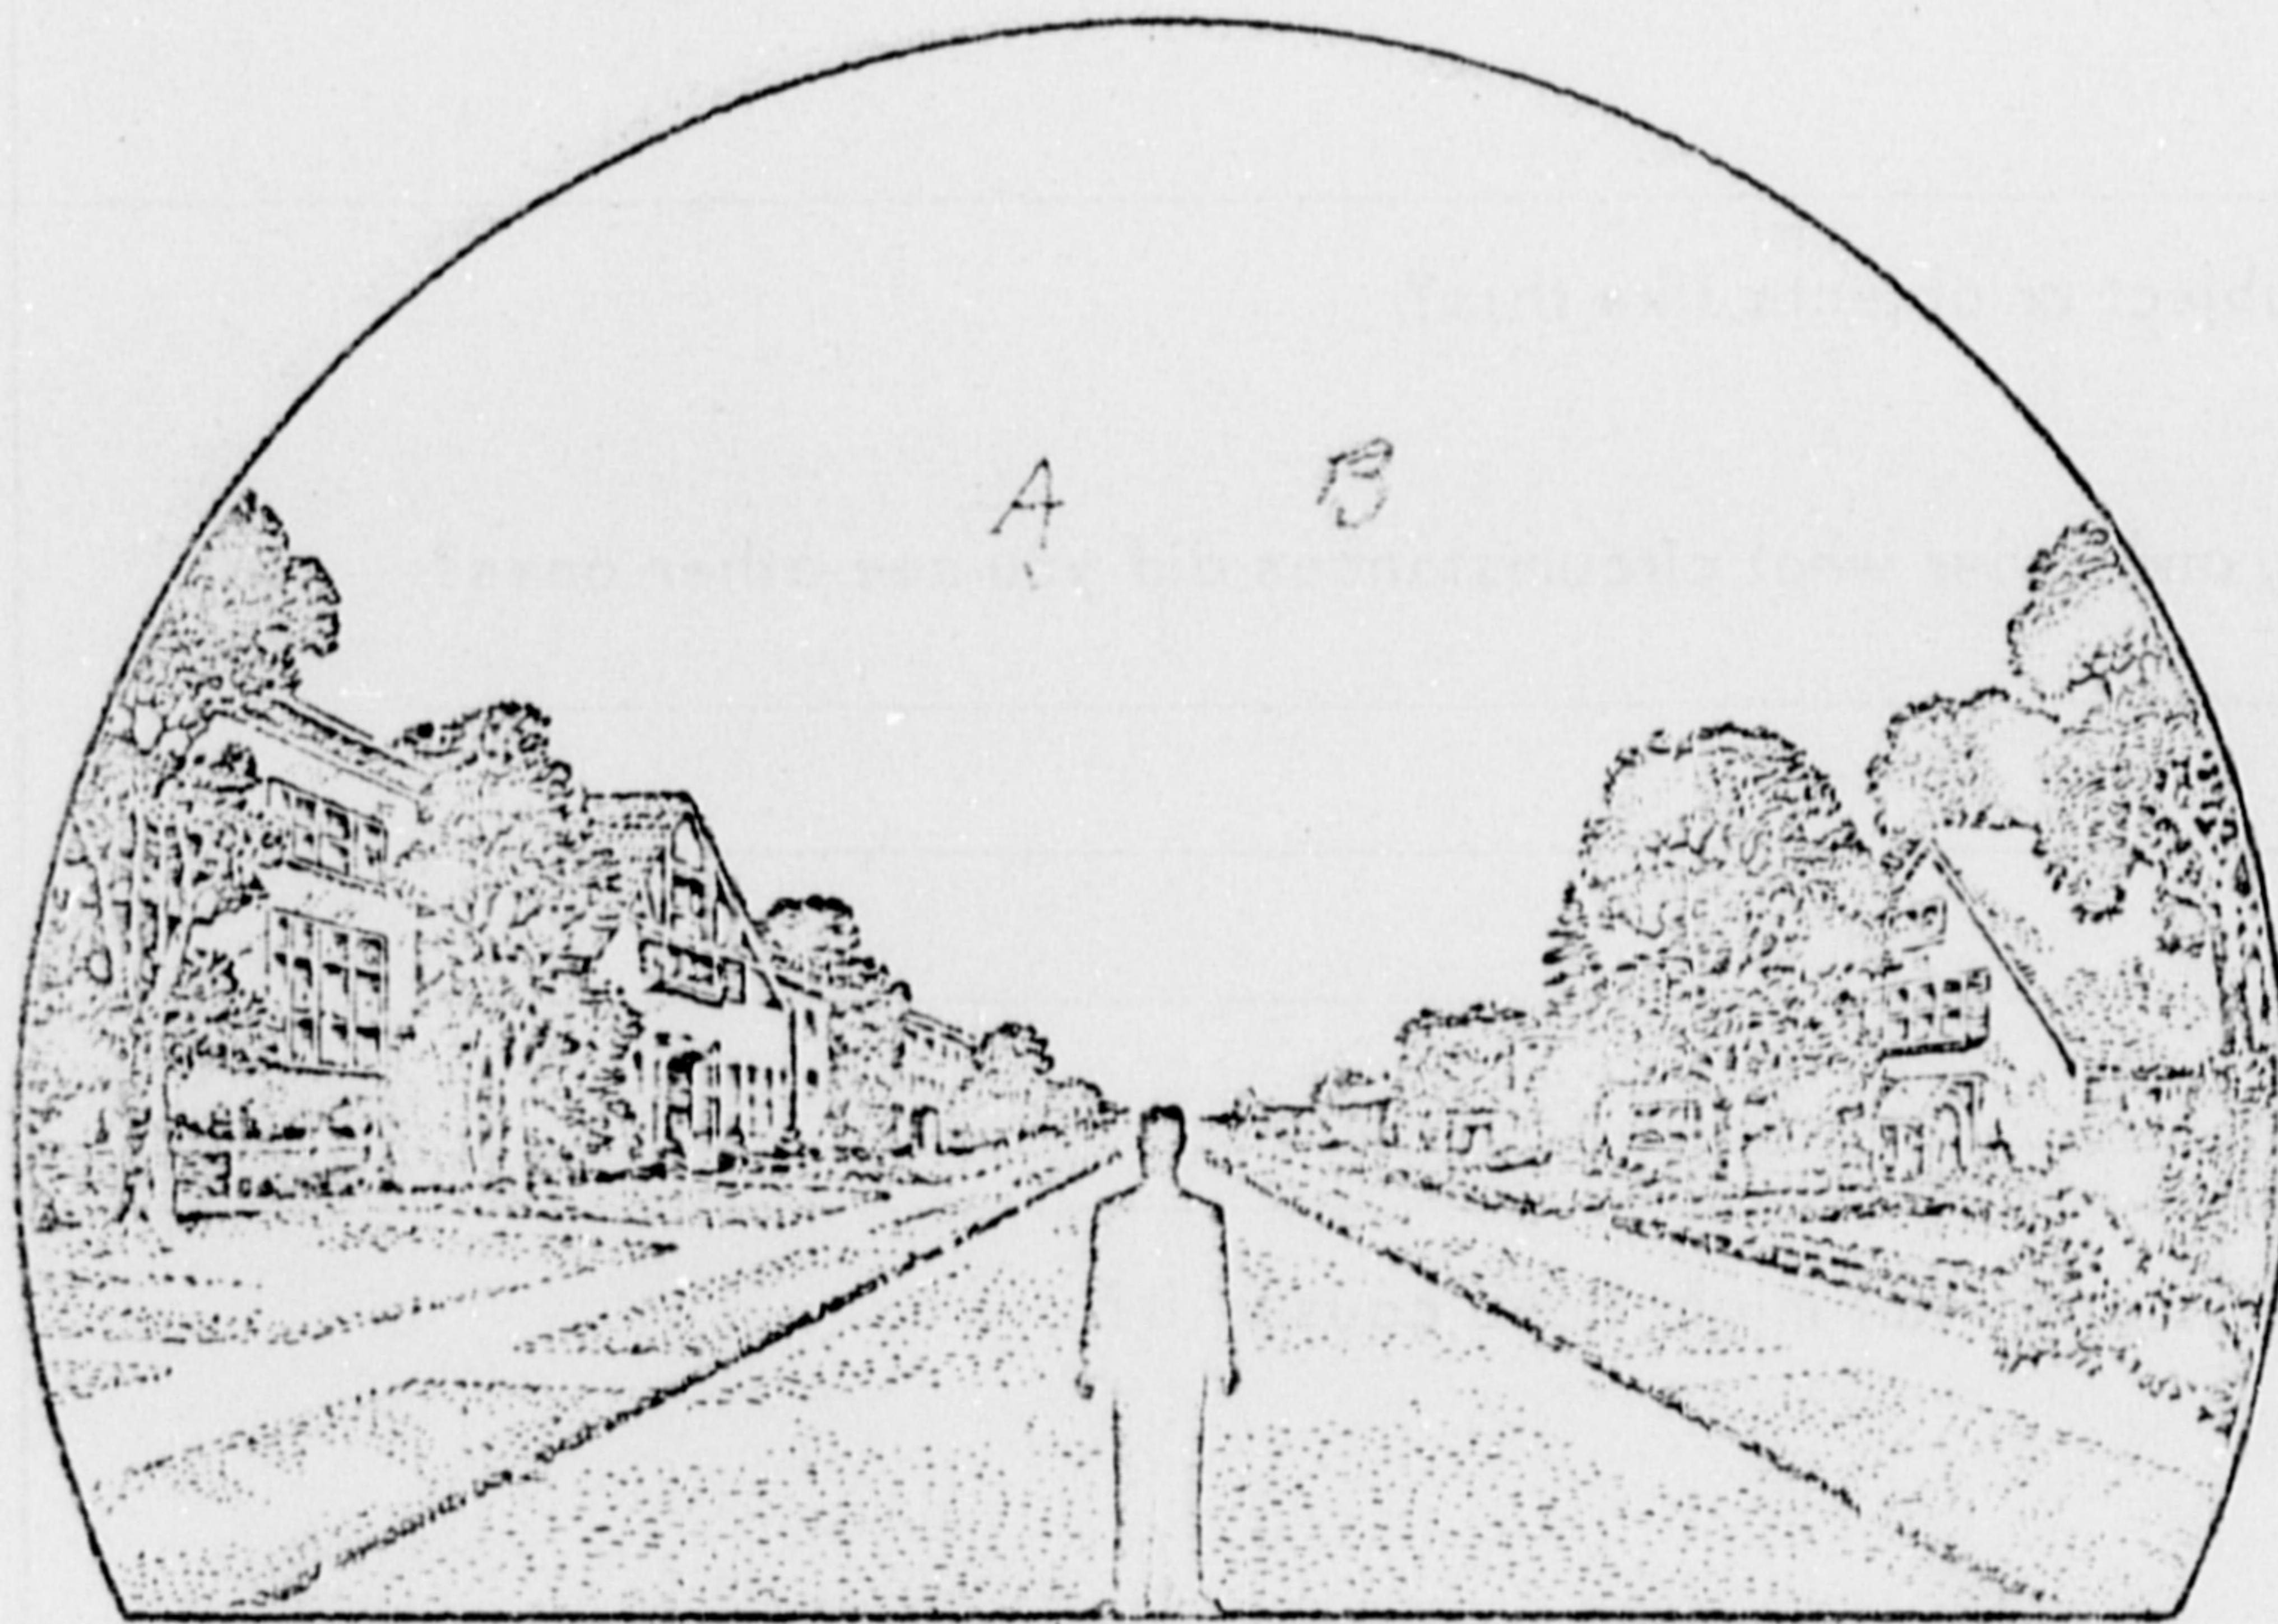

38. In your opinion what do you think the object was and what might have caused it?

*I don't know.*

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the *same* curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

25. Where were you located when you saw the object? (Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other \_\_\_\_\_

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

27. What were you doing at the time you saw the object, and how did you happen to notice it?

Driving down a country road in the early morning  
driving and saw something in the sky.  
I then noticed the object. It was moving through the sky.  
and it was in the same place.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? \_\_\_\_\_ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes  No

29. What direction were you looking when you first saw the object? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

30. What direction were you looking when you last saw the object? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon \_\_\_\_\_ degrees.

31.2 When it disappeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon \_\_\_\_\_ degrees.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.  
Probably two feet.

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

- a. Head of a pin      g. Silver dollar  
 b. Pea      h. Baseball  
 c. Dime      i. Grapefruit  
 d. Nickel      j. Basketball  
 e. Quarter      k. Other \_\_\_\_\_  
 f. Half dollar

- 22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.

- a. Certain      c. Not very sure  
 b. Fairly certain      d. Uncertain

23. How did the object or objects disappear from view? They disappeared directly under us so we could no longer look up at them.

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

They were like two fluorescent lights they have each side of a cabinet in a bathroom, both in color, consist of two and signs.

16. Tell in a few words the following things about the object.

a. Sound No sound

b. Color Multi-colored

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

CP

They didn't appear to be moving.

18. The edges of the object were:

- (Circle One): a. Fuzzy or blurred  
b. Like a bright star  
*Not like* c. Sharply outlined  
d. Don't remember

e. Other \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

19. IF there was MORE THAN ONE object, then how many were there? Two  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Two objects I can see it.

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. Was the object brighter than the background of the sky?

(Circle One):

a. Yes

b. No

c. Don't remember

## U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

16      Nov      1954  
Day      Month      Year

2. Time of day: 4:00

Hour

30 minutes  
Minutes

(Circle One):  A.M.       P.M.

3. Time zone:

(Circle One):  
 a. Eastern  
 b. Central  
 c. Mountain  
 d. Pacific  
 e. Other \_\_\_\_\_

(Circle One):  
 a. Daylight Saving  
 b. Standard

4. Where were you when you saw the object?

Nearest Postal Address

Braudeberg

City or Town

W. Germany

State or Country

Additional remarks: \_\_\_\_\_

