SPECIAL AND IMPORTANT INFORMATION

GENERAL LYMAN L.LEMNITZER
CHIEF OF STAFF
DEPT. OF THE ARMY
U.S.ARMY HDQTRS,
PENTAGON BLDG.
WASHINGTON
D.C.

SIR:

INFORMATION RECEIVED VIA SURETTE NATIONAL PARIS ,FRANCE TO QUEENS MESSENGER SERVICE ,LONDON ENGLAND FROM ROYAL CANADIAN MOUNTED POLICE AS FOLLOWS:

SPACE MACHINE REPORTED CRSHED IN THE INTERRIOR OF BRITISH COLUMBIA IN VICINITY OF FRASER RIVER NEAR AGGASSIS, BRITISH COLUMBIA INTHE CANADIAN NORTH WEST , ADJACENT TO YKON TERRITORY CANADA.

ATHABASCA INDIANS REPORT THAT THE OBJECT IS ABOUT 200 YARDS IN DIAMETER, ESTIMATED WEIGHT OF ONE THOUSAND TONS, (1000) TONS .

OBJECT STRUCK A LAKE FROM TRAJECTORY OF ABOUT 30 DEGREES APPARENTLY SLID ACROSS LAKE AT HIGH VELOCITY, THEN ROSE IN AIR TO STRIKE INTO FRASER RIVER, THEN OBJECT SLID INTO A HEAVY GROUTH OF TREES, N.W. OF AGGASSIS, BR.COL.

OBJECT REPORTED TO BE NOT VISUAL FROM AIR . IT IS CONCEALED BY GROUTH OF HEAVY WOODS IN THE INTERRIOR OF THE CANADIANRAIN FORREST. OBJECT REPORTED SEEN BY ATHABASCA INDIANS, AND MEMBERS OF CHILKOOT INDIAN TRIBES ADJACENT OF YUKON AND BR. COL. SENT DATA TO CANADIAN ROYAL MOUNTED POLICE FORCE TO AGENTS TO EUROPE , DATA RECEIVED HERE RECENTLY. IN VIEW OF THE MYSTERIOUS OBJECTS SEEN IN THE ATMOSPERE OVER ALASKA ON DATE OF FEBR. 15, I(A) (M) on 1960 it may be one of these objects.?????

OBJECT REPORTED TO BE CIRCULAR , MADE OF A METAL APPEARANCE OF STAINLESS STEEL. INDIANS REPORT THAT THE OBJECT EMITS SOME SORT OF RAY OR RADIATION RAY, POSSIBLY A MAGNETIC RAY BEAM MOTOR.

PERHAPS OBJECT CAN BE LOCATED BY USE OF SCINTELLATOR OR GIEGER COUNTER DEVICE FROMLOW -FLYING PLANE. SUGGEST THAT THE UNITED STATES MILITARY INTELLIGENCE INVESTIGATE .

IF SUCH A TYPE OF OBJECT AS AN INTERPLANATORY SPACE MACHINE STRUCK IN THE AREA , IT CAN READILY BE SEEN THAT SUCH AN OBJECT IS OF THE GREATEST VALUE AS A MILITARY DEFENCE UNIT.

INDIANSALSO REPORT THAT SOME STRANGE APPEARING PERSONS NEAR SPACE MACHINE. WOULD IT NOT BE ADVICEABLE FOR THE UNITED STATES PARATROOPERS TO INVESTIGATE WITH AID OF THE CANADIAN ARMY?

SINCERELY YOURS,

[redacted]

UFO Investigation (British Columbia)

~~11C~~ 7th USAF FAG (HEDCOM)
~~Ft~~ Belvoir,
~~Virg~~inia

1. Reference letter from [redacted], Havas News Agency, Paris, France to General Lyman L. Lemnitzer, Chief of Staff, U. S. Army (attachment nr 1).

2. Mr. [redacted] states in his letter that it was reported to the Havas News Agency that a space machine crashed in British Columbia in the vicinity of Fraser River near Aggasai. The object was reported to be approximately 200 yards in diameter and estimated to weigh 1,000 tons. Prior to coming to rest in a densely wooded area, the object was reported to have struck a lake from a trajectory of about 30 degrees, slid across the lake at a high velocity, rose again into the air, skipped again on the Fraser River, then slid to its final resting place. The object is reported not visible from the air due to heavy woods. The witnesses, Athabaska and Chilkoot Indians, further describe the object as circular, made of a metal which looks like stainless steel and emitting some type of radiation.

