Colorado Springs, Colorado

1. The following report is forwarded in compliance with AFR 200-2, dated 12 Aug 54.

a. Description:

- (1) Shape - Round
- (2) Size - Size of a baseball
- (3) Color - White
- (4) Number - One
- (5) Formation - N/A
- (6) Features or details - N/A
- (7) Tail - Blue, in relation to size of object it was about a yard long.
- (8) Sound - None
- (9) Other pertinent features - At the time of disappearance object exploded noiselessly and disintegrated.

2. Description of Course:

- a. Attention was called to object by the brightness and motion of the object.
- b. Object went directly overhead on a heading of approximately 320°.
- c. It disintegrated at an azimuth of 300° from the position of the observer. Elevation remained constant.
- d. Flight path was straight.
- e. Object disintegrated.
- f. Object was in sight for approximately five (5) seconds.

3. Manner of Observation:

- a. Ground visual.
- b. No optical aids were used.
- c. N/A

4. Time and Date of Sighting:

- 0430-8=2030
- a. 0430 plus or minus 15 minutes, 2 August 1957.
 - b. Light condition - night.

21 AUG 1957

SUBJECT: Unidentified Flying Object

TO: Commander
Air Defense Command
ATTN: Director of Intelligence
Ent Air Force Base
Colorado Springs, Colorado

1. Under the provisions of AFR 200-2, an Unidentified Flying Object Report is hereby submitted.

2. Due to the unavailability of AF Form 112, Air Intelligence Information Report, the required information is outlined as specified in the regulation cited above.

a. Description of the object.

- (1) Shape - Oval.
- (2) Size - In appearance object resembled landing light used on multi-engine aircraft.
- (3) Color - When initially sighted object glowed a brilliant white with a yellow fringe around it. As it proceeded in flight the nose or forward section of the object glowed a bluish and then a greenish color.
- (4) Number - 1.
- (5) Formation - N/A.
- (6) Discernable details - Object appeared to send out star shells similiar to the vary pistol type.
- (7) Exhaust trail - Just prior to its disappearance a reddish exhaust cone trailed the object.

KDO, 408TH FIGHTER GROUP (AIR DEFENSE), Subj: Unidentified Flying Object.

(8) Sound - No sound was heard until 3 to 5 minutes after the object disappeared. At that time a shock wave from an explosion was heard (apparently earthbound). Sound volume was light and could not have been heard in a spot where there was more activity such as heavy traffic on a highway.

(9) None.

b. Description of course of object.

(1) The observers were initially attracted by the brilliant white light of the object.

(2) Angle of elevation - 30 degrees. Object's heading - 320 degrees.

(3) Same as b. (2) above.

(4) Object's flight path reported as straight with no defined maneuvers.

(5) Object disappeared after the 3 star shells (noted above) appeared approximately 6 seconds after it was sighted.

(6) Six seconds.

c. Manner of observation.

(1) Ground visual.

(2) No optical aids used.

(3) N/A

d. Time and date of sighting.

(1) 0535Z 2 August 1957. 05-35-8 = 2/35-

(2) Night.

KDO, 408TH FIGHTER GROUP (AIR DEFENSE), Subj: Unidentified Flying Object.

e. Location of observers.

(1) 41 degrees 30 minutes North
122 degrees 20 minutes West.

(2) 42 degrees 30 minutes North
120 degrees 10 minutes West.

f. Identifying information of all observers.

(1) Mr. [REDACTED], Mt Shasta, California.

(2) [REDACTED], Greenville,
California.

(3) [REDACTED], Quincy, California.

(4) Mr. & Mrs. [REDACTED] Director of
Agriculture, Plumas County, California.

g. Weather conditions.

(1) Clear with visibility unlimited.

h. Condition may be meteorological.

i. N/A

j. No report or knowledge of air traffic in the
area at time of sighting.

k. Object believed to be meteorite by reporting
organization.

l. No physical evidence such as materials and
photographs available.

