5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian			
7. LENGTH OF OBSERVATION		8. NUMBER OF OBJECTS 1		9. COURSE S	
10. BRIEF SUMMARY OF SIGHTING An extremely bright object, colored green, orange and white streaked across the sky from N to S. It was sighted by large numbers of people. Object was large. Some viewers estimating it at 200' long, was shaped like a ball and had a long tail or trail. Tail appeared to be burning and pieces falling from the object.				11. COMMENTS This object possesses the characteristics outlined for that class of meteor known as a fireball. Re-entries of artificial satellites would produce the same general type display, but no re-entry occurred on this date. Dr. R. M. Tepette, Dominion Astrophysical observatory reported the object to be a meteor.

Here is an article out of the Awake Magazine/
Was it a Meteor.

On may 28 th a Hudge multicolored fireball streaked through the sky over Vancouver British Columbia. It was thought to be a hudge Meteor But some questioned whether it was. It was not a meteor Claimed U.S. Customs Official John Lium It had all the appearances of being powered It passed overhead at about 400 Ft. But didnt make a sound. The Vancouver SUN reported that it broke up the MOUNTIES* PORTLAND Baseball Game at Capilano Stadium for about three minutes as fans and players scurried for shelter DOWNTOWN TRAFFIC SLOWED TO A CRAWL AS MOTORIST Cranned their necks to see the object. AN EXCITED POLICEMAN RADIOED headquarters that an airliner was burning in the sky Witnesses said it was BLUE RED GOLD AND ALL THE COLORS OF THE RAINBOW. THEY JAMMED SWITCHBOARDS AT POLICE STATIONS NEWSPAPERS OFFICES RADIO STATIONS AND MILITARY. With excited queries.

Now lets see The Holy Bible ZECHARIAH 5 verse 1 From the Bible i got at Westover A.F.B.

THEN I TURNED AND LIFTED UP MINE EYES, AND LOOKED, AND BEHOLD A FLYING ROLL, AND HE SAID UNTO ME, WHAT SEEEST THOU? AND I ANSWERED I SEE A FLYING ROLL. THE LENGTH THEREOF IS TWENTY CUBITS AND THE BREADTH THEREOF TEN CUBITS

(LET US SEE A CUBIT IS) ABOUT 18-20 inches. so its 111 yards long 4-36 by 55 yards - 20/36 th.

suggest that it all be read.....

sincerely [REDACTED]

THE FOLLOWING INFORMATION PERTAINS TO AN UNIDENTIFIED FLYING OBJECT
REPORTED IN NORTHWESTERN UNITED STATES AND SOUTHWESTERN CANADA:

AN EXTREMELY LARGE BRIGHT, GREEN, ORANGE AND WHITE OBJECT STREAKED

ACROSS THE SKY FROM A NORTHERLY TO SOUTHERLY DIRECTION. IT WAS

SIGHTED BY LARGE NUMBERS OF PEOPLE ON 16 MAY 1962, AT APPROXIMATELY

224:3 HOURS, PACIFIC STANDARD TIME. THE OBJECT APPEARED TO SOME

VISUERS TO BE 200 FEET LONG. A BALL OF BRIGHT LIGHT, WITH A LONG

TAIL BEHIND. THE TAIL APPEARED AS BURNING, AND PUFFS FALLING

FROM THE OBJECT. INVESTIGATIONS BEING MADE THE INTELLIGENCE

ACTION 3 E (UFO)

Meteor Panics Baseball Crowd

Another one of those huge phenomena, several-second meteors scared the daylight out of players and spectators alike at a baseball game of Vancouver's B. C. Canada on May 20, 1967. The witnesses indicated that this beauty had an angular displacement of at least 15 degrees, traversed a 30 degree area of the sky in 3 seconds. Fans in the third base bleachers at Caesario stadium were the first to spot the object during the 12th inning. They cried out in panic, players looked up from the diamond, then ran for the dugout along with the umpires. The object was huge, and glowed with a brilliance like a magnesium flare. A control tower employee at Vancouver International Airport said it was "as big as an aircraft carrier."

Reports to police switchboards described an off-course rocket, a comet or a flaming airplane. The object was seen in Vancouver, Victoria, Calgary, Fort Assiniboine, Alta., Spokane and Lewiston Idaho.

Research scientist Frank Holmes, of nearby North Surry said he had observed 200 meteors, and this was the largest he had ever seen. Dr. R. M. E. the head of the Dominion Astrophysical Observatory at Victoria said the descriptions "applied to meteors" (quotes ours) that "must have been a big one." A meteor is usually seen for just a second or two. This one would have to be huge to have been visible for so long or it would have burned itself out more quickly, he said.

Some observations. There has been an increase in the observation of these unusually large, brilliant meteors in 1962, coincidental with the appearance of larger number of saucer and cigar-shaped aerial phenomena. Some curious things about the giant fireballs. Very brilliant, large, low, sometimes emitting flashes of blinding light (see recent bulletins) they are seen over very large areas, they make no noise except an occasional thunderous crash, and are never observed to crash.

Our time
1:20 p.m. 29 May 62
Captain Gallagher Ext 2301/2243
Fairchild AFB, Washington
11:35 PST

On 28 May, [REDACTED] Pacific ST pilots
reports from two commercial pilots
and one jet pilot along with
reports from other sources of having
seen a "very bright burning white
light with green fire balls
coming out of rear going in direction
from North to Southeast. Speed
reported as extremely high to
200 MPH. Local papers want to
know what object is. Reports
came from Canada all the way
to Oregon. Think perhaps it was
a shooting star. No noise.
Location 100 miles east of
Mullen Pass, and heading W of
Larson AFB."
