		9. COURSE west			
10. BRIEF SUMMARY OF SIGHTING Round object, size of apple at arm's length, white with red edge; the red would fade and brighten at intervals.				11. COMMENTS Map plot shows that balloon was released at 2100 at WX station and would arrive in vicinity at approximately time given with winds coinciding exactly with position of obj. Also possible a/c or astro sighting since position was in west. Astro body setting would give same effect. Data inconclusive for analysis.
