PROJECT 10073 RECORD CARD

1. DATE
January, 11 Feb 64

2. LOCATION
Deford, Michigan

3. DATE-TIME GROUP
Local ______
GMT not reported

4. TYPE OF OBSERVATION
☒ Ground-Visual
☐ Ground-Radar
☐ Air-Visual
☐ Air-Intercept Radar

5. PHOTOS
☐ Yes
x☒ No

6. SOURCE
civilian

7. LENGTH OF OBSERVATION
not reported

8. NUMBER OF OBJECTS
multiple

9. COURSE
not reported

10. BRIEF SUMMARY OF SIGHTING
Specks whirling across road. Looked like a fire. Specks formed into four balls and shot up into the air heading East. Then North and then down again. TV acted up while this was happening. Another time an ~~xx~~ egg shaped object crossed her house etc.

11. COMMENTS
Multiple reports from witness who sees flying sacuers frequently. No specific data presented. Source considered as unreliable observer.

12. CONCLUSIONS
☐ Was Balloon
☐ Probably Balloon
☐ Possibly Balloon
☐ Was Aircraft
☐ Probably Aircraft
☐ Possibly Aircraft
☐ Was Astronomical
☐ Probably Astronomical
☐ Possibly Astronomical
☒x Other Unreliable reports
☐ Insufficient Data for Evaluation
☐ Unknown

CASE JAN 64

NAP

[redacted]

Deford, Mich

In answer to your letter concerning a appeal let me inform you that I never made a appeal on the contrary when I wrote to Mobile I stated that I would pay for my own antenna I only wanted the truth which I never got only nonsense about a sonic boom. As to the markings on planes I know that all planes are marked air force and private navy etc

you must take me
for a idiot not
to know that.
I also know that
was not a private
job. I state to you
as I stated to Mobile
that was a U. F. O
or if you dont know
what U. F. O is a
flying saucer. from
outer space. My
daughter and I made
a bet that you would
not answer. If I were
in your postion I
would be more sensible
about the whole
U. F. O. business I
would be more truth
ful about the whole
deal. One more matter

what do you do about the U.F.O reports? bury them under the rug you must have a very lumpy rug by now. I am also glad to state that we put up our own antenna if we had waited on you speedy boys we would be without a antenna now. In case you are interested we saw two U.F.O's last week I'll define it flying saucers from

outer space
P.S. If you dont
like a lumpy rug
bring the U.F.O's
out in the open then
your rug will be
nice and tidy.

INCOMING

make up your mind do they exist or not. I think it would be better if you came out with the truth. I also agree with Major Keyhoe a fine man you should tell the truth and not beat about the bush

[redacted]

② Mrs. [redacted]
Deford, Mich

To whom it may
concern I am very
interested in U.F.O's
or flying saucers as
we have sighted
them quite a few
times. Would it be
too much to ask
for complete inform
ation on these objects
also do you have
pictures of these
objects?

if so could I have copies? also information on the U.F.O's. Also what is your opinion of the U.F.O. Investigator I believe one of the men I ~~believe~~ is the director Major Donald Keyhoe and they are located in Washington D.C

I was refered to
you by Senator
Pat Mc Namara
and if possible
dont stretch
out repley to
a few months
when I order
from Montgomery
Ward I receive order
in five days and
you are not more
busy

it gives me great pleasure to answer that document you sent me first of all I always ~~thougt~~ was under the impression that ducks and geese migrated in November and that is not late summer second they fly

high we live in
the country and
see them in
the flight in the
spring and in
the fall and
they always
fly high and to
boot. they are
noisy. I hear you
keep stressing that
the U.F.O's are
non existent then
you say they are
not a threat

to whom it may concern In January saw specks wheeling across the road from us. These [illegible] like specks [illegible] a few these specks [illegible] 4 formed [illegible] balls shot into the air then headed east above the tree tops then north then down agin

while thus [illegible]
tee television was
on the picture
broke and just
lines across the
tube. [illegible]
then we
saw three objects
race across our
house from east
to west looked
at objects through
binoculars egg
shaped