5. Estimate how long you saw the object.

Hours

10

Minutes

Seconds

5.1 Circle one of the following to indicate how certain you are of your answer to Question 5.

a. Certain  
 b. Fairly certain

c. Not very sure  
 d. Just a guess

6. What was the condition of the sky?

(Circle One):  
 a. Bright daylight  
 b. Dull daylight  
 c. Bright twilight

d. Just a trace of daylight  
 e. No trace of daylight  
 f. Don't remember

7. IF you saw the object during DAYLIGHT, TWILIGHT, or DAWN, where was the SUN located as you looked at the object?

(Circle One):  
 a. In front of you  
 b. In back of you  
 c. To your right

d. To your left  
 e. Overhead  
 f. Don't remember

referred to be the cause of the two white bands.

Having observed two jet airplanes flying across the sky, I was anxious to see what it seemed to me a similar craft maintaining an upright position + the same of maintaining these clearcut perpendicular bands of white, which I assumed to be steam or exhaust smoke.

It seemed to me that we approached these mysterious bands for about one quarter hour, and I have no trouble a number of miles during that time. Finally, before we passed under it, and out of visible range from within the car, I leaned way forward to watch it, and, apparently, due to the reduced daylight, was startled to see at the top and above the two bands of white, - at the top two large globes of apparently radiant light, then two shining zones or cylinders of much less luminosity, with apparently a luminous zone between them. Below these were the two white and clearcut bands of white previously mentioned.

Had I known that our inability to understand this phenomenon was not due to our own relative ignorance, we would have stopped the car to observe it more closely.

U. S. AIR FORCE TECHNICAL INFORMATION SHEET  
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

On driving with my daughter, Mrs. ~~H. C. T.~~,  
and my wife Mrs. ~~H. C. T.~~ on a road now known  
hereof differently, but formerly known as Route 60 from  
Kensington along the ~~old~~ <sup>old</sup> road toward Harlinton, Pennsylvania,  
about 4:30 to quarter to five P.M. Nov. 8, 1954, one of those  
with me first noted, and the three of us then closely observed  
two bands of white in the sky ahead of us. They were clear  
cut and not tercusses and sudden apparently perpendicular.  
They did not dissipate nor increase. At one time as we  
travelled along the driving road the two bands merged  
into one, and shortly thereafter they separated again.  
Following most of the time and observed them I noted  
that the top of the bands was the brightest part,  
but I could not see any jet aircraft above them, which I

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind
- b. Slight breeze
- c. Strong wind
- d. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- c. Warm
- d. Hot
- e. Don't remember

35. When did you report to some official that you had seen the object?

8

11

1954

Day

Month

Year

36. Was anyone else with you at the time you saw the object?

(Circle One)  Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One)  Yes No

36.2 Please list their names and addresses:

Mrs. [REDACTED]  
Mrs. [REDACTED]

