TRIP 27 - OCTOBER 2, 1955

As Captain on Colonial's Trip 27 of the 2nd of October 1955, the following occurred.

At 1816 our position was approximately 5 miles NNE of the city of POW at 6000 ft. Ceiling and visibility were unlimited at the time. An extremely bright blue-white light resembling a meteor passed ahead of our port side and hovered approximately 10 to 15 seconds. This object then departed on a southeasterly heading at an extreme rate of speed and disappeared from sight. As it faded from sight, it appeared to gain altitude. Its speed and altitude were difficult to estimate.

I called security on 121.5 Mhz., but was unable to make contact. A verbal report was given to the military upon my arrival at EAT at 1845 through H. Y. Carter.

DATE 11/2/55

Was enroute LGA at 6000 ft on
Blue runway 18 at the afore mentioned
time, when out of the corner of my
eye noticed what appeared to
be a very bright meteor or shooting
star. As I called it to the attention
of my co-pilot it reduced its speed
to that of ours and paralleled our course,
for roughly 15 seconds. It then took
off in a southeasterly direction and
gained altitude at a seemingly
infinite speed finally disappearing from
sight, in approx another 15 sec.
time interval. - next page -

Although I'm not at all
certain what it was, I am
reasonably certain it was not a
star, jet or conventional aircraft
or an illusion. I tried unsuccessfully
to contact Air Defense radar
in hopes they might track this
object.
