INSUFF DATA

Comment: *
a. Its somewhat surprising that someone who claims to have observed a slow moving object for almost 10 minutes — can not give even a general statement as to the objects size, shape, other features, details, appearance, etc. particularly a source if such caliber as a one-president of "well-known" reporting program!

b. Nothing here except a white something was observed moving slowly from the SW, overhead, & the Northeast. Could fit the description of a plane, balloon, Canadian goose, anything.

c. Surprising, that although the UFO passed over a small city the size of Elmont, no one else reported it.

d. Check reveals no reports of anything unusual from radar, pilots, or GCA units, or pilots & civil flights in that area.