37. Was this the first time that you had seen an object or objects like this?

(Circle One)  Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

---

---

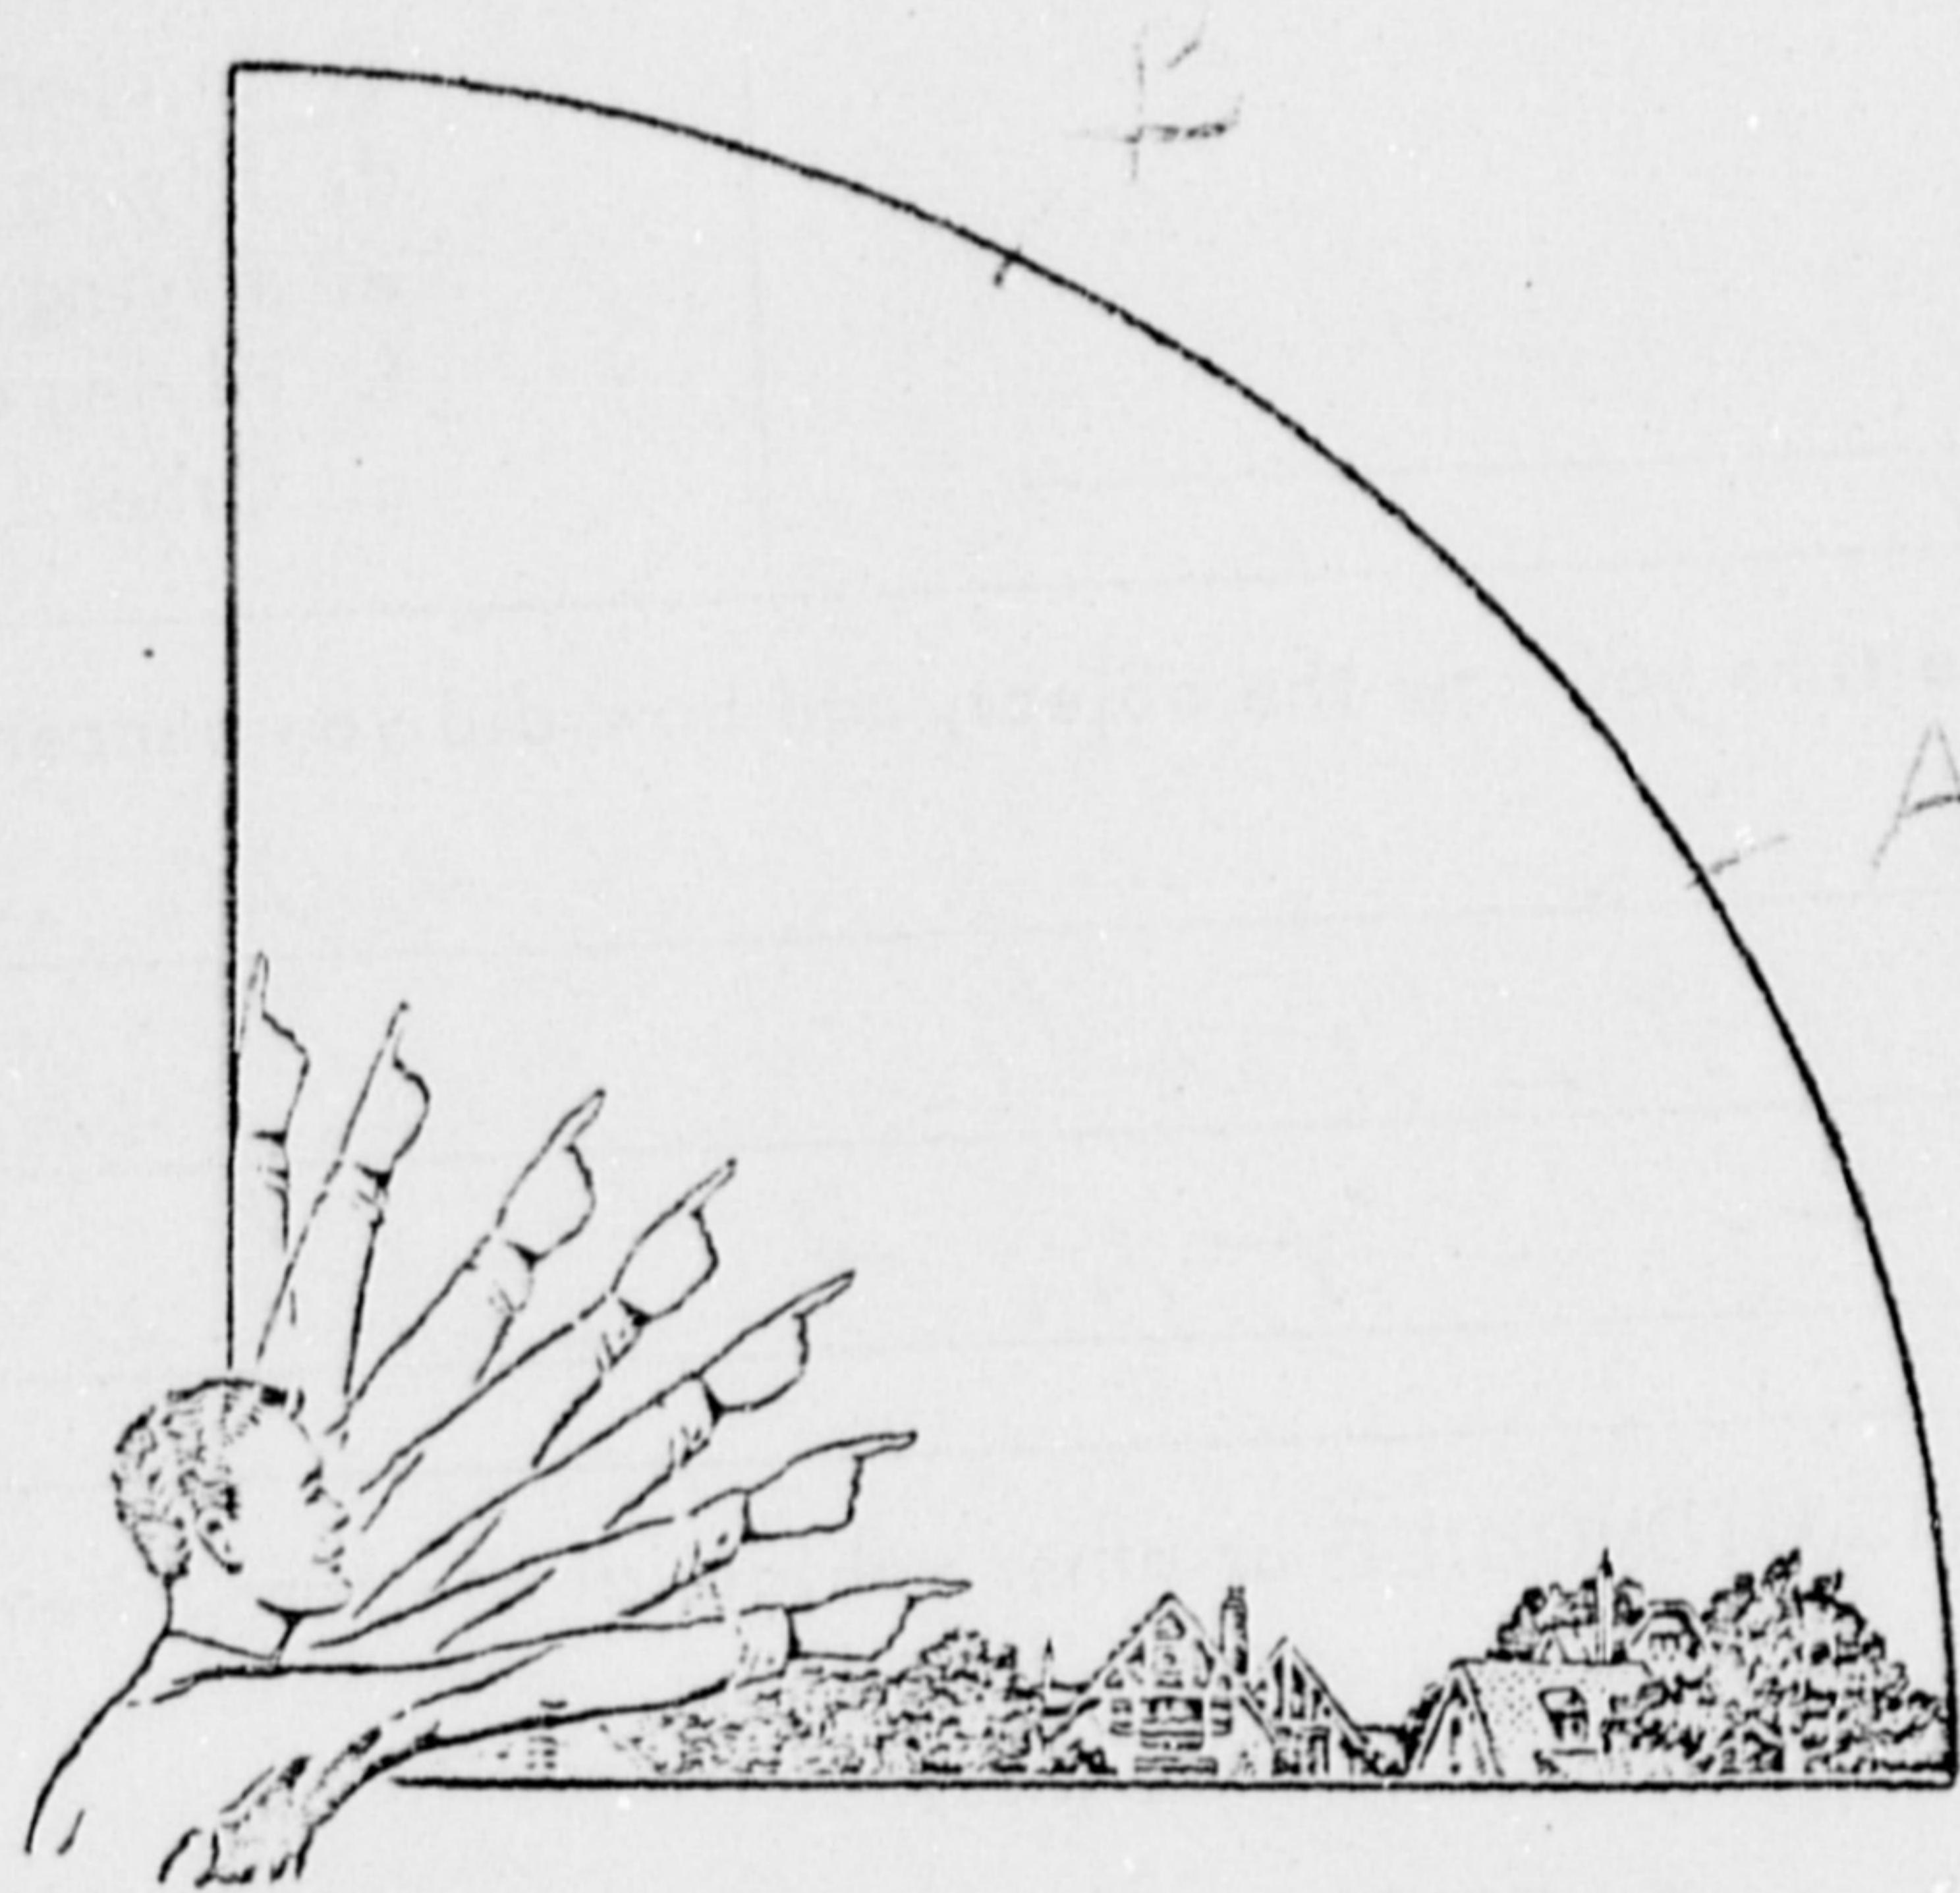

---

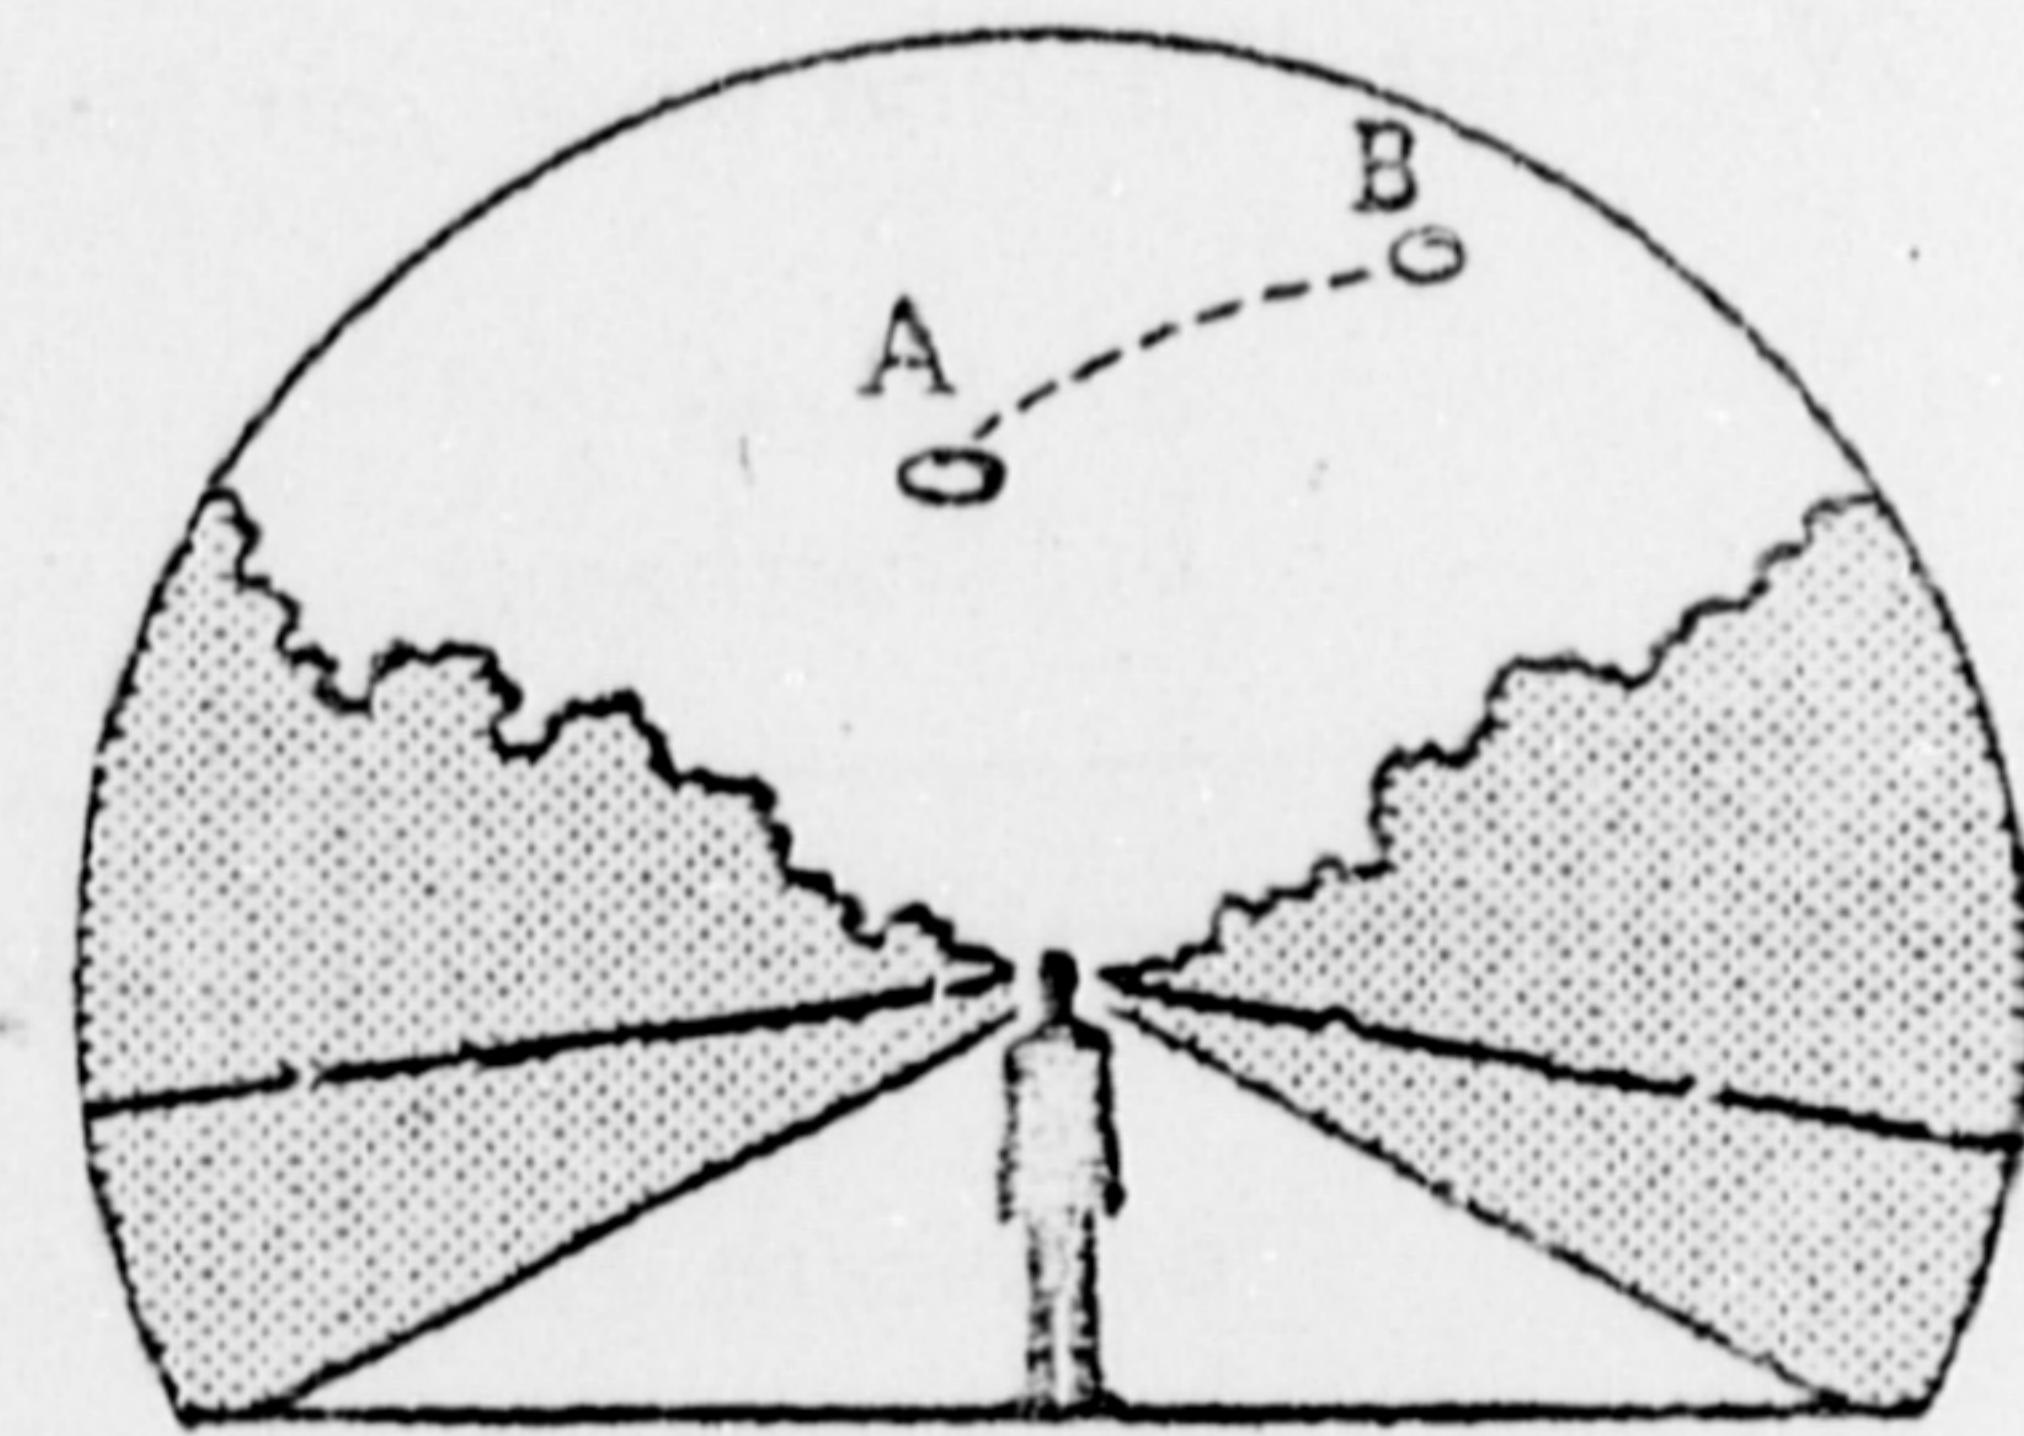

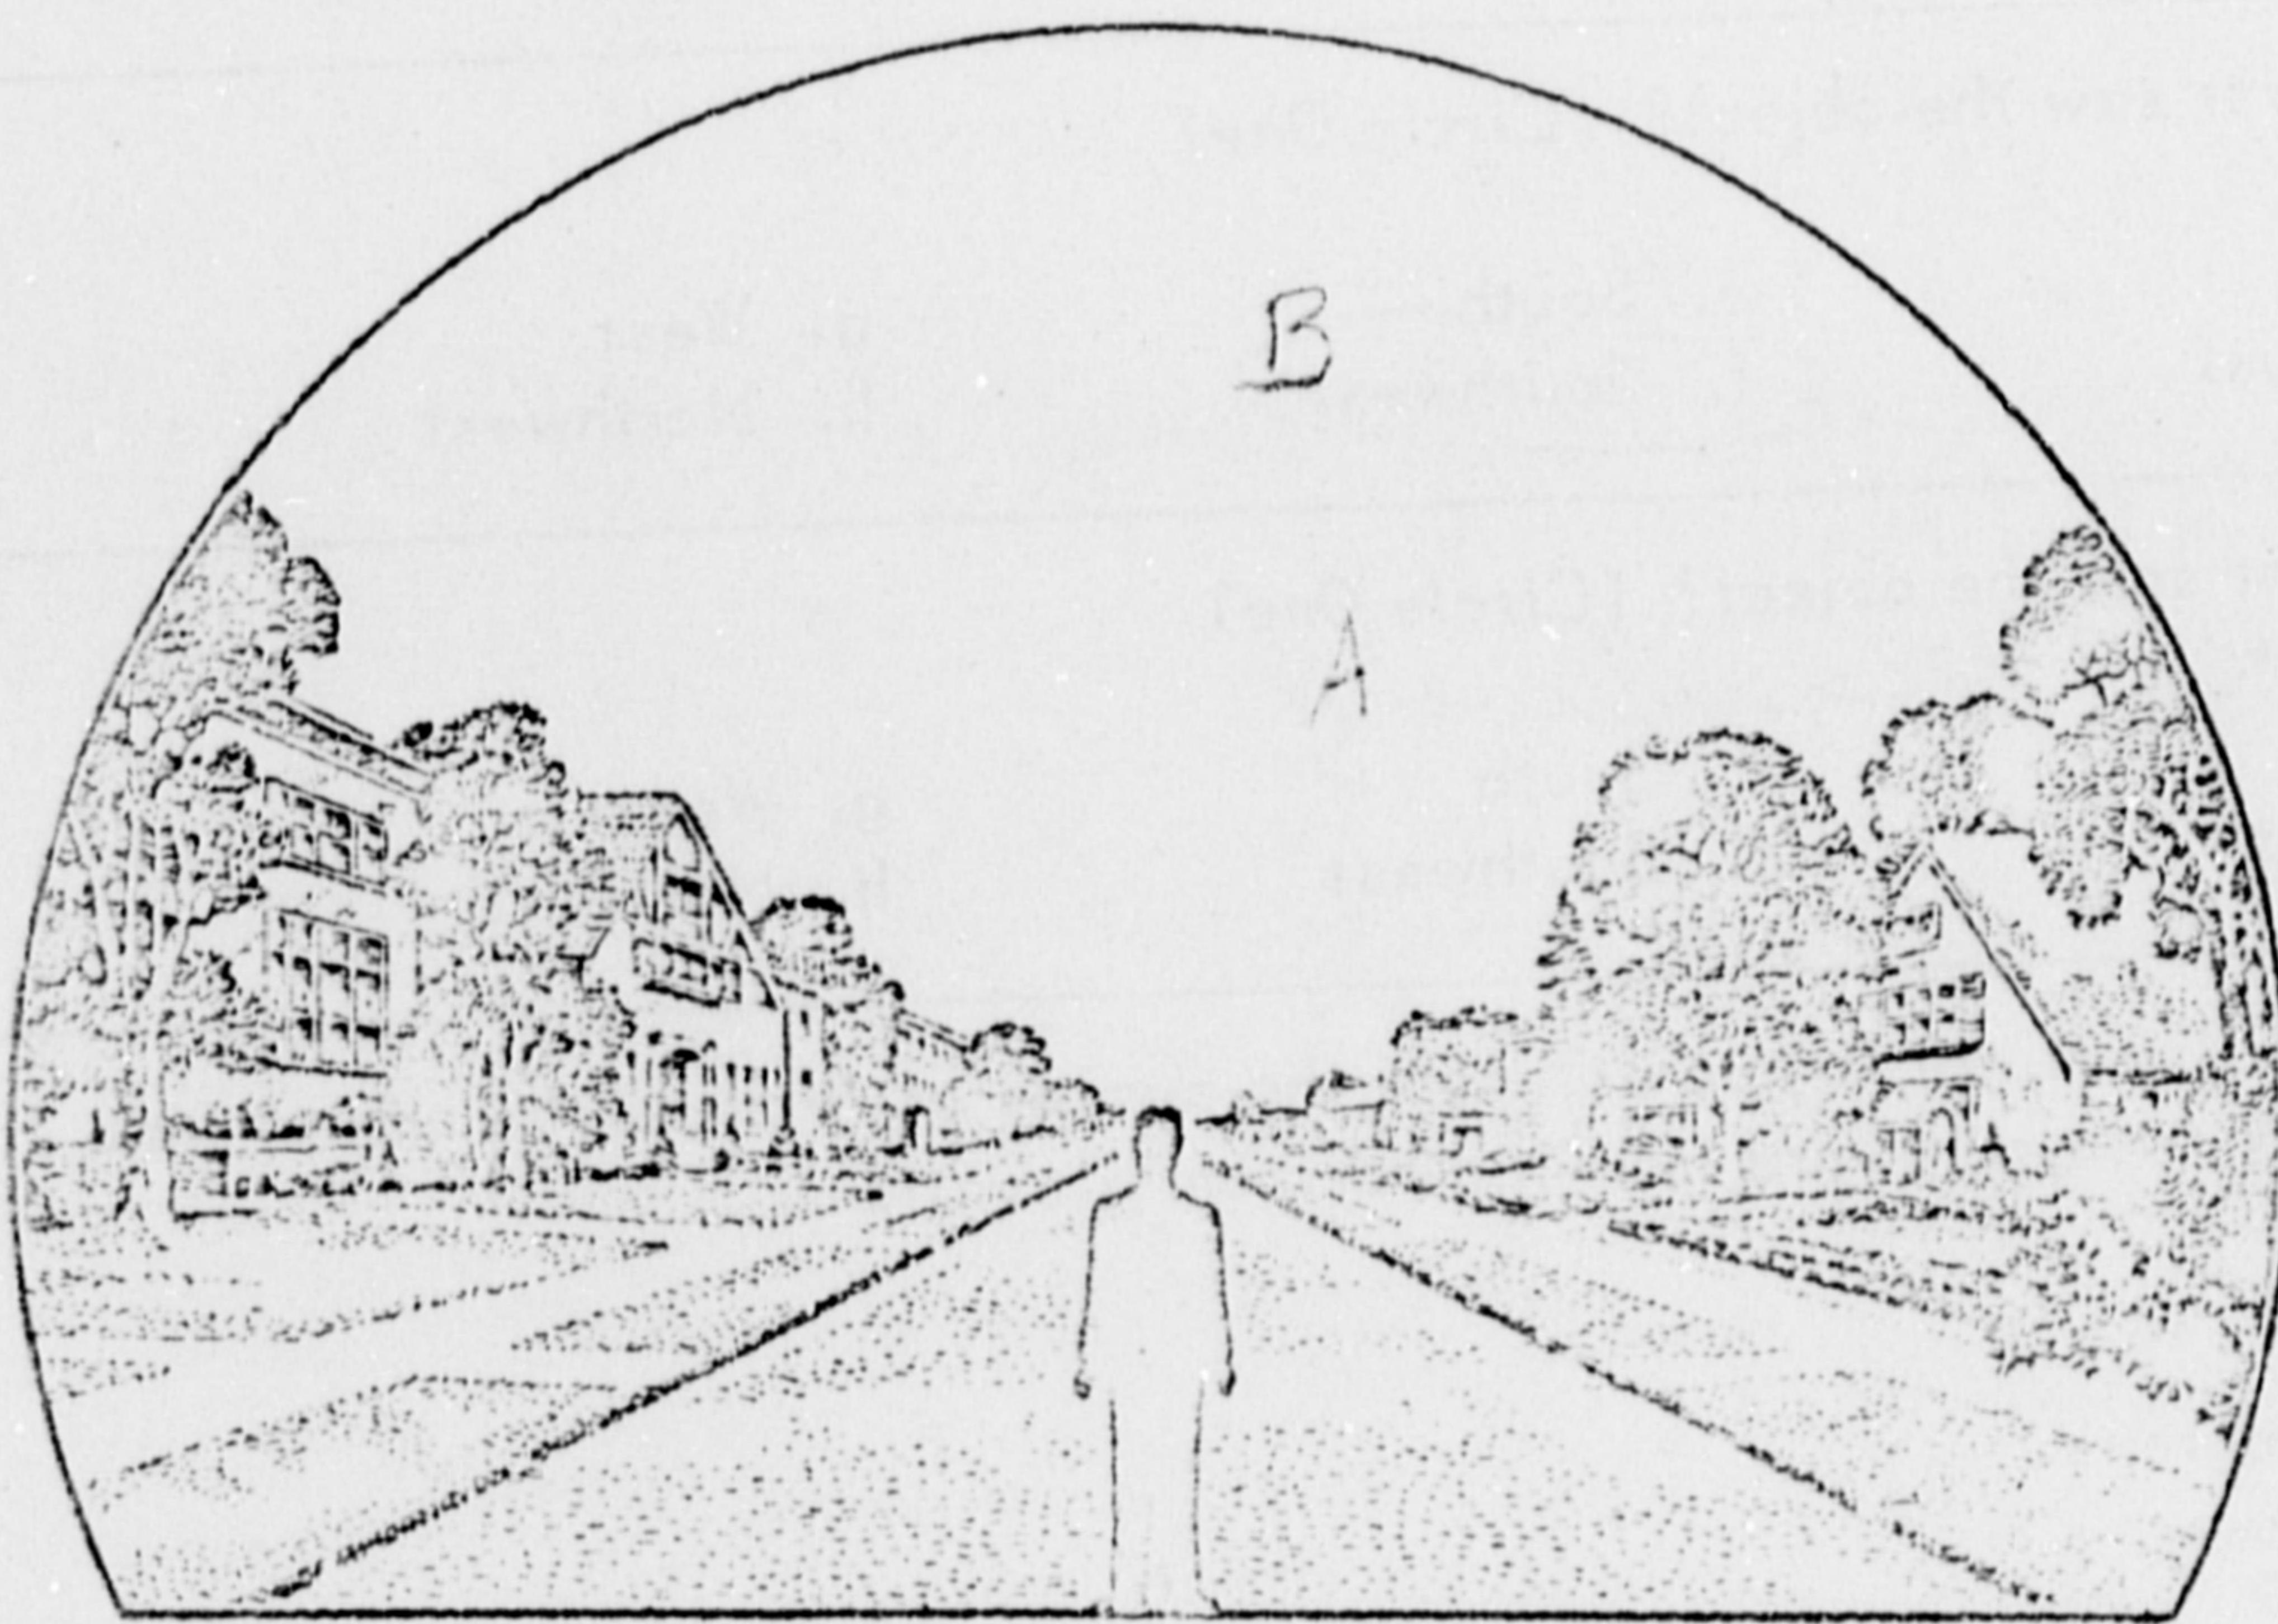

38. In your opinion what do you think the object was and what might have caused it?

I suggested that there must have been a marked development in jet aviation and that without announcing it, a very  
had been forced to make a jet aircraft to fly perpendicular  
and to take, maintaining its altitude.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

25. Where were you located when you saw the object? (Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other \_\_\_\_\_

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

27. What were you doing at the time you saw the object, and how did you happen to notice it?

We were driving in my family car at 45 or 50 miles an hour. The driver one of the two with me first noticed it and called our attention to it. We three then watched it intently.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? 45-50 miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

30. What direction were you looking when you last saw the object? (Circle One)

- As nearly as possible, upward.
- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North 150 degrees.
- b. From horizon 35 degrees.

31.2 When it disappeared:

- a. From true North 150 degrees.
- b. From horizon 70 degrees.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Another question

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.  
 50 to 100 feet. The object above the white border & not including them.

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

- |                  |                  |
|------------------|------------------|
| a. Head of a pin | g. Silver dollar |
| b. Pea           | h. Baseball      |
| c. Dime          | i. Grapefruit    |
| d. Nickel        | j. Basketball    |
| e. Quarter       | k. Other _____   |
| f. Half dollar   |                  |

- 22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.

