ATIC FORM 329 (REV 26 SEP 52)

InvesBnC

May 19, 1960.

INTELLIGENCE

Pentagon

Washington D. C.

Dear Capitalistic Friends,

While waiting to go to church (Now 9.40AM Sunday morning Standard Mountain Time) I read "The Family Fallout Shelter MP-15. My fellow chemists and other professional bourgeoisie "poh hughed" my efforts to prepare for and defend ourselves for an all out Atomic War, ever since Hiroshima.

The Powers case is your "baby".

On May 12 at 8.40 PM Standard Mountain Time I was sitting on the north ledge of the East enterance of the main building at Mark Kepel High School in the Alhambra School District of California. From what I told [REDACTED] on military observation of plane movements I estimate I saw a flying saucer traveling toward me and somewhat east. If interested I can take one of your military men and show the approximate movement between a tree and a light pole about a block away. As I first saw it in my bifocals I thought it might be a light refraction. But I took them off and it looked like a morning star (reddish like mars) except it had somewhat of a crossextension something like a spine on a echinodermata. awaited

I awaited for it to pass by in my line of vision past the cross arm of the light pole. It disappeared. A Stat was visable in that same area that remained about the same, but no visable movement.

I have told now one about it. I was alone and I don't usually take a breather on the East side of the Night School only on the North. And I'm not making ay carbon copy.

Yours for Truth.

[REDACTED] San Gabriel, Ca

10.1960

P. S. You can see why now I'm not mailing "Lady's Chatterington Lover" to Pasadena U. S. Post Office Inspector at Room 202 Pasadena, California. for I don't know how many fascists are "taking over" the government but I know where I stand in "The Faith of Our Fathers."

Send latent  
fot sheet -  
Case closed, &  
hope - Too much  
time passed - note

[REDACTED]

Conclusion written  
machine in #38-

B/4 Apr '61

Dear Friends,

I've misplaced my first letter to you about the light I saw floating over a year ago at Mark Keppel High School at night. And I was surprised that you even wanted any additional information from me. I've also misplaced or lost page 1 and 2 of your forms, but like Xerxes of old who couldn't sleep when he caused the Book of the Kings of Assyeria to be read to him and found out about Mordecai saving his life, I as a master seargeant for God should, since a law abiding citizen, mail you back the forms I completed months ago, and at that time I had the first page too.

If you'll give me a copy of my letter relating to this and the first forms with the others I can mail them back with any information I have stored in the SECRET part of my brain. But I really doubt if that is really important as now-a-days we are getting away from Desk Seargeants.

I'll really believe in our form of Democracy when all rated R.O.T.C seargeants are retired on a pension like Eismehhoures and one stenographer instead of \$83.00 monthly Social Security check which they won't even pay unless we volunteer to be executed like the Two Veterans [REDACTED] killed years ago in a Gulfport hospital.

Without Military training I wouldn't have been in my own church, which church I now request to admit qualified Colored Persons on one Summer Sunday in 1953. I disturbed no one but a Mississippi Poll-Tax citizen who "so efficiently" deprived me of a lawyer. [REDACTED]

16. Tell in a few words the following things about the object.

a. Sound \_\_\_\_\_

b. Color. Like an evening star or light from a Helicloper at twilight but moving like an air born object. I'm 53 and it drifter or moved like those old fashioned paper balloons that use to be turned loose at Fourth of July.

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were:

(Circle One): a. Fuzzy or blurred  
 b. Like a bright star  
 c. Sharply outlined  
 d. Don't remember

e. Other \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

19. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Only me.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

refer also to 17

page 3

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.

feet.

Only light Visible.

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

- a. Head of a pin
- b. Pea
- c. Dime
- d. Nickel
- e. Quarter
- f. Half dollar
- g. Silver dollar
- h. Baseball
- i. Grapefruit
- j. Basketball
- k. Other \_\_\_\_\_

size like Mars a Venus as evening stars  
not like Jupiter  
when evening star

22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.

- a. Certain
- b. Fairly certain

- c. Not very sure
- d. Uncertain

23. How did the object or objects disappear from view?

Thinking it would pass  
and appear again in my line of vision behind telephone  
pole. It did not. When I'd moved so I could still  
see it on other side of pole

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

Discussed in 17 and 22

July 15 I was in a parking lot and ~~down~~  
since I've just got a new pair of lenses  
I looked and saw two images where  
a glass should be in the car I was. But  
I localized those images from lens refraction

On common plate of another parked car  
painted car.   
Kern says. At A. image  
refract front me at A. image  
appeared

25. Where were you located when you saw the object? (Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other At side of road

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other 3 miles from night.

