10. BRIEF SUMMARY OF SIGHTING  <u>One (1) bright red object with a luminous trail, appeared as a ball of fire. The object appeared to be as large as a nickel held at arms length. The object exploded in a cloud of smoke.</u>			11. COMMENTS  <u>Flight 1-C checked the time of sighting and duration of sighting, which differed from the original times on the UFOB report. From the time of sighting and the description of the sighting it appears that this UFOB and AISS-UFOB-210-55 are one in the same sighting. Flight path was approx the same. The fact that this object was seen by two parties at the distance apart they were indicates an astronomical UFOB. Evaluated by this hqs as Probably Astro.</u> <i>110700Z</i>