- a. Certain  
 b. Fairly certain

- c. Not very sure *My best estimate*  
 d. Uncertain

23. How did the object or objects disappear from view? *We faded from it.*

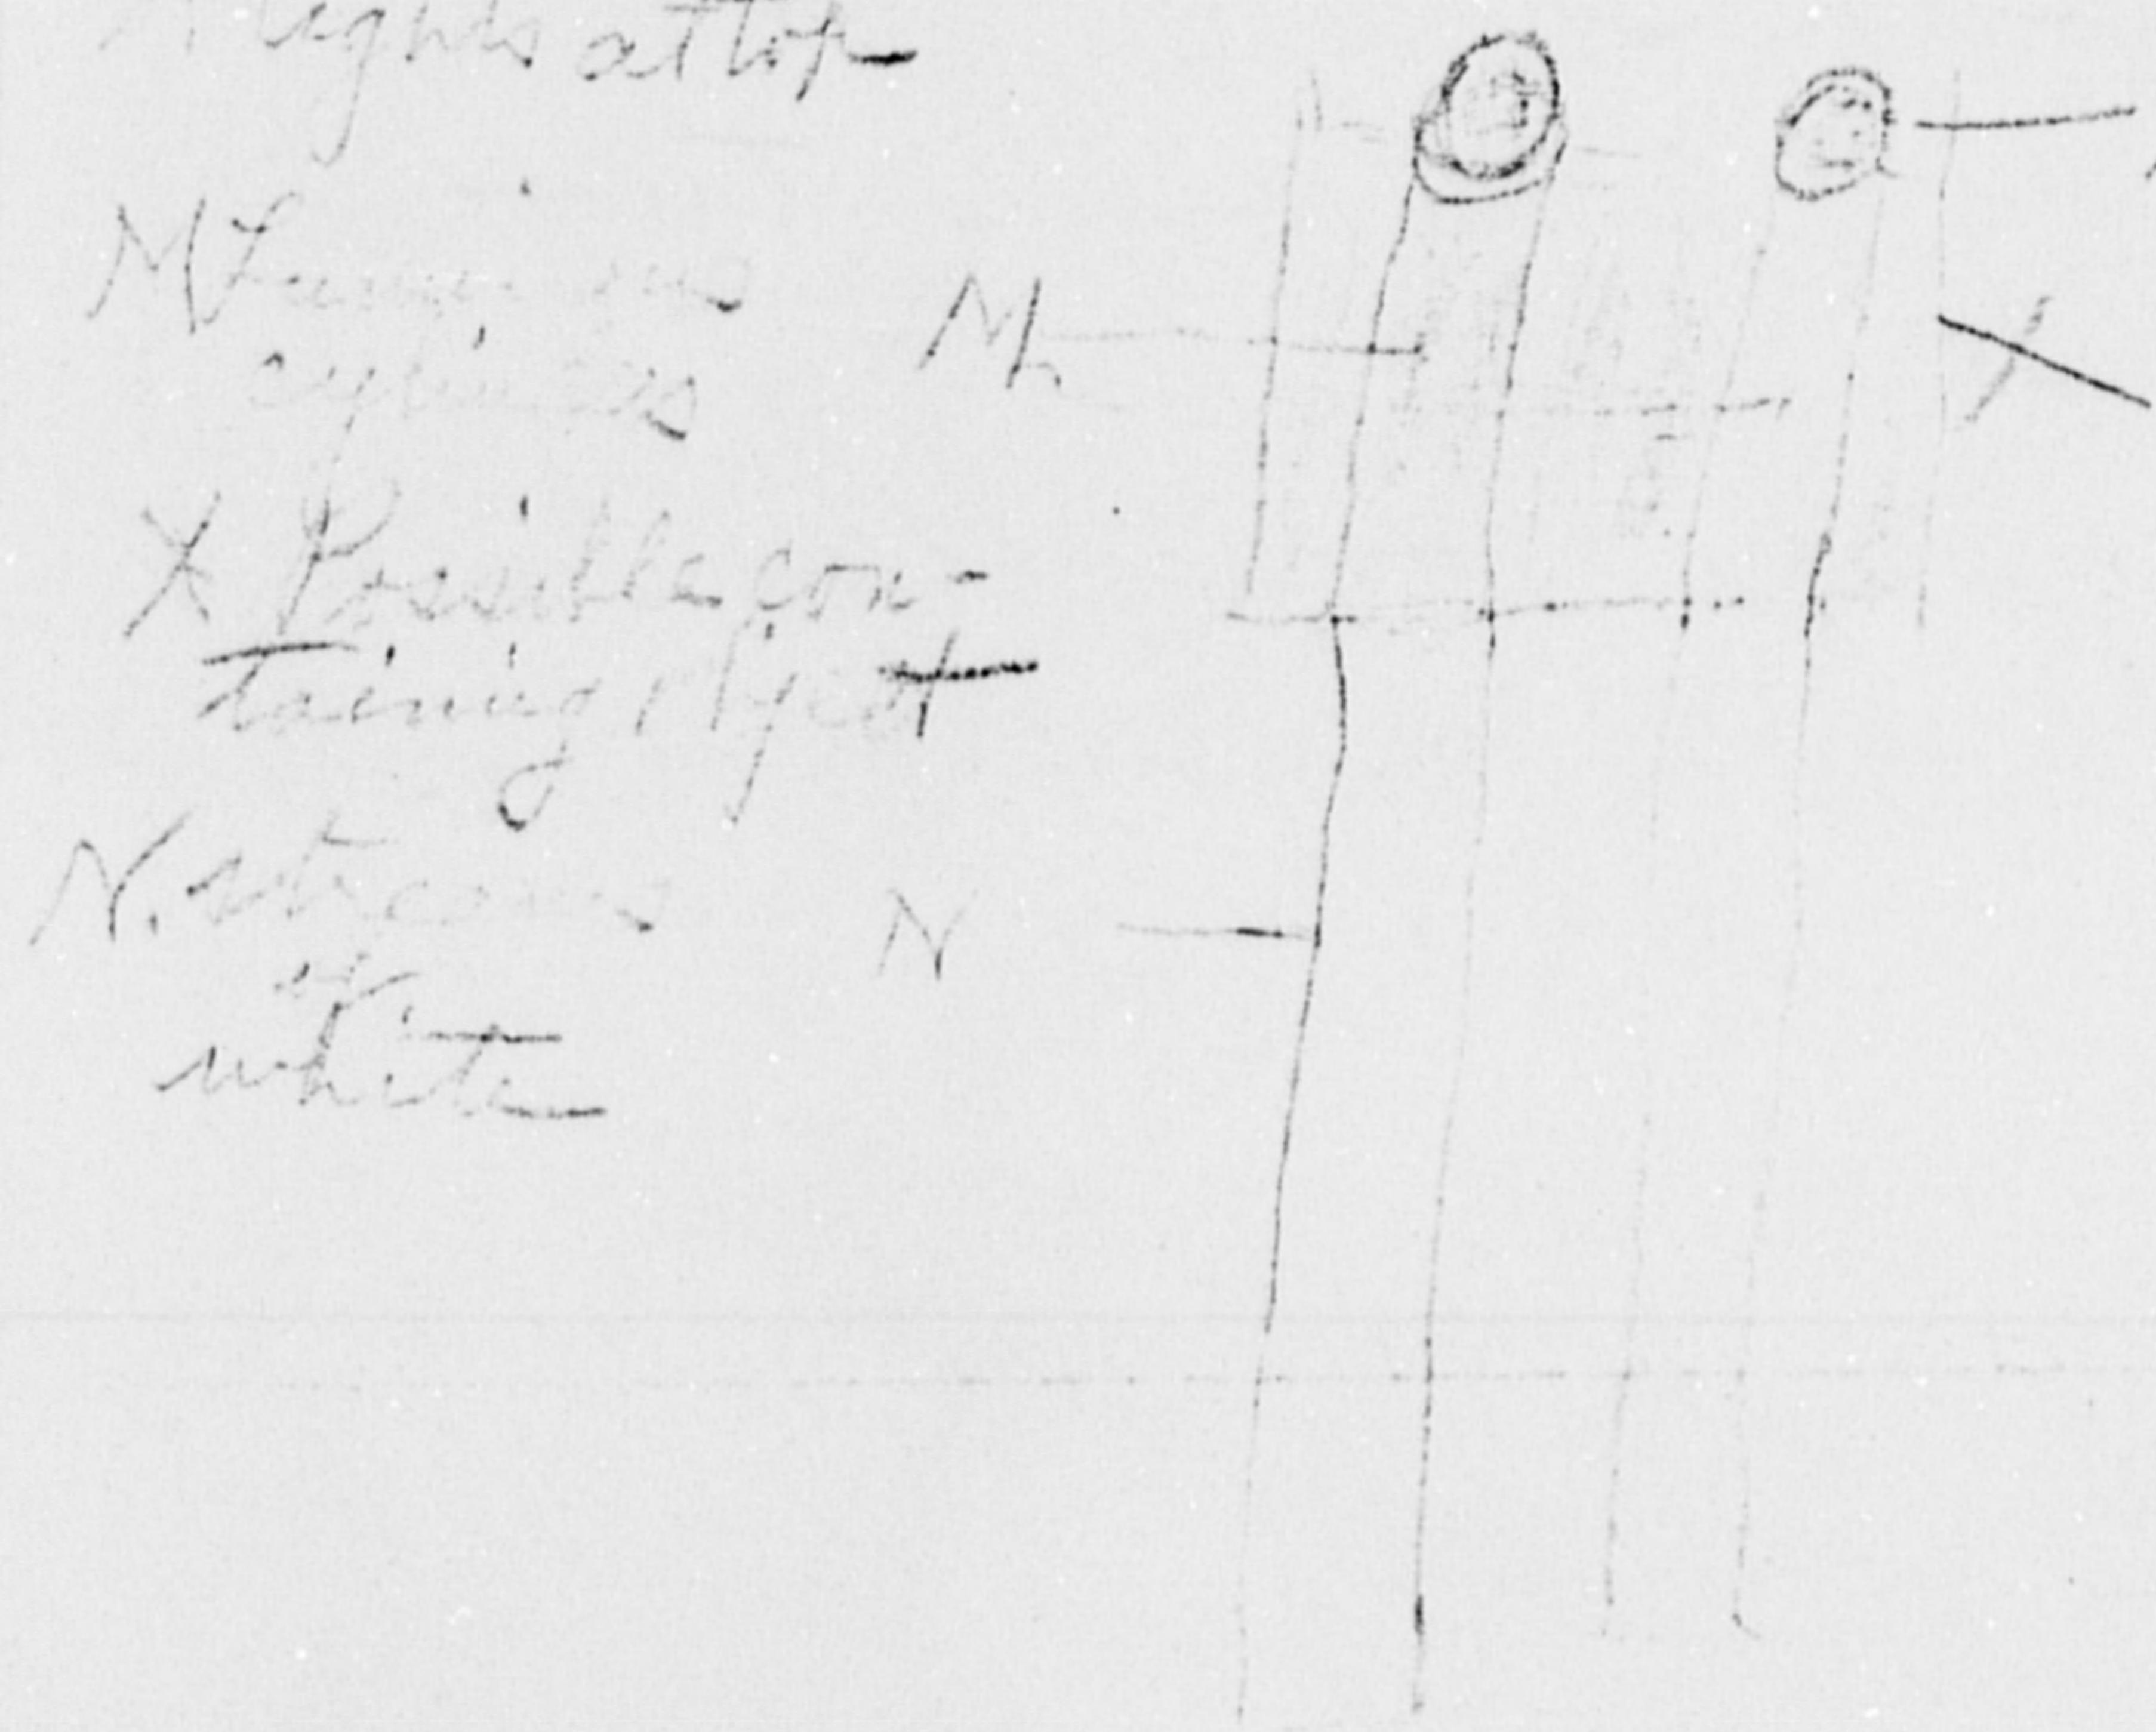

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

If two objects, like two huge torpedoes,  
 If one object like a aircraft, with two  
 parallel cylinders. I would say as I saw these  
 cylinders if they were transparent and hence would  
 be like two shiny aluminum cylinders.

I then saw at the top two luminous globes, bright as from an inner source of light, then two long tails of light - quite different from the white streams below. I wondered if I saw them whether the light they showed came from within the cylinders - if such they were, or if they were reflections from the globes of light above. I also wondered, but did not have time to ascertain whether these two radiant tails were a part of a larger whole which encompassed them both. It seemed to me that I observed a somewhat greater body marked X in the diagram below.

Then below these two zones of light were the two apparently perpendicular bands, which were still clearly visible, clear-cut and apparently relatively close.

At top

Not to scale

The drawing is far from being to scale. Many times too thick and too short

16. Tell in a few words the following things about the object.

a. Sound We were travelling in a car with most of the windows closed. We did not notice any sound from the object.

b. Color During most of the time of the observation I saw two parallel white streams, clear and parallel, not attenuated at any point.

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

For nearly all the time I saw two parallel and apparently perpendicular white bands which seemed to be fairly close, apparently stationary. We drove toward them. When first seen they were at an elevation of perhaps  $35^{\circ}$ . At one point on the somewhat winding road the two bands blended into one, and shortly thereafter they separated again as before.

The brightest zone was at the top. During most of the time I saw nothing except these two white bands.

Just as when previously and subsequently watching a twin exhaust jet airplane flying, the trail appears clearer than the plane, and sometimes the trail is the only thing seen, so these two white bands were for most of the time, the thing most clearly observed. See answer 17 for my further details.

18. The edges of the object were:

- (Circle One): a. Fuzzy or blurred  
b. Like a bright star  
c. Sharply outlined  
d. Don't remember

e. Other \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

19. IF there was MORE THAN ONE object, then how many were there?

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Two bright bands. The startling thing that impressed me was that the white streams seemed to be independent from a perpendicular object (possibly two perpendicular objects) which remained relatively stationary in a perpendicular position.

As we traveled forward, and as the light in the sky grew less, the bands became relatively big but until they neared the top visible through our window. I leaned forward as far as possible and believe that I observed the phenomenon some what longer than the two women (my wife and daughter) with me.

