7. LENGTH OF OBSERVATION (seen every clear night) unknown	8. NUMBER OF OBJECTS one	9. COURSE unknown
10. BRIEF SUMMARY OF SIGHTING One starlike object which seemed to rotate below the field of stars disappears by going over the horizon. The observer has reported this object before and claims to see it every clear night.	11. COMMENTS Concur with the opinion of the reporting officer that this sighting is astronomical in nature. The fact that the source sees this object every clear night and describes it as being starlike leads to above conclusion.