3. Mr. [redacted] states this information was from the Royal Mounted Police and that the Havas News Agency received it via Surrette National, Paris, France and Queens Messenger Service, London, England.

4. An unidentified flying object sighted on 14 Feb 60 from Nome and Unalakeet, Alaska has received an unusual amount of congressional and public interest. Mr. [redacted] indicates possible connection of the object on 14 Feb 60 and the object supposedly on the ground in British Columbia. It is understandable that for this reason and our primary responsibility to intelligence that an investigation must be conducted to determine if this object exists and if so, its identity.

Whitwood
13 Mar

5. Request that an investigation be conducted through the United States Air Attache to Canada to determine the following:

a. Has a report of this alleged object reached the Canadian Government?

b. If such a report was made:

OFFICE OF RECORD

(1) Are the identities of the witnesses known?

(2) Has an official investigation been conducted?

(3) Was the object located?

(4) Was the report originated by the Royal Mounted Police?

c. If the object was located, what was its specific position (coordinates).

d. What was the direction from which the object came?

e. If the object was identified, what were the conclusions of the investigators?

f. What are the dimensions and other descriptions of the object?

g. Is the Canadian Government aware of any occurrence which could explain the report?

6. There are a number of factors which tend to discredit this report. The envelope is postmarked Davenport, Iowa (attachment nr 2), and not Paris, France. The weight and size of the object must be assumed exaggerated. An object 600 feet across and with a weight of 2,000,000 pounds would have ripped a swath through woods that could easily be seen from the air; and an object two football fields in diameter would not be hidden by trees. The report states that the Indian witnesses said that the object was giving off some type of radiation. No particulars about the individual witnesses was provided ATIC, but the Encyclopedia Britanica 1959 states that the Athabaska Indian tribes are a backward people.

7. All indications are that this report is a hoax, but an investigation must be conducted to remove even the slightest doubt of it being true.

WASHINGTON, D.C.

SINS:

Athabasca Indian Scouts report large flying object crashed in the western Canadian wilderness of the ROYAL FOREST of British Columbia Province. The object reported CIRCULAR or Flying Saucer shape, Indians report object is about 200 yards diameter, about estimat height of 1000 low top height. The strange spaceship reported by Chilkoot and Athabascan Indians appeared from direction of Alaska travelling at height of 50 miles then the object descended on a slide into a lake near the Canadian settlement of Argenta, British Columbia. In view of several reports by U.S. Radar scope in Alaska of objects in stratosphere stratasphere, would it not be advisable to investigate location of space object in the Canadian wilderness area?

The Athabasca (British Columbia Tribes, report that object is some kind of under heavy growth of timber in British Columbia.

Apparently the object struck the lake area in British Columbia on a large body of water, skidded across lake (lake Fraser?, into air and then hit Fraser River area on Fraser River, Canada in the Interrior of the

ROYAL FOREST AREA
BRITISH COLUMBIA PROVINCE
VICINITY: CHILCOOT AND ATHABASCA INDIAN ACCASSIN, BR. COL.

Object reported to emitt a sort of ray or radiation or glow at night. Indians fear to approach object which is on a plateau or elevated area of British Columbia northwest of Fraser River along river shore about several miles in timber,.

Space object struck into timber, went under timber onto top of plateau, the object skidded uphill at high velocity into a heavy growth of timber.

Perhaps the strange rocket ? satellite ? Space Ship? or Missile could be located by Scintellometer instruments from Low Flying airplane-the object is not visable from air Also Indians report some strange appearing herrons in the area northwest of Argenta, British Columbia. Is it possible that secret satellite crashed there? The information here in contained is transmitted via relay mail system from interrior of British Columbia.

In view of the Space development program would not such an object be of value to Space Program of Allied Nations-U.S.A. Canada, Etc.? Could it not be advisable to send low flying plane to try to pick up radiation ray count? also in Spring would it not be advisable to try to locate object on foot reconnaissance? Object is in CANADIAN Alpha Tactical Charts, BRITISH COLUMBIA sealed in heavy growth of timber.