In this changing light I saw what I had not observed before, which appeared to be the object or objects which had come the white bands we had been observing.

(See over)

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. Was the object brighter than the background of the sky?

(Circle One):

a. Yes

b. No

c. Don't remember

9. Was the object brighter than the background of the sky?

*Much brighter*

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight?

*The brightness, except as mentioned below, was not like that of an automobile headlight. It seemed to me that the two streams reflected light and were not beams of direct light.*

- (Circle One), a. A mile or more away (a distant car)?
- b. Several blocks away?
- c. A block away?
- d. Several yards away?
- e. Other \_\_\_\_\_

11. Did the object:

(Circle One for each question)

- a. Appear to stand still at any time? *Yes*  Yes No Don't Know
- b. Suddenly speed up and rush away at any time? *No*  Yes No Don't Know
- c. Break up into parts or explode? *No*  Yes No Don't Know
- d. Give off smoke? *The white streams may have been smoke*  Yes No Don't Know
- e. Change brightness? *not measurably*  Yes No Don't Know
- f. Change shape? *No*  Yes No Don't Know
- g. Flicker, throb, or pulsate? *No*  Yes No Don't Know

12. Did the object move behind something at anytime, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind: \_\_\_\_\_

13. Did the object move in front of something at anytime, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved in front of: \_\_\_\_\_

14. Did the object appear: (Circle One): *see later question*

a. Solid?

b. Transparent?

c. Don't Know.

15. Did you observe the object through any of the following?

- a. Eyeglasses
- b. Sun glasses
- c. Windshield
- d. Window glass

Yes  
Yes  
 Yes  
Yes

No  
No  
No  
No

- e. Binoculars
- f. Telescope
- g. Theodolite
- h. Other \_\_\_\_\_

Yes  
Yes  
Yes  
Yes

No  
No  
No  
No

U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

U. S. AIR FORCE TECHNICAL INFORMATION SHEET  
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

NAME <u>Mrs. [REDACTED]</u> (Please Print)	(Do Not Write in This Space)
SIGNATURE <u>[REDACTED]</u>	CODE: _____
DATE <u>10 November 1954</u>	

Around 4:30 I was driving from Lancaster south on the old route to Sabattus at 40-45 MPH when my mother drew my attention to 2 objects in the sky above the clouds partly on our left. They appeared to be stationary columns of smoke which I at first thought were from a jet plane but on looking further I observed that the right hand column appeared to be a little higher than the left & that the top of each was luminous like light from a flooded bulb. That part of the sky was completely clear although there were clouds well down below. As we drove along they continued to appear to remain stationary but was position to the sun changing

39. Do you think you can estimate the speed of the object?

(Circle One) Yes  No

IF you answered YES, then what speed would you estimate? \_\_\_\_\_ m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One) Yes  No

IF you answered YES, then how far away would you say it was? \_\_\_\_\_ feet.

41. Please give the following information about yourself:

NAME \_\_\_\_\_  
Last Name \_\_\_\_\_

First Name \_\_\_\_\_

Middle Name \_\_\_\_\_

ADDRESS \_\_\_\_\_  
Street \_\_\_\_\_ City \_\_\_\_\_ Zone \_\_\_\_\_ State \_\_\_\_\_
