INFO CY - AMC (IG))

Fort Washakie Wyoming
Feb. 28, 1961

J. Edgar Hoover F.B.I.
Washington, D.C.

Dear Sir.

I am enclosing a drawing of a strange object I found in my hay meadow this morning. As I have never seen anything like it and none of my neighbors can not identify it either, I am drawing it to your attention.

This object does not appear dangerous but I do not know what is contained in the heavy or pointed end.

It was apparently dropped from a high altitude as marks on frozen ground and bent condition of belt which I straightened a little pulling object into original shape of a cigar and material is very shiny like chrome or a automobile.

Please forgive me if this is just some silly harmless gadget, and it is only because it is such a crazy harmless object that I am motivated to try to find out what it is.

If you can identify it by the enclosed drawing please let me know what it is.

I would have mailed it to you but I don't know if it is of an explosive nature or not and so will keep it pending your advice.

Very sincerely

Ft. Washakie, Wyo.

[REDACTED]
Ft. Washakie
Wyoming.

J. Edgar Hoover F.B.I.
Washington D.C.

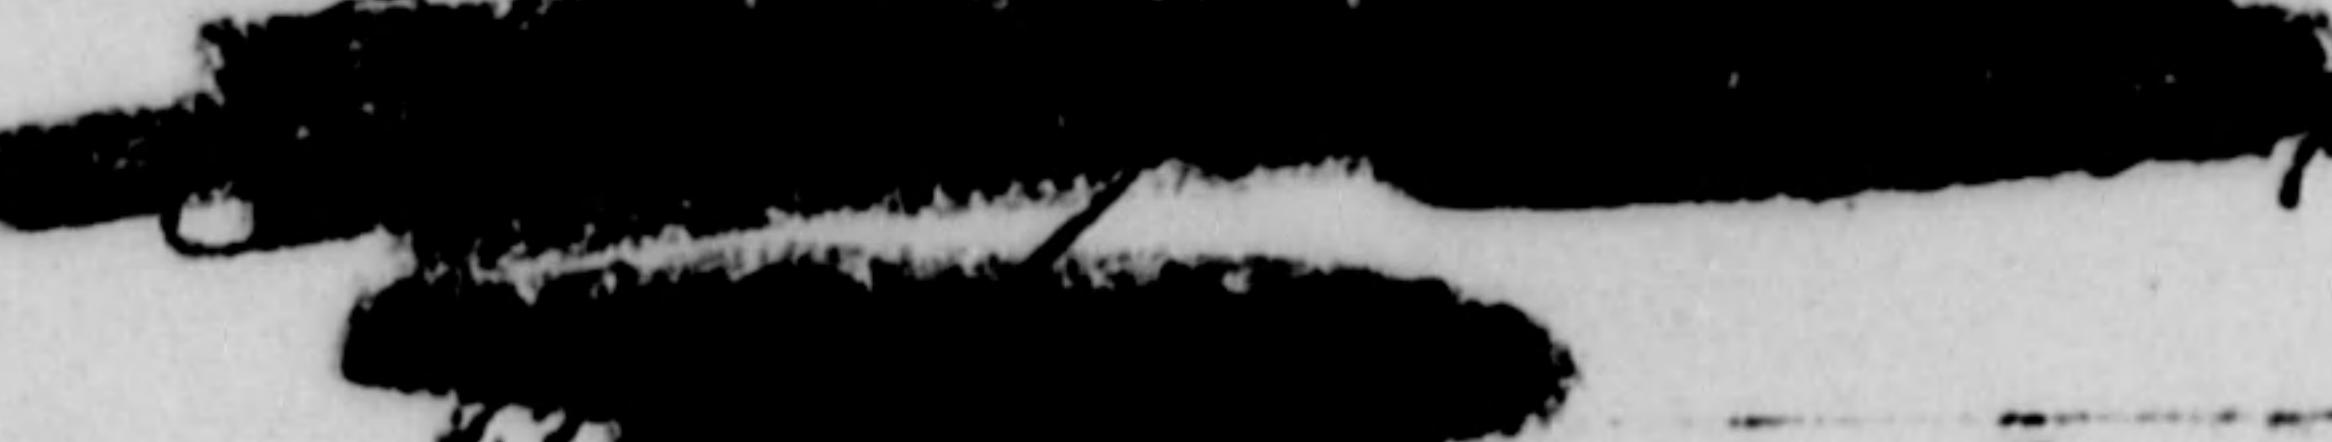

I found this strange object in my hay meadow Feb. 28, 1961.

