10. BRIEF SUMMARY OF SIGHTING

One (1), cigar and (or) egg shaped object, white, with a level flight path was observed for a period of ten (10) minutes over Steelton, Pa.

11. COMMENTS

Due to the time of sighting, the discription of the sighting (changing of shape), and the possibility of the object being a balloon, and the improbability of further investigation uncovering data of significant value, no further investigation authorized by this headquarters (4602d AISS).
