

PROJECT 10073 RECORD CARD

1. DATE 27 August 1957	2. LOCATION Area Dry Tortugas, Florida		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft
3. DATE-TIME GROUP Local _____ GMT 27/2045Z	4. TYPE OF OBSERVATION ☐ Ground-Visual ☒ Ground-Radar ☒ Air-Visual ☐ Air-Intercept Radar		☒ Was Astronomical Venus ☐ Probably Astronomical ☐ Possibly Astronomical Combination Astro ☐ Other & Spurious Radar ☐ Insufficient Data for Evaluation ☐ Unknown blips.
5. PHOTOS ☐ Yes ☒ No	6. SOURCE Military		
7. LENGTH OF OBSERVATION 2 minutes	8. NUMBER OF OBJECTS one	9. COURSE not given	
10. BRIEF SUMMARY OF SIGHTING Object with bright red to reddish yellow pulsating light, speed approximately 950 sknots. Altitude estimated at 20,000 feet. Observed visually and by radar. Intercept attempt unsuccessful due to speed of object. SMC		11. COMMENTS Astro chart shows Venus, Arcturus and a lighthouse all in approx flight path line of observing a/c. Conclude UFO was caused by a coinciding combination of astro objs together with random radar signals appearing at the moment.

FLYOBRT X REFER MY DISPATCH 280545Z OF AUG 57 X SUBSEQUENT OBSERVATIONS
ESTABLISH VISUAL OBJECT AS PLANET VENUS X RADAR SIGNALS ARE UNEXPLAINED,
HOWEVER TWO SUBSEQUENT INSTANCES INDICATE POSSIBILITY OF RANDOM SIGNALS
BEING RECEIVED BY APG-51A RADAR WHEN POINTED TOWARD VENUS X

→ i.e.

K. H. STEFAN
By direction

Since the original UFO sighting.

Copy to:
DIO, Navy Department, Washington 25, D. C.
COMEASTSEAFRON
COMNAVAIRLANT
COMFAIRJAX
COMNAVBASE, KWEST

Comment:

