10. BRIEF SUMMARY OF SIGHTING <p>Rpt of obj viewed about ten days prior to rpt. Described as a plane or something without wings, delta shaped. Like ordinary electric light in brightness. Slow flight. No wings.</p>		11. COMMENTS <p>Delta wing configuration a/c in climb gives the appearance as described. Witness indicated that the obj was a plane or something & the fact that it had no wings & appeared to fly slower than jets caused him to make a rpt ten days after the sighting.</p>

Sept. 8th 1958

War Department
Washington, D. C.

Gentlemen:

About ten days ago I was sitting on the roof about 8PM; I happened to look up and toward the South by West, there was a plane or something never saw the like before. It was a triangle precisely like an Isosceles triangle; the base some less than sides; it was up perhaps 3 or 4 miles and not going very fast. The sides were all illuminated quite bright; not white light but like ordinary color electric light. Nobody seems have seen it and no mention made. Here where I live all the plane from South and west go over this place hundreds every day.

The sky was not very clear as seldom is here any more unless high west wind. But I watched it 5 or 6 minutes and had sky been clear might have followed it 10 minutes or more. Never saw anything like this before and it was a wonder. Has anyone in Wash knowledge of such a thing. It has no wings at all. My eyesight very good and no mistake about what I saw. Astonishing thing; no wings. It was no jet as flying too slow for any jet.

Very truly,

Brooklyn, 15, N. Y.
