10. BRIEF SUMMARY OF SIGHTING A "round disc" or "ball-like" object, blue or blue-white in color. Variously described as half-dollar to basketball in regard to size. "Burned out" before hitting ground. All observers saw the object to the S, possibly over the Gulf of Mexico. It was moving E-W or possible SE-NW. One observer guesses the speed as 450 mph or faster. Another estimated altitude as "above 30,000 ft." Appeared 180° fm true N. 45-60° fm horizon. Disappeared 180° fm true N, 30° fm horizon.		11. COMMENTS Description and duration is characteristic of a meteor entering the earth's atmosphere. There were a large number of witnesses, indicating that it was a fairly large meteor which penetrated the lower reaches of the earth's atmosphere where it burned out before reaching the earth's surface.