Sincerely yours,

[redacted]

INTERIOR-HASKELL PRESS. 8-59-286-1200

Information via Brantford, Ontario, Canada-Six Nations Tribes and Athabasca -Chilkoot Tribes -Rain Forrest area -British Columbia.

Febr. 1960

Indian Dept.
U.S.Bureau of the Interrior
Washington D.C.

Sirs:

Please be adviced that a group of Canadian Indians request investigation of a mysterious rocket device now in the interior of the Rain Forrest in western Canada in area known as the RAIN FORREST OF BRITISH COLUMBIA, CANADA.

The Athabasca Indians report that a large device or some sort of a Space shop (Rocket?) has been reported by Athabasca Indian Scouts in British Columbia , object Crashed in the interrior of Canadian Province of British Columbia.

The Space Object is reported to be about 200 yards in diamter . about weight of 1000 tons . Object was reported to have come from direction of Alaska — in long horizontal glide of about 40 degrees from great height .

Object may have been a rocket ? Sattellite? or some sort of Space ship?

The Athabasca Indians call the device a "SASQUATCH SHIP" and report that object emitts radiation rays of some sort at night or faint glow in the dark. According to information received hear the object is in the interrior of the Rain Forrest of British Columbia near the small Canadian settlement of

AGGASSIS, BRITISH COLUMBIA
WESTERN CANADA

The Space Ship? or Rocket? is said to be top of a plateau area, or legel hill top near Fraser River, Canada

The object or Rocket is said to have hit Lake Fraser? or some Lake near Rain Forrest area, then skidded across the lake about five miles . then the device rose intoair about several miles, then landed on the surface of the Fraser River. The Space object or Shperrical (circular object) then skidded uphill into some sort of haevy timber in the Rain Forrest and is there under a heavy grouth of timber now. The Athabasca Indians report that the object is concealed from air and is not visable from airplanes.

The Athabasca Indians are reportedly owners of the Rain Forrest Forrest area. The Chief of the Athabasca Indians requests Governmental investigation of object to ascertain if object is ~~RADIUM~~ RADIUM DEVICE or is emitting radiation rays, in the interrior of the Rain Forrest area of westernCanada near Aggassis, British Columbia , northwest of British Columbia settlement of Aggassis, Br. Col. in vicinity of Ruby Creek and Fraser River in heavy grouth of timber in the Rain Forrest area of western Canada.

Sincerely yours,

[redacted]

Havas News Agency

[redacted]

Paris, France.

P/S. Space object might possibly be located by the use of Geiger Counters and Scintellometers from low flying planes over the Rain Forrest area of westernCanada near Aggassis, British Columbia.

620

Please note--The Chief of the Athabasca Indians reports that the Athabasca Tribe has a treaty with the United States dated year of I784 by the Handimand Treaty of the Athabasca Indian Tribe the Treaty or BRITISH CROWN TREATY with the Athabasca Indians gave the area to the UNITED STATES OF AMERICA IN I784 Treaty. Therefore if RainForrest area was CEDED TO THE UNITED STATE OF AMERICA IN THE YEAR OF I784 by ATHABASCA HANDIMAND CROWN TREATY then the U.S. HAS EXPLORATORY RIGHTS TO THE RAIN FORREST AREA ALONG THE FRASER RIVER and therefore is also the OWNER of all objects, devices, rockets-missiles, SPACE SHIPS -Interplanatory Flying Devices- minterals -land timber and waters in the area from United States Border to Rain Forrest area , including land in the Rain Forrest area and the waters along the Fraser River and Lake Fraser, etc -this would include the mysterious object known as "SAQUATCH-SHIP" believed to be an interplanatory device on Frase River Timbered Plateaus area, Indians report that device left shattered timber in ap a path about I mile in extent in undergrouth of timber, however shattered timber path is not visable at present time due to Snow fall and heavy timber.

The Athabasca Indians report that the tribe cedes the mysterious object to the United States government for removal to the United States of America . It is said that the device is about IOOO long tons weight and if so, it will be nessessary to transfer device from British Columbia via A SPAECIAL SPECIAL RAILROAD BUILT FROM THE U.S.-Canadian Border to ~~Canada~~ Canadian WILDERNESS AREA OF RAIN FORREST SO AS TO TRANSPORT THE OBJECT OF ABOUT ONE THOUSAND TONS WEIGHT.

