Dear [REDACTED]:

Further reference is made to your letter of May 9, 1964 in which you inclosed a report on Unidentified Flying Objects observed by students at the Asheville School for Boys.

Our Project Office at Wright-Patterson Air Force Base states that there is no data submitted which indicates that the observations were anything other than stars and planets or conventional aircraft. The most significant of the planets during this period was Venus with a magnitude of -4.2.

Sincerely,

Dear Sirs:

Inclosed is part of a series of reports which have been given to me by several students here at school. These reports concern the sighting of various unidentified flying objects over or in the approximate area of the school grounds.

I hope that you can find some reasonable explanation for this other than the one which seems apparent, but I am inclined to think, with several other students that no other explanation can be found. I assure you that none of this has been done as a joke, because we feel that this is not a joking matter. The only incident which we have disclosed to anyone except those involved is Incident #1. The reaction ~~to~~ this ~~of~~ most of the school is to be expected. They think we have spring fever and that it is all a big joke. I can not say I blame them due to what my reactions would be if I were them.

We have talked this over among ourselves and I have been persuaded to give you the whole report, complete , as is. The reason for hesitation is due to the fact that this story might appear to be partially doctored up. I assure that this is not the case. We have not made this report except for the reason to give you a true report of the happenings here over these days. I can also assure you that the students who gave me these reports are not making them up.

All these students are very honest. This was not made up for PUBLICITY because we have no intention of having this published. Before you is a true report of the happenings. If you wish I will send to you any other reports if there any more. I am inclined to think that there will be, due to these constant sightings. Many reports have been given to me in confidence and I do not wish to disclose any names unless you feel, for some reason, that it is necessary.

Please do not say anything to any of the students here at school except those involved. We feel that this would not accomplish anything but might produce unnecessary feeling among the student body and those involved. Just for the record, one master knows about it but will keep it in confidence. Please reply to me if you have some explanation or something else to offer. We will remain to keep this quiet for several obvious reasons.

Yours truly,

I ~~John Doe~~, a student at Asheville School For Boys, in Asheville, N.C., being of sound mind and body hereby testify that on the morning of Friday- May 9, 1964 at approximately 5:10 A.M. sighted out of my window here at this school a U.F.O. with the following description. This is to the best of my memory. I hereby testify that this is not a dream or a figment of my imagination and that THIS IS A TRUE ACCOUNT OF THE HAPPENINGS to the best of my memory. The only possible deviating factors are as follows:

*motion of ship questioned
except the disk or the ring
and the motion of the ship
proper. In report circled in
pencil (double circle) I am not fully certain
of the exact facts.*

I, ~~John Doe~~, hereby testify to this report under the previous conditions.

MENTAL TELEPATHY ASSOCIATED WITH SCHOOL BY ~~REDACTED~~

Here at school many students have sensed that they should look outside and see something - 50% of the time they have seen flying saucers or U.F.O.'s. I know this can not be in their mind, because they have shown other students what they see. This also can be associated with dreams. Many times they dream about a U.F.O. and see the U.F.O. they dream about, or part of the U.F.O. This is not always true but has been in several instances. One student tried to communicate with the saucers through his mind. He thought about it, saying that if it was from other planet, it should move or blink on and off. In several cases this actually happened and as before, was witnessed by another student. Many students have had a "~~6th~~ ^{6th} sense" in certain instances concerning the saucers or U.F.O. and it has come true. I would like to stress that this only happened in a minute number of cases. Can these U.F.O.'s contact us through telepathy. I know it seems unbelievable, but is it not possible? All this incidents maybe have some reasonable explanation.