27. What were you doing at the time you saw the object, and how did you happen to notice it?

Sitting on East Side of entrance. Just walking  
at access of my Spanish Adult Day Care

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

a. North	c. East	e. South	g. West
b. Northeast	d. Southeast	f. Southwest	h. Northwest

28.2 How fast were you moving? \_\_\_\_\_ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

a. North	c. East	e. South	g. West
b. Northeast	d. Southeast	f. Southwest	h. Northwest

30. What direction were you looking when you last saw the object? (Circle One)

a. North	c. East	e. South	g. West
b. Northeast	d. Southeast	f. Southwest	h. Northwest

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared: About 7.5

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon 10 degrees.

31.2 When it disappeared:

- a. From true North 70 degrees.
- b. From horizon 15 degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it.

33. In the following larger sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

However, I was looking down the street  
but I've placed A on B in reference to me  
at about correct perspective

39. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate?

At 16 miles speed could  
be 150 miles per hour from  
prop Angeles. I've observed in  
Los Angeles area at rate of

m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was?

10 to 15 miles.

feet.

41. Please give the following information about yourself:

NAME \_\_\_\_\_  
Last Name \_\_\_\_\_

First Name \_\_\_\_\_

Middle Name \_\_\_\_\_

ADDRESS \_\_\_\_\_  
Street \_\_\_\_\_ San Gabriel \_\_\_\_\_ (none) \_\_\_\_\_ Calif. \_\_\_\_\_  
City \_\_\_\_\_ Zone \_\_\_\_\_ State \_\_\_\_\_

TELEPHONE NUMBER \_\_\_\_\_

What is your present job? Maintenance man for Laundrymat at 1256 S. Glendale Ave, Glendale, Calif.

Age 52 Sex Married MalePlease indicate any special educational training that you have had. AB University of Missouri 1930  
In 1934 Calculus at Washington University at St. Louis, Mo

e. e. Technical school \_\_\_\_\_

a. Grade school \_\_\_\_\_

(Type) \_\_\_\_\_

b. High school \_\_\_\_\_

c. College \_\_\_\_\_

d. Post graduate \_\_\_\_\_

f. Other special training Took home study courses in Electricity and Accountancy.

42. Date you completed this questionnaire:

July 10  
Day

Month

1960  
Year

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy *Los Angeles twilight*
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind
- b. Slight breeze
- c. Strong wind
- d. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- c. Warm
- d. Hot
- e. Don't remember

*More like  
moderate.*

35. When did you report to some official that you had seen the object?

Day

Month

Year

*You have my letter.*

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes

No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes

No

36.2 Please list their names and addresses:

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes

No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

*But what misifed me was the light  
went out just like if someone had shut  
it off. Perhaps a cloud (although it  
was so hazy I couldn't see it) began to cover light  
while behind the light pole of my vision.*

38. In your opinion what do you think the object was and what might have caused it?

*I think now it was a helicopter at  
Pawpaw about 10-15 miles distant.*

U. S. AIR FORCE TECHNICAL INFORMATION SHEET  
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

NAME \_\_\_\_\_  
(Please Print)

(Do Not Write in This Space)

CODE:

SIGNATURE \_\_\_\_\_

DATE July 10, 1960

I received a seargeants rating in 1928 from the R. O. T. C. at Missouri University. In the Infantry. I hate communism, and please excuse the typing and secretarial errors. If you all want me to place an atomic bomb by dropping me and it on some future or distant battle field or enemy installation don't hesitate to call on me. I so often think of the Magionet Line and everything was figured out on paper to be perfect but the Germans did creat new fox holes for their front line seargeants and corporals and we all know what happened.

Dear [REDACTED]:

This is to acknowledge your recent letter regarding the sighting of an unidentified flying object.

Your letter contains insufficient information for a valid conclusion. Therefore, request that you complete the attached Air Force Questionnaire in regard to the sighting and forward the completed paper to the Aerospace Technical Intelligence Center, Wright-Patterson Air Force Base, Ohio.

Sincerely,

Inclosure