SIR: PLEASE BE ADVISED THAT A MYSTERIOUS OBJECT HAS BEEN REPORTED TO HAVE
COME OUT OF [illegible] at high velocity , STRUCK A LAKE IN A REMOTE
PART OF BRITISH COLUMBIA IN CANADA.

APPARENTLY THE REPORT THAT OBJECT HAS BEEN SATELLITE [illegible] ON ROCKET
APPARENTLY OUT OF CONTROL. THE OBJECT MAY BE A SOLID STATE MACHINE OF
METAL WEIGHT ABOUT 1000 TONS ENTIRE DIAMETER ABOUT 200 YARDS SOME later
OBJECT MAY BE A SOLID STATE MACHINE [illegible] SMALL [illegible] IN
OF THE N.W. COAST OF BRITISH COLUMBIA, [illegible]ITY OF FRASER RIVER
IN CANADA. THE ATHABASCA INDIAN REPORT THAT OBJECT LANDED IN THE
OCEAN NEAR OTEN LAKE TERRITORY ABOUT MEN. 14, -15-1960.
OBJECT MAY BE A SOLID STATE MACHINE ON ANTI-SATELLITE OBJECT NOT BELIEVED
TO BE OF RUSSIAN ORIGIN , MAY BE OTHER'S PROPERTY. Space.?

In view of the objects reported by U.S.Army radar crossing Alaska
from direction Siberia, may it not be advisable for the U.S.Navy military
intelligence to investigate in the interest of the allied forces?

Object is reported to be in vicinity of Arnsair, northwest of "Calgary"
settlement of 600 people in Canada in the province of BRITISH COLUMBIA.
Object may be emitting radiation rays from Marconic Beam Motor inside
of object reported to be a Solar Space Machine.

Would it not be advisable for the U.S. Dept. of Defense to send a team of
military intelligence agents , to area with Giger Counters and a
scintillometer device to locate radiation Solar Device which is above
ground and which is concealed under a growth of trees, in Rain Forest
northwest of Arnsair, British Columbia, Canada near Fraser River area?

Ottawa, Canada.

Sirs:

Please be advised that the ATHABASCA INDIANS of BRITISH COLUMBIA PROVINCE in Western Canada, Commonwealth of Canada, report that some sort of a SPACE SHIP or "FLYING SAUCER" has been seen in the heavy timbered area of the British Columbia Rain Forrest Area. The Athabascan Indian tribe Scouts refer to the Space Ship as "SASQUATCH SHIP" in Athabasca language meaning "SKY BOAT".

According to recent reports from a group of hunters with the Athabasca Indians of British Columbia, the object is said to have come out of sky and hit a lake (Lake Fraser?) then rose into air and hit on Fraser River in British Columbia Province of Canada. The Space object (Missile? or possibly rocket?) is said to be a heavy timber area of the place known as

RAIN FORREST
AGGASSIS, BRITISH COLUMBIA, (Canada)

The Space ship or Satellite is reported to be circular, about 200 yards in diameter, and the Indians state with weight estimated of 1000 tons, object is made of white metal. The British Columbia Indians report that object is on a plateau area after it slid from Fraser River uphill into (and Thru) timber and is not visable from air but is concealed by a heavy growth of timber in the British Columbia timbered area named "RAIN FORREST". (Near Aggassis, British Columbia, Canada).

The Athabasca Indians reported that the object emitts a glow at night or "LIGHT" (possibly radiation?). In view of recent reports of unidentified flying objects (U.F.O.) perhaps it may be advisable to send some competent investigators from the R.C.M.P. office? It may be possible to locate the Space Ship (or Missile-Satellite?) by use of a low-flying plane over Rain Forrest-plane equipped with a Geiger counter and Scintellometer airial URANIUM LOCATING DEVICES, might be able to find the object as Indians believe it is radioactive object?

British Columbia Indians report that the strange object is 50 miles from Aggassis, (N.W.?) in the heavy Rain Forrest area.

Sinc. and resp. yrs.

P.S. Data recd. via mail relay Queens Messenger Service, England from C.I.A. report-U.S.A.
Note ------- The Indian Scouts report that the object seen by Athabasca Indians IS NOT AN AIRPLANE IS NOT A METEORITE and is NOT visable from air - it may be possible to locate the Sattellite ship by foot reconnaissance teams and low flying planes using radium detection devices in Rain Forrest area near Aggassis, British Columbia, Canada.

