AF "Bugged" By UFOs At Truax

APRO member Herb Thrune of Milwaukee, Wisconsin, reported the following information which he heard on the radio on June 30 and about which he inquired and recorded: "For the past week reports of UFO have been reported to Madison, Wisconsin police. The objects were first thought to be "Echo" balloon. There have been three UFOs which fly erratically, mostly in the vicinity of Truax AFB, and they cannot be tracked on radar. Reports also came from Green county, to the west of Madison." Nothing was found in the Milwaukee Journal, and the Sentinel was inactive because of a union strike at the time, so no further confirmation was received.

Apparently there was a real object
or subjects that gave rise to these
reports.

I wish we had 7 or 8 good
men attached to your office who
could go out and get the
info. we just never get from
the field offices. yet. (and trained
by you and me)
if anything ever will
hit us hard in our
Congressional investigation it
could be just this sort of thing -
lack of immediate capability -

I guess that you and I
will just have to look personally
into a number of these cases
next year - I guess we won't
have a budget that will
begin to allow this.

#4 4 July, Knoxville, Va.

I have a hunch that the
"Ebo, despite the green color, the
"35-30" course and the "change in
direction." These are all subjective

#3

30 June, Beloit, Wis.
Another cone (2) of poor reportage.

discovered.
But I was
wasn't working for
I got it and it was
the whole way. When even
checked?
