In this instance he indicates there were other witnesses, but we have no info of the impressions of the individuals. Due to subsequent cases reported by this witness it is concluded that the objts which he viewed were probably refracted images of stars.                                                                                                                                                                                                                                                |
