| 10. BRIEF SUMMARY OF SIGHTING One to five objs sighted fm time to time during a 25 min period. Obs ronnd & same size & brilliance as stars. One hovered at 15,000ft & then made a 70° dive to 5,000 ft & hovered. All objs would fade & grow in magnitude, travel East & West & back, make sharp changes in direction & speed up to several thousands of mph. No sound or tail. | | 11. COMMENTS No weather inversion check. Very unreliable rpt. Observer able to estimate alts, speeds, magnitudes, & other factors of objs described as star size yet did not state how far the objs moved when, & if, they moved. Case classed as insufficient data rather than unreliable rpt. |
