Memo, AFCIN-4E, 23 May 61, Radar Analysis

1st Ind (AFCIN-4E1a)

6 Jun 61

TO: AFCIN-4E (Major Friend)

1. Subject report does not contain enough radar data for an analyses to be made.
2. The only reference to radar is in Item (B)(1) wherein it is reported that a total of 57 separate targets had been picked up on the radar scopes. Assuming that they are based on authoratative knowledge of the existence of such balloon devices, Maj. Busalachi's comments in Item (K) are concurred with.
