3. DATE-TIME GROUP Local _____ GMT <u>28/0745Z</u>	4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar	
5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	6. SOURCE <u>Civilian</u>	
7. LENGTH OF OBSERVATION <u>3 and 1/4 hour</u>	8. NUMBER OF OBJECTS <u>one</u>	9. COURSE <u>ascending</u>
10. BRIEF SUMMARY OF SIGHTING One solid object with arm protruding at rear, white in color, red at one end. First seen at 90 dgrs fm observer, very low. Object appeared to ascend during the time of the sighting. Binoculars used.	11. COMMENTS There is no doubt that this sighting was caused by the planet Venus. This analyst observed the planet Venus at exactly the same time and on the same date. All points of this sighting fit the above hypothesis. No Report In File.

A. F. RADAR, PLANES FAIL IN HUNT FOR LIGHT IN SKY

CADILLAC, Mich., July 28.—(UPI)—"A brilliant white light" was reported in the sky near this Michigan resort town early today by tourists and police. Air Force radar and interceptors could find nothing.

The first report was received by Sgt. Willard Irwin of the Cadillac police from Willard Wood of Covert, Mich., who said the object was moving north toward Cadillac.

The object was seen east of Cadillac by Sgt. Irwin too, before he notified Ptl. John Langley and Merrill Taylor.

The patrolmen said they interviewed three Illinois tourists, Allan Howe of Sterling and his wife and mother about the light.

ACTION

~~Place in Case file~~ — case file (check to see what specific date we requested info)

Case 177, Cadillac, Mich., July 28, 1956—"A brilliant white light" was reported in the sky by tourists and police, but air force radar and interceptors could find nothing. According to the Detroit *Free Press*, the first report on the object was made by Willard Wood at 3:30 a.m. "At first I thought it was a plane so I stopped my car and got out hoping to hear the motors—but I didn't hear anything," said Wood. He said the light looked like a clear glass light bulb. He then went to the Cadillac Police station and reported it. Two officers, John Langley and Merrill Taylor, were sent out to look. Langley said the object approached and withdrew several times and as night faded and stars disappeared, it seemed to grow brighter. "Suddenly it faded right out in the matter of a few minutes," Langley said. Taylor said there was no doubt in his mind that it was not a star. Wood said that he saw occasional red flashes in the intense white light. He said the light approached as close as 300 feet from the ground. The object was also seen near Bad Axe, Mich., according to the port Huron *Times-Herald*. Three Detroit men driving into the "Thumb" area stopped at the State Police post and reported a "brilliant" object to Trooper Calvin Glassford. Said Glassford, "When I looked at it with the men, it was shining steadily although they told me that the light was on and off as they drove from Marlette to Bad Axe."

5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	6. SOURCE <u>Civilian and AF</u>	
7. LENGTH OF OBSERVATION <u>Three (3) hours</u>	8. NUMBER OF OBJECTS <u>One (1)</u>	9. COURSE <u>Ascending and erratic</u>
10. BRIEF SUMMARY OF SIGHTING One (1) object, described as being similar to a large light bulb, white in color with a colored exhaust. At times appeared to give off different colors. Ascended. Two (2) three second radar contacts by F-89.	11. COMMENTS Limited investigation of this sighting by this HQ and Flt 3-C. Conversation with pilot indicated that his contacts (radar) were not sharp and he was of the opinion that his contacts were not with the UFOB but with some other object such as a bird, cloud, target on the horizon or "one of a thousand other things." The pilot saw no object although he made three passes, each at a different altitude. The high velocity of the winds in the area made it impossible for a balloon to be observed for three hours. It is the opinion of this	

Headquarters and the investigating flight that this sighting was definitely caused by the planet Venus.