Ottawa, Ontario, Canada
28 April 1960

REPLY TO
ATTN OF: AirA/123 INT

SUBJECT: UFO Investigation (British Columbia)

TO: ~~AFCIN-5C0~~ 3/16 May 60

IN TURN TO: AFCIN-4E

1. In addition to our letter of 12 April 1960, file AirA/108 INT, subject as above, there are enclosed two photostats of the report of the Royal Canadian Mounted Police (RCMP) Chilliwack (British Columbia) Subdivision dated 4 April 1960.

2. The RCMP have advised this office that in view of the information disclosed by the investigation, it is felt that there is no foundation for the report of [redacted] and no further action is anticipated by that agency.

Respectfully

ROBERT W. WITTY
Colonel, USAF
Air Attache

ROYAL CANADIAN MOUNTED POLICE

DIVISION FILE No. 591-1190-287

SUB-DIVISION: Prince George

DETACHMENT: Patrol R.C.M.P.

[redacted]

British Columbia

DATE: 6-4-60

Subject: Legacy and Other Devices of Unknown Origin.

1. With reference to the above and correspondence forwarded by the Officer i/c C.I.B. Vancouver on 30-3-60, inquiries on a confidential basis have been carried out as requested.

2. Referring to the information contained in Letter from [redacted] there appears to be little information of value referring to locations in the Agassiz area, and for purposes of classification they are enumerated as follows:

3. Sasquatch is a common term used in the Agassiz-Harrison Lake area for a number of years and it is a myth or fable in that area referring to a large hairy ape-like human or bogey man and has been used for a number of years prior to any satellites or space ships being invented.

4. Where are the local Athapascan Indians in the Agassiz area and from references checked, the Athapascan Indians or Athapascan Indians are centered about the Yukon and Mackenzie Rivers and extend into Alaska. There is also some indications these Indians extend southward into New Mexico, Arizona and Texas.

5. There are a number of Indians in the Agassiz area and go under the Band names of:

Chehalis Indians or Sawahquam Band
Port Douglas Band
Skookumchuck Band
Scowlitz Band
Skwah Band
Seabird Island Band
Cheam Band.

6. There are no known Indian guides in this area and knowing the Indians locally, as is felt that if they were aware of any strange object the matter would be reported to the police without undue delay.

7. There is no Lake Fraser in the area and the only one which can be located in the knowledge is a Lake Fraser in the Vanderhoof Detachment area in the Prince George Sub-Division.

8. No area known as the Rain Forest can be located, and enquiries made through the B.C. Forest Service produced no identification of any location or forest of this name.

9. It would appear from the letter this object is 50 miles northwest of Agassiz. If such is the case it would be in the Pitt River area on the New Westminster Sub-Division, and the northend of Pitt Lake is approximately 25 miles north of the Fraser River. It is noted in the letter the initials N.E. appear under the initials N.W. both followed by a question mark. In the event the direction is meant to be 50 miles northeast of Agassiz, this would place the object in the Coquihalla Pass area, which is approximately 20 to 25 miles east of the Fraser River. The Fraser River flows approximately straight west from Agassiz and if this object is supposed to be near the Fraser River and 50 miles from Agassiz then it would be almost in New Westminster. It might be mentioned the Fraser River between Agassiz and the Pacific Ocean, is well settled and built up and the possibility of any object landing in or near the Fraser River without being seen by local residents is very remote.

10. Inquiry and discreet enquiries were made regarding the possibility that a Mr. Tom KRAMER could be known in the Agassiz or Harrison Lake area, but these enquiries produced negative results.

11. From the information contained in the letter and from a knowledge of the local area, it is the opinion of the writer there is no foundation to the allegations contained in the letter from Mr. Tom KRAMER dated March 6th. Should further enquiries be considered necessary, it is requested the writer be interviewed regarding his source of information.

12. It might also be mentioned the area northwest of Agassiz is very rugged mountainous terrain and although there are some logging camps in certain areas, the majority of the country is covered by various mountain ranges and the area could only be surveyed by plane. Should the Department consider it necessary to make such a survey it is requested the required instructions and arrangements be completed and this office advised.