Wright- Patterson Air Force Base, Ohio

RJH
Due to the fact the observers
were apparently separated by
over 100 miles, ~~there~~ with some
of the highest mountains in US
between them, the object must
have been at an extremely high
altitude. The description is
typical of a meteorite

ASTCO

OFFICIAL

CM19. METEOR

SAN FRANCISCO, AUG. 2--(INS)--A BRILLIANT GREEN METEOR FLASHED THROUGH WESTERN SKIES AT ABOUT 9:30 O'CLOCK LAST NIGHT, BRINGING SCORES OF CALLS TO POLICE AND NEWS MEDIA SWITCHBOARDS. MANY OBSERVERS THOUGHT IT WAS A CRASHING PLANE.

THE PHENOMENON, MOVING IN A GENERALLY EAST TO WEST DIRECTION, WAS REPORTED SEEN FROM SUCH DISTANT POINTS AS LOS ANGELES, PORTLAND, ORE., AND SALT LAKE CITY.

THE CAA SAID THE OBJECT WAS SIGHTED BY AIRLINE PILOTS THROUGHOUT THE WESTERN STATES. ONE COAST GUARD PILOT REPORTED SEEING IT LOW ON THE HORIZON FROM 100 MILES OUT TO SEA.

IT WAS BELIEVED THE METEOR, DESCRIBED VARIOUSLY AS GREEN, BLUE, PHOSPHORESCENT AND YELLOW -- BUT PREDOMINANTLY GREEN -- DISINTEGRATED IN AN EXPLOSION SOMEWHERE IN THE VICINITY OF YREKA AND MONTAGUE IN FAR NORTHERN CALIFORNIA.

RESIDENTS IN BOTH TOWNS REPORTED EXPLOSION-LIKE SOUNDS AFTER THE OBJECT STREAKED OVERHEAD.

IN THE SAN FRANCISCO BAY AREA, THE COAST GUARD DISPATCHED A HELICOPTER TO SEARCH THE BAY NEAR THE SAN MATEO BRIDGE FOLLOWING REPORTS A PLANE HAD CRASHED INTO THE WATER. NO WRECKAGE WAS FOUND.

ONE WITNESS SAID THE METEOR APPEARED TO BE SHOWERING YELLOW PARTICLES INTO THE BAY AS IT PASSED OVER. ALL AGREED IT WAS AN UNUSUALLY LARGE AND BRILLIANT DISPLAY.

SCIENTIFIC SOURCES SAID HEAVY METEOR SHOWERS MAY BE EXPECTED IN EARLY AUGUST IN CONNECTION WITH THE ANNUAL PERSEID PHENOMENA THAT REACH A PEAK AROUND AUGUST 11.

It's an interesting coincidence that an even more spectacular fireball was seen on the West Coast exactly four hours later, at 9:30 PDT. Although one saucer investigator has written up the West Coast fireball as a bona-fide UFO case, we may thank Coral Lorenzen for giving readers a more critical appraisal. (See the APRO Bulletin, September, 1957. The APRO account is well worth studying, as a typical example of the extraordinary contradictions always found in eyewitness descriptions of a fireball.) We earnestly wish that more UFO researchers would be less incautious in their interpretation of fireball reports. Fireballs and large meteors nowadays are very frequently reported as UFOs, and it's up to us investigators to catch such errors and keep them out of the authentic-sighting category. If we don't, we are making a mistake--in reverse--like that of the Air Force consultants who explain away genuine UFO reports as "meteors."

OBSERVED IN WEST

Bluish-Green Object Explodes in Sky

SAN FRANCISCO (AP) -- From a meteor. It was seen about 9:30 drop straight to earth. southern California to Portland, p.m. Telephone calls swamped newspapers and radio stations from the Columbia River to south of the Tehachapis and east to the Great Salt Lake.

Ore., from Salt Lake City to the coast. Western skies last night glowed to the light of a hurtling object or objects.

The main one -- if there was more than one -- appeared to disintegrate over Yreka, Calif., near the Oregon border. It made an explosion heard all over Siskiyou County.

Most observers thought it was

Traveling North In Eureka, Calif., 250 miles north of here, amateur astronomer William Abbey said the brilliant bluish-green object was traveling north when it disintegrated in the northeast section of the sky. That would place it near Yreka, 50 miles in that direction.

Abbey said the object was trailing fragments from its red and yellow tail which dropped straight down. Other reports agreed that pieces appeared to fall off and
