10. BRIEF SUMMARY OF SIGHTING Silver object, shape of isosceles triangle, base approx 1/2 to 1/3 as long as legs of triangle. Could be covered by golf ball held at arms' length. Small vapor trail. Attn drawn by its high speed, which source described as twice as fast as F-100 series a/c.		11. COMMENTS Probably a/c with illusion of greater speed due to effects of trying to observe fast moving objects through a sky half covered with clouds and early morning sun's slant rays intercess playing between a/c and clouds.

SUBJECT: UFOR Report

TO: Commander
Air Defense Command
Ent Air Force Base, Colorado

Following report compiled in accordance with AFR 200-2, paragraph 7.d.

(1) Description of the object

(a) Isosceles triangle, base of triangle approximately 1/2 to 1/3 as long as legs of triangle.

(b) Object could be covered by a golf ball held at arms length from the observer.

(c) Silver

(d) One

(e) Not applicable

(f) None

(g) Small amount of visible vapor from tail of object.
Vapor visible against sunlit clouds.

(h) None

(i) None

(2) Description of course of object

(a) Observer's attention attracted to object due to high speed of flight which observer describes as twice as fast as F-100C aircraft.

(b) Object first sighted southeast of observer 75° - 80° at an estimated altitude of four to five thousand feet.

(c) Same as "b".

(d) Object pursued a southeasterly course straight and level for three seconds, began to climb 85° to 90° and at the same time bank

Looking down
into the Sun
(See Sun's position at
the time)

Typical aircraft movements and maneuvers.

G, Hq 450th Ftr Day Wg, 14 Aug 57, Subj: UFOB Report

to the left so that the object's underside were presented to observer. Object continued climbing and disappeared in clouds.

(e) See "(d)" above

(f) Four or five seconds ←

(3) Manner of observation:

(a) Ground - visual

(b) None

(c) Not applicable

(4) Time and date of sighting:

(a) 12 1627~~Z~~ August 1957

1627 - 8 = 8:27 AM

(b) Day ✓

(5) Locations of observer: FHJP 6156

See a/c chart # 969.
Area has considerable
a/c activity!

(6) Identifying information of all observer

(a) Mr. ██████████ estimate 35 years, ██████████ Employee of Southern Pacific Railway Company. Observer has four years active service with the Air Force as an administrative officer. ← Not considered to make him a qualified observer of aerial phenomena. Many of these

(7) Weather and winds-aleft conditions at time and place of sighting:

(a) Numerous bright cumulus clouds

(b) Report by Foster Air Force Base Weather Office of winds aleft -

Surface SE at 8 kts
6,000 ft 190° at 15 kts
10,000 ft 111° at 12 kts
16,000 ft 160° at 3 kts
20,000 ft 180° at 10 kts
30,000 ft 320° at 4 kts
50,000 ft 080° at 17 kts
80,000 ft 080° at 21 kts

(c) 4,000 feet and scattered

G, Hq 450th Ftr Day Wg, 14 Aug 57, Subj: UFOR Report

(d) 13 miles

(e) 5/10 cumulus ~~4-5 miles~~

(f) Buildup in all quadrants

Shallow cloud
with cloud-to-Earth
lightning

(8) Any other unusual activity or condition, meteorological, astronomical, or otherwise, which might account for the sighting:
None.

(9) Interception or identification action taken: 818th AC&W Squadron at Foster Air Force Base, Texas reports negative traffic, of characteristics mentioned in this report, in area at time of sighting of object.

CLUE F-100c

(10) Location of ~~any~~ air traffic in the area at time of sighting: Unknown number of F-100C aircraft in area at time of sighting. No pilot reports of ~~unusual~~ air activity received by this organization.

(11) Position title and comments of the preparing officer, including his preliminary analysis of the possible cause of the sighting:

*Apparent
the wing shape
of it is
the same
as
F-102
as
well*
Object possibly F-102 aircraft as wing planform shape approximates that of the F-102. High rate of speed as reported by observer possibly due to low altitude of object. Tight turn and rapid rate of climb appear superior characteristics to any known USAF operational aircraft.

Preparing officer holds position of Wing Intelligence Officer of this organization.

(12) Existence of physical evidence, such as materials and photographs: None.
