10. BRIEF SUMMARY OF SIGHTING

Rnd, whitish obj, size of pea, similar to star in appearance. Silver area behind obj varied from greenish to whitish color. Obsvation for 30 mins through binoculars, observed for 5 days. Obj moved at random. Disappeared by fading.

11. COMMENTS

Sources statements are inconsistent & confusing. However, since obsvation made for 5 consecutive days & location 3/4 mi E of Lockheed Air Terminal at about the same time a balloon sighting is indicated. Balloons released normally 0500Z fm this location.

(11) ERIC D. MAYER, 2 LT USAF, SOFFICER OF THE DAY. A WEATHER BALLOON WAS RELEASED FROM SANTA MONICA AIRPORT AT 0505 ZULU TIME, BUT IT MOVED AWAY IN A WESTERLY DIRECTION AWAY FROM BURBANK.

observers state the object had a flight path of, "WEST TO heading OF 120° SE. THEN TURNED SOUTH TO 180° hdg. THEN TURNED AGAIN TO North hdg. DISAPPEARING OVERHEAD.". This ~~is an incorrect~~ inconsistent statement. Observer first sighted object in the SE on a 120° heading. All this is very confusing.

Other, although this UFO suggests an astronomical sighting, because of the actual small size of the object, and the fact that it was seen for five day straight with no other report on the sighting. Sources statements are inconsistent