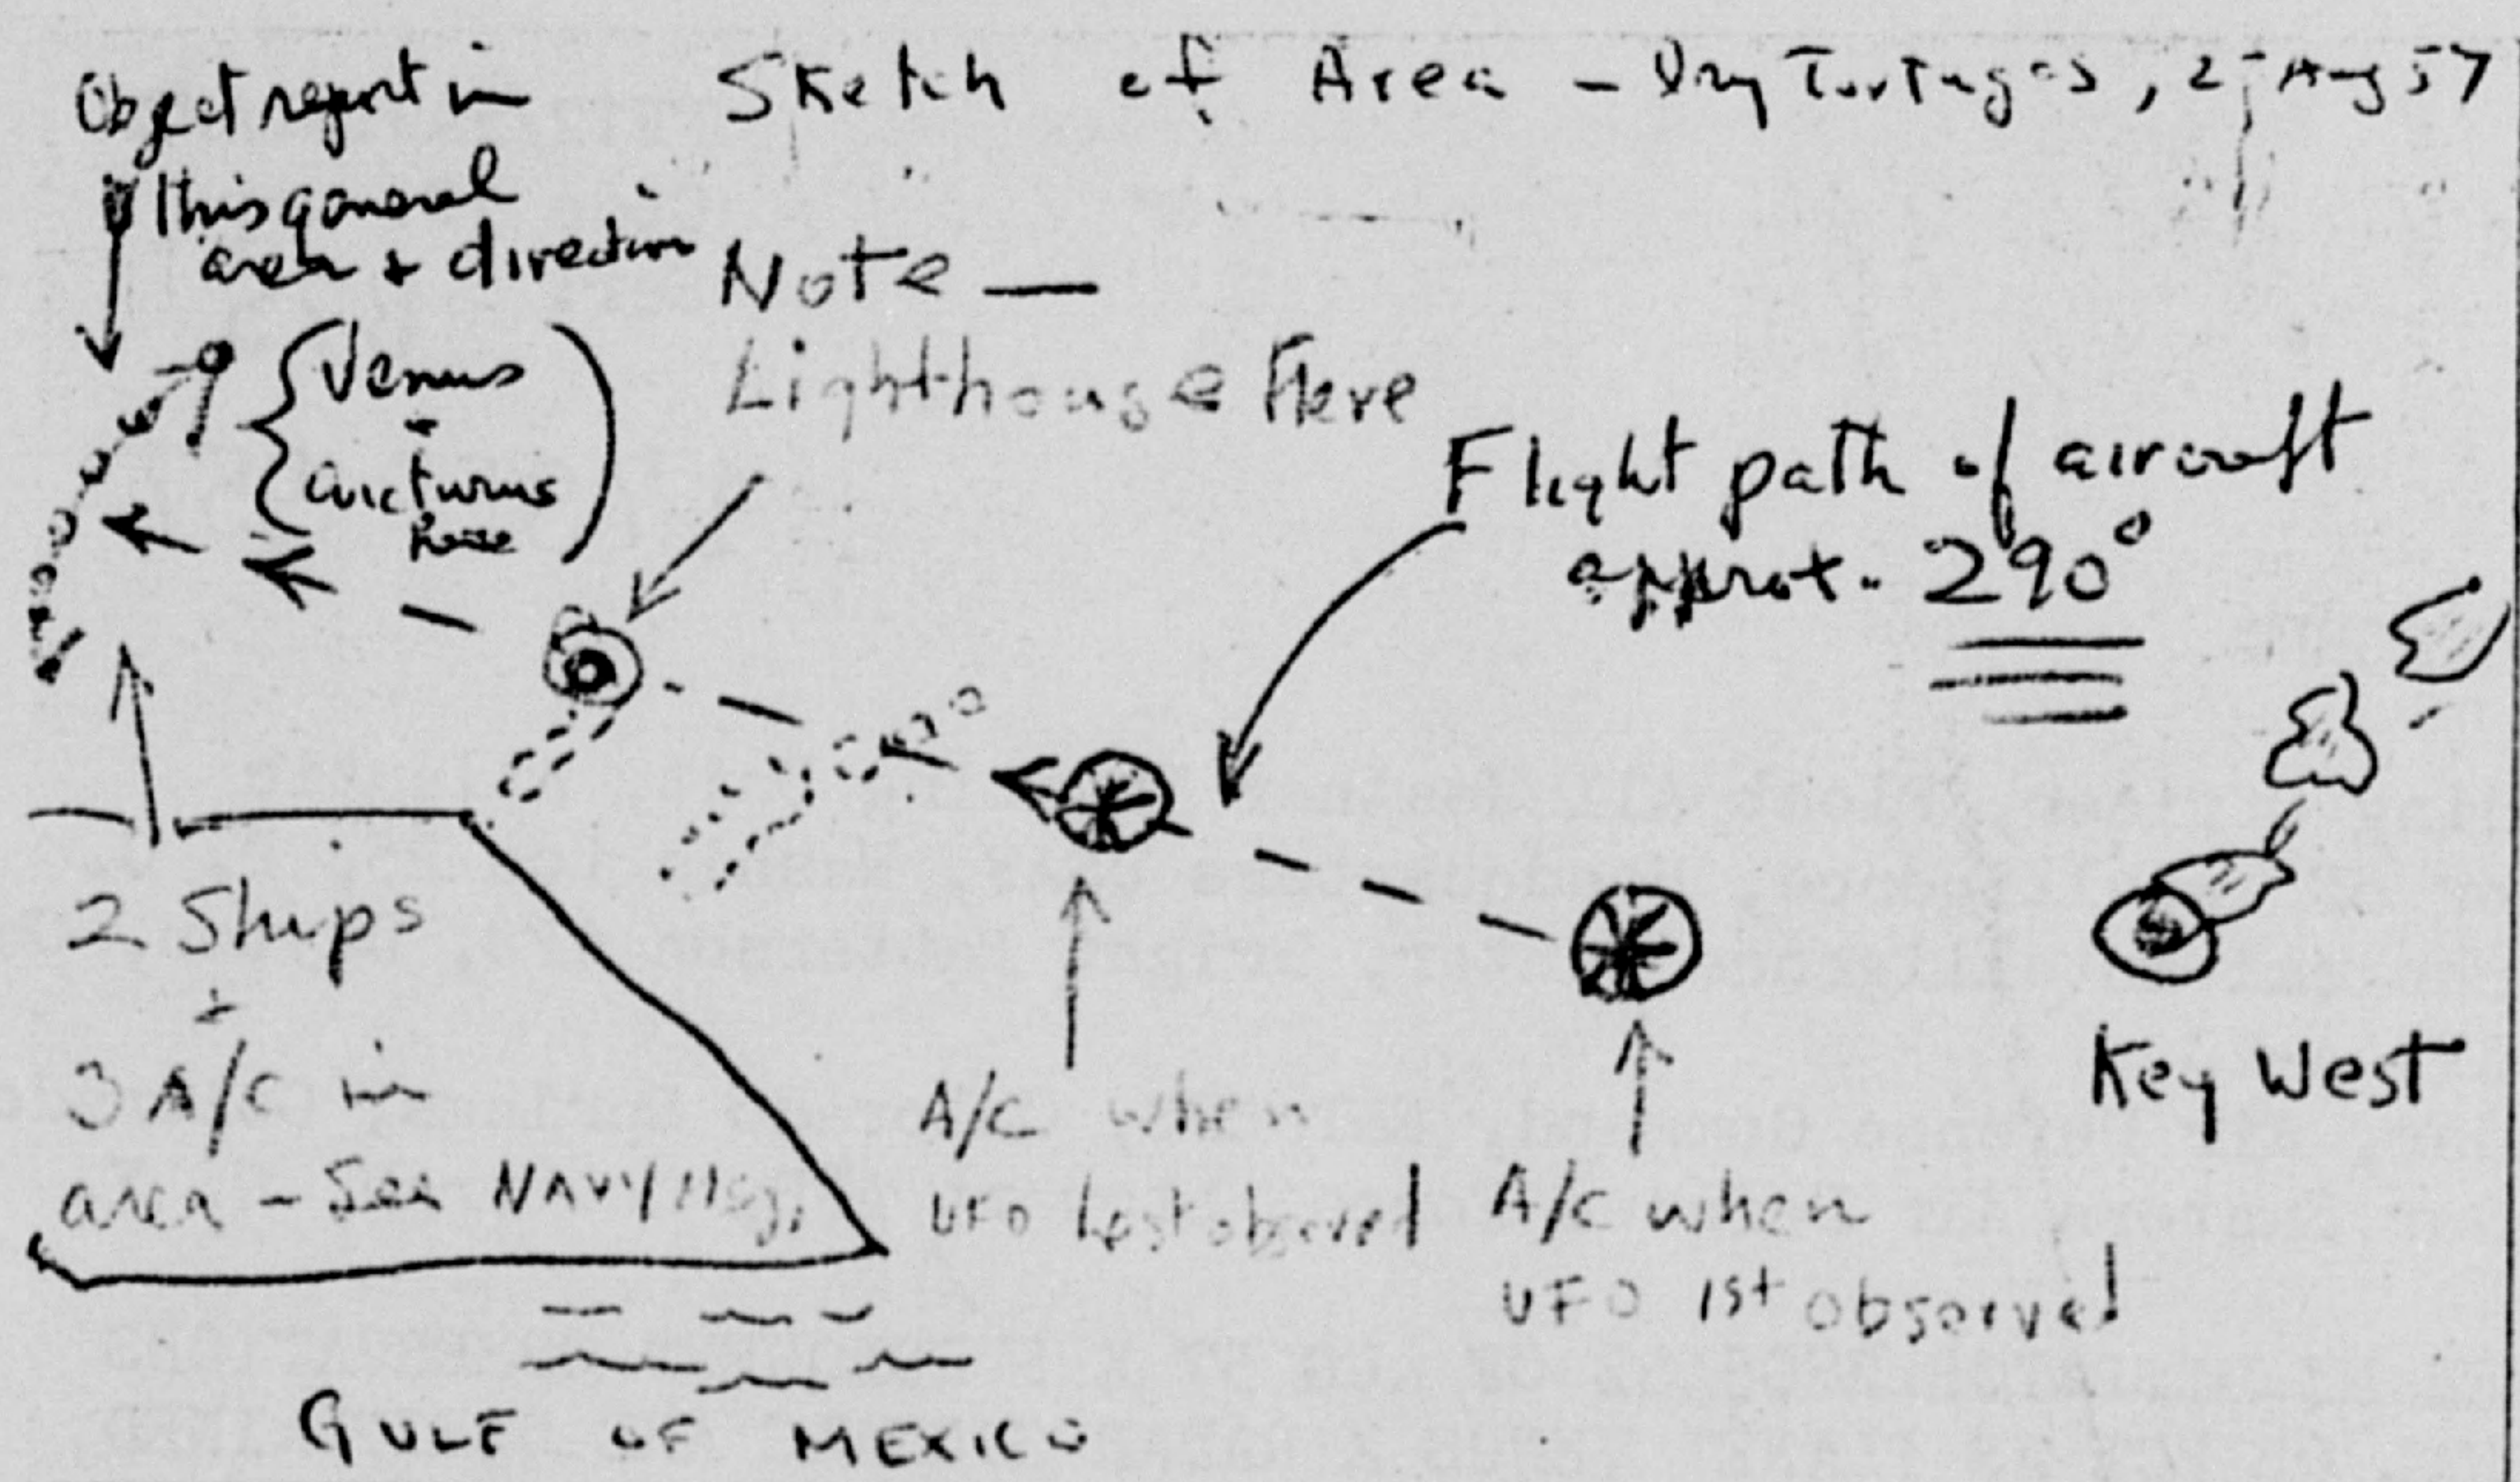

Astro plot shows venus, arcturus
and lighthouse all in approximate
flight path line of observing aircraft at
that times of observation.

On the basis of the above msg.

Conclude UFO was caused by a
coinciding combination of astronomical
objects together with random radar
signals that appeared at that moment.

DRY TORTUGAS, FLA. 27 AUG 57

Analyst's Comments:

1. A review of the current Aero Chart #525, (Lake Okechobee Area), Georef Quadrant HK, indicates that the aircraft observing the UFO was heading almost directly towards the lighthouse in the Dry Tortugas. (Plot coordinates of aircraft position given in UFO report).
2. It has been proven before, that the rotating beams of these installations can create some weird and unusual moving shapes, particularly at night, and if impinging upon lower cloud layers. Lighthouse beams can also reflect off adjacent cloud banks.

However, as reporting officers contend that the above was taken into consideration, and (in the opinion of those investigating the possibility that the lighthouse was responsible for the sighting) and not have caused the phenomena; ~~the~~ official requests for info. and investigations to CAA, CNI, Eglin AFB and Patrick AFB H. 10

4. Note: An astro plot indicates that the heading of the reporting aircraft (C/W) was almost in direct line with the very bright star, ARCTURUS, very much more likely than any other star in the area. Very likely that the reporting aircraft was heading in the direction of the star.

Center have produced negative results; and
careful check of balloon launchings in area show it
extremely unlikely object was balloon — must conclude
object "UNKNOWN" pending receipt of any later
data.
