Gray Air Force Base  
Killeen, Texas

OPNO

SUBJECT: Report of Unidentified Flying Objects (UFOs)

TO: Commander  
Headquarters Air Defense Command  
Colorado Springs, Colorado

1. In compliance with Air Force Regulation 200-2 subject as above, dated 12 August 1954, the following report of UFOs and information relative thereto is herewith submitted.
2. The sighting reports emanate from Killeen Base, an organization of the United States Army located immediately adjacent to this installation, and within the confines of Ranger Area 343. All sightings were made by members of a Military Police company who are on duty on a round-the-clock basis. Subject personnel were at first reluctant to report the sighting and therefore some of those reported herein occurred in early October 1954. However, other than the single sighting of a balloon like object, the action of the luminous like objects have remained consistent on all sightings.
3. This headquarters conducted a preliminary investigation in the local area including Fort Hood, Texas, a two division organization under the III Corp United States Army and Killeen Base, with the following results.
  - a. No organizational training in progress using pyrotechnics or rockets which might account for the luminous like objects.
  - b. No report of similar sighting by this station or Fort Hood.
  - c. No unidentified returns on the CCA radar scope.
  - d. No known weather balloon releases.

Gray Air Force Base  
Killeen, Texas

OPNS

SUBJECT: Report of Unidentified Flying Objects (UFOs)

TO: Commander  
Headquarters Air Defense Command  
Colorado Springs, Colorado

1. In compliance with Air Force Regulation 204-2 subject as above dated 12 August 1954, the following report of UFOs and information relative thereto is herewith submitted.

2. The sighting reports emanate from Killeen Base, an organization of the United States Army located immediately adjacent to this base and within the confines of Danger Area 303. All sightings were made by members of a Military Police company who are on duty on a rotational basis. Subject personnel were at first reluctant to report the sightings and therefore some of those reported herein occurred in early October. However, other than the single sighting of a balloon-like object, the action of the luminous like objects have remained consistent on all sightings.

3. This headquarters conducted a preliminary investigation in the local area including Fort Hood, Texas, a two division organization of the III Corp United States Army and Killeen Base, with the following results.

- a. No organizational training in progress using pyrotechnics or rockets which might account for the luminous like objects.
- b. No report of similar sighting by this station or Fort Hood.
- c. No unidentified returns on the TWA radar scope.
- d. No known weather balloon releases.

Incl 1

Hq 1001st ARW OPM Subject: Report of Unidentified Flying Objects

e. All sighters agree that the luminous like objects are not aircraft lights or exhaust.

f. The observer states he studied astronomy for two years in college and the objects he saw are unlike any celestial body he had studied.

OF

2

PAGES

The format for the information contained herein is in conformance to that prescribed by par. 71, Air Force Regulation 312-2 dated 12 August 1954.

(1) Description of the object (a):

(a) Cylindrical

(b) About the size of a wash tub as observed from a distance of 750 to 100 yards.

(c) Dark brown

(d) One

(e) Not applicable

(f) On initial observation, observer thought it to be a balloon.

(g) No trail, exhaust or apparent source of propulsion. Observer discredits possibility of object being a balloon and being punctured upon contact with the earth, and trajectory upon ascent and departure from the area.

(h) No sound

(i) None

(2) Description of course of object (a):

(a) Observer standing in door of building when he observed object.

(b) 45 degrees above the horizontal, descending in westerly direction.

(c) Ascent near vertical, about 75 to 80 degrees above horizontal plane, then disappearing to the southwest on a near horizontal plane.

(d) As indicated in par. (b) and (c) above.

(e) Very rapid and on a straight trajectory.

(f) Approximately 2 1/2 minutes.

(3) Manner of observation:

(a) Ground visual

(b) No visual aid

(c) Not applicable

NOTE: THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT, 50 U. S. C.—31 AND 32, AS AMENDED. - (7) Weather and wind-altitude conditions at time and place of sighting:
  - (a) Low hanging clouds obscuring the sun.
  - (b) Surface winds North-Northwest - 13 knots.
  - (c) 500 feet
  - (d) 1/2 mile
  - (e) None
  - (f) None
- (8) None
- (9) None
- (10) None were heard or seen by the observer.
- (11) Director of Operations and Training. The reporting officer advanced the theory that the balloon like object might be a weather balloon released from another area. The sighter was shown a weather balloon and stated the colors were not similar. He stated further that the object disappeared so fast that it diminished in size from that of a wash tub to a mere speck in approximately one minute. The existing winds would not provide propulsion of that velocity.

Gray Air Base, Williams, Texas

2

1

2

The format for the information contained herein is in conformance with that prescribed by para 7C, Air Force Regulation 20-2 dated 12 August 1954.

## (1) Description of the object (s):

(a) Spherical.

(b) About the size of a wash tub as observed from a distance of 250 to 300 yards.

(c) Dark Brown.

(d) One.

(e) Not Applicable.

(f) On initial observation, observer thought it to be a balloon.

(g) No trail, exhaust or apparent source of propulsion. Observer discredits possibility of object being a balloon and being punctured upon contact with the earth, and trajectory upon ascent and departure from the area.

(h) No sound.

(i) None.

## (2) Description of course of object (s):

(a) Observer standing in door of building when he observed object.

(b) 45 degrees above the horizontal, descending in Southwesterly direction.

(c) Ascent near vertical, about 75 to 80 degrees above horizontal plane, then disappearing to the Southwest on a near horizontal plane.

(d) As indicated in par. (b) and (c) above.

(e) Very rapid and on a straight trajectory.

(f) Approximately 2 1/2 minutes.

## (3) Manner of observation:

(a) Ground visual.

(b) No visual aid.

(c) Not Applicable.
