FIERY OBJECT LIGHTS SKY OVER MICHIGAN

24 Feb 58 D. Daily News

EAST LANSING, Mich., Feb. 24—(P)—A flaming bluish green object streaked over Michigan about 6:30 a.m. today.

State troopers in both lower and upper Michigan sighted it traveling from east to west. Radio stations had calls from excited citizens who also saw the object.

Two operators in the control tower of the Grand Rapids airport in western Michigan said they believed it was a meteorite. The operators, John Moore and Robert Boylan, said the object also was sighted at airport control towers in Chicago and Madison, Wis.

"It was a dandy," Moore and Boylan agreed. "The best meteorite we ever saw. It must have been a good-sized one because it looked like it was just northwest of Grand Rapids going from east to west. It was shooting off sparks before it appeared to disintegrate."

The sky was clear just before dawn and observers got a good look at the object.

Radio station WHGR in Houghton Lake in north central lower Michigan received a call from a man at nearby Roscommon who said, "It scared hell out of me."

FIERY OBJECT LIGHTS SKY OVER MICHIGAN

DAYTON Daily News 24 Feb 58

EAST LANSING, Mich., Feb. 24—(P)—A flaming bluish green object streaked over Michigan about 6:30 a.m. today.

State troopers in both lower and upper Michigan sighted it traveling from east to west. Radio stations had calls from excited citizens who also saw the object.

Two operators in the control tower of the Grand Rapids airport in western Michigan said they believed it was a meteorite. The operators, John Moore and Robert Boylan, said the object also was sighted at airport control towers in Chicago and Madison, Wis.

"It was a dandy," Moore and Boylan agreed. "The best meteorite we ever saw. It must have been a good-sized one because it looked like it was just northwest of Grand Rapids going from east to west. It was shooting off sparks before it appeared to disintegrate."
