SUMMARY (One paragraph summary of the report, including date, time, location, and description of the sighting) On 2 January 1955, Major [redacted] reported sighting an unidentified flying object in the vicinity of George Washington Boulevard and Henry Street in Wichita, Kansas. The sighting occurred on 28 December 1954. Object was also seen by her son.			

SOURCES

On 2 January 1955, Major [redacted] reported sighting an unidentified flying object in the vicinity of George Washington Boulevard and Henry Street in Wichita, Kansas. The sighting occurred on 28 December 1954. Object was also seen by her son.

Object was observed for approximately one (1) minute in good weather. Object was seen at dusk.

There was only one object. It had a light which apparently revolved around the object, giving it a round appearance. Its size compared to a nickel at arms length, made no sound, and had no tail, trails or exhaust.

Object flew slowly away from source, then ascended vertically at a high rate of speed, then returned toward source, then again change direction and disappeared.

Very little significance is attached, because observation was made six (6) days prior to reporting.

AIR INTELLIGENCE INFORMATION REPORT

1. Location of observation 222nd Combat Group Training Camp, Hays, McComb Air Base, Kansas	2. Report No. 1602-1708-55-55	3. Date 2	4. Page 1
---	---	---------------------	---------------------

1. Description of object.

- Shape: unknown, however, the light which revolved around object gave it a round appearance.
- Size: compared with a nickel at arm's length.
- Color: very dark.
- Number: one (1).
- Formation: N/A.
- Discernible features and details: negative.
- Trail, wake, and exhaust: negative.
- Sound: negative.
- Other features: object had a round light with a reddish glow which either revolved around the object, or the object itself was revolving.

2. Description of course of object.

- Source went to back door to close venetian blinds. She happened to glance out the window.
- Angle of elevation and azimuth at first observation: approximately 20 degrees elevation; azimuth, 225 degrees.
- Angle of elevation and azimuth at disappearance: approximately 30 degrees elevation; azimuth, 315 degrees.
- Flight path and maneuver: object appeared in the southwest. It moved away from source, toward the southwest slowly. Then it shot up vertically, moving at a very high rate of speed. After the ascent, object changed direction, heading now northeast. Object then came closest to source. Later, it again changed direction and headed northwest out of sight.
- Manner of disappearance: flew out of sight over rooftop.
- Duration of observation: approximately one (1) minute.

3. Manner of observation.

- Type: ground-visual.
- Optical aids used: none.
- Airborne sightings: N/A.

4. Time and date of sighting.

- Zulu time-date group: 232400Z.
- Light conditions: dark.

5. Location of observer: 37°40'N 97°17'W.

6. Identifying information of all observers.

- Name: [REDACTED] Age: 37; Mailing address: [REDACTED] Wichita, Kansas; Occupation: housewife.
- Name: [REDACTED] Age: 13; Mailing address: [REDACTED] Wichita, Kansas; Occupation: student.

AIR INTELLIGENCE INFORMATION REPORT

Intelligence Section
3520th Combat Crew Training Wing
McCormick AFB, Wichita, Kansas

1602-0000-55-55

PAGE 3 OF 3 PAGES

7. Weather conditions and winds aloft at time and place of sighting.

a. Observer's account of weather: partly cloudy with clear visibility.

b. Report from nearest weather detachment of wind direction and velocity in degrees and knots: at 1725 hrs CST, surface winds 135° at 23 knots with gusts to 33k; at 1500 hrs CST, 7,000 ft, 030° at 25k; 10,000 ft, 010° at 10k; 16,000 ft, 310° at 15k; 20,000 ft, 190° at 60k; 25,000 ft, 200° at 85k.

At 1828 hrs CST, surface winds 135° at 19 knots with gusts to 28k; at 2100 hrs CST, 7,000 ft, 020° at 15k; 10,000 ft, 010° at 15k; 16,000 ft, 000° at 15k; 20,000 ft, 030° at 20k; 25,000 ft, 020° at 10k.

c. Ceiling: at 2100 CST, 20,000 ft.

d. Visibility: at 1500 CST and 2100 CST, 15 miles.

e. Cloud cover: at 1800 CST, clear-sky.

f. Thunderstorm: negative.

8. Meteorological and astronomical activity: negative.

9. Identification action taken: Negative.

10. Location of any air traffic in area at time of sighting: at 1725 CST, a B-29 landed at McCormick AFB, at 1812 CST a C-46 landed at the same base.

11. Position title and comments of preparing officer: Acting Wing Intelligence Officer. Inasmuch as no unidentified object was sighted by the CCA unit at McCormick AFB or the GCI unit at Hutchinson IAS, and inasmuch as the Wichita Municipal Airport is located to the southwest of the observed position, the unidentified object sighted conceivably could have been an aircraft maneuvering to enter the Wichita Municipal Airport landing pattern.

12. Physical evidence: N/A.