It apparently fell while ground was frozen hard or it would have imbedded out of sight. Impact had caused bolt to bend where it enters the screw hole in lead or babbet and had gared the joint open.

I don't believe it has been in the meadow long as I am crossing this particular strip often and would have seen it before if it had been there long as it is very shiny.

 Ft. Washakie
 Wyoming

possibly fell this pointed end down.
 possibly end of projectile in way of
 projectile when a projectile goes down to a projectile
 first to find you to move $\frac{1}{8}$ in. to $\frac{1}{8}$ in. to
 gun barrel up to $\frac{1}{8}$ in. to $\frac{1}{8}$ in. to
 and away

I found this strange object in my hay meadow Feb. 28, 1961.

It apparently fell while ground was frozen hard or it would have imbedded out of sight. Impact had caused bolt to bend where it enters the screw hole in lead or babbet and had jarred the joint open.

your ends or your screw in next to
your ends a notch in the end is a good
place to put your screw to keep it from
turning up & then just pull it out & turn it
over & over

Mr. [REDACTED]
Ft. Washakie, Wyoming

Dear Mr. [REDACTED]

1. Your letter of 28 February 1961, addressed to Mr. Hoover, FBI, concerning a strange object you have found, has been forwarded to the Commander, Ogden Air Materiel Area, Hill Air Force Base, Utah, as a matter within the jurisdiction of his command.
2. In order that you may receive a prompt reply, the Commander has been requested to make direct response to you upon the conclusion of his inquiry into the matter.

Sincerely

Atch 2

Ltr, Hq USAF (AFIIS-C4), 16 Mar 61, Letter From Mr. ██████████
Regarding a Strange Object Found in His Field

1st Ind (OOI)

APR 6 1961

Hq OOAMA, Hill AFB, Utah

TO: AFLC (MC), Wright-Patterson AFB, Ohio

1. Mr ██████████ was contacted personally by Major Hutchison, 2705th Airmunitions Wing, on 29 Mar 1961. The object was examined and determined not to be an item of munitions. It contained no explosives. Mr ██████████ released the object to Major Hutchison and it was returned to OOAMA for further research in identifying it. At this time positive identification has not been made, but it is the consensus of all who have examined it that it is a decorative ornament from either an automobile or a light aircraft.
2. Mr ██████████ was interested in knowing exactly what the object was and after commanding him for reporting the matter, we promised we would write him as soon as we had determined just what the object was. When we have positively identified it, we will advise you as to its origin and will send you a copy of the letter we write to Mr Wilson.

FOR THE COMMANDER

FRANKLIN A. JOSEPH
Lt Colonel, USAF
Inspector General

Unidentified Object

Mr. [REDACTED]
Ft Washakie, Wyoming

Dear Mr. Wilson

1. When Sgt McCloskey visited you on 29 March he promised that he would advise you if we were able to determine the nature of the object that you found. At this time we have been unable to positively identify the object which you found or to determine the manner in which it was deposited in your field. It is our opinion that the object is an ornament either from an automobile or from a light aircraft. It is entirely possible that it may have become detached and fallen from an airplane during flight. It has been positively determined that it is not nor was it designed to be an explosive item and therefore not harmful in this fashion.
2. Thank you very much for your courtesy in drawing the matter to the attention of the Air Force. Certainly in these times of trouble patriotism holds an important place in maintaining our security and democracy.

Sincerely

FRANKLIN A. JOSEPH
Lt Colonel, USAF
Inspector General
