SUBJECT: Evaluation of CINCPAC Unidentified Radar Tracks -
Taiwan Strait Area

1. Attached herewith for subsequent return to the Department of the Navy are two (2) cans of 35 mm negative-film reel, radar-scope photographs and plastic overlays on unidentified radar tracks observed in the Taiwan Strait area.

2. A detailed study of the aforementioned material indicates that the tracks in question are due to the presence of ground and sea targets (ship and sea clutter), and a great deal of interference from other radar equipment. No targets of the type considered as UFOs were indicated on the film. (UNCLD)

3. Subject material was received as a single-sealed package on 4 October 1956 under AF Form 316, Registry Control Nr. 3477, dated 24 September 1956. Delay in evaluation is due to time required to select and prepare prints from the large footage of film submitted. (UNCLD)

4. Reference item (3) of copy CINCPAC letter. One (1) copy each of the four radar-scope photographs were retained by this Center for its files. (UNCLD)
