# U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

20 May 1964  
Day Month Year

2. Time of day:

3 29  
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

[Redacted] N. Andover Massachusetts  
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

10  
Hours Minutes Seconds

a. Certain c. Not very sure  
b. Fairly certain d. Just a guess

5.1 How was time in sight determined? watch

5.2 Was object in sight continuously? Yes ✓ No

6. What was the condition of the sky?

DAY NIGHT  
a. Bright a. Bright  
b. Cloudy b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you d. To your left  
b. In back of you e. Overhead  
c. To your right f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

### 8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

### 8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight – pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

**CLOUDS (Circle One):**

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

**WEATHER (Circle One):**

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

**10. The object appeared: (Circle One):**

- a. Solid  
b. Transparent  
c. Vapor  
d. As a light  
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter  
b. Dimmer  
c. About the same  
d. Don't know

### 11.1 Compare brightness to some common object:

Looked like a dime

**12. The edges of the object were:**

(Circle One): a. Fuzzy or blurred  
b. ~~Like a bright star~~  
c. Sharply outlined  
d. Don't remember

e. Other \_\_\_\_\_

**13. Did the object:**

**(Circle One for each question)**

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?

- [illegible]

14. Did the object disappear while you were watching it? If so, how?

*Yes*  
After making a U-turn sped up to a very fast speed, too fast for a jet, and disappeared

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound

*no sound*

b. Color

*bright like a light, shiny,*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

*All*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

*N*

*(object round)*

*suddenly accelerated*

*disappeared*

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? 1200 mph. +

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? 5 miles

22. Where were you located when you saw the object?  
(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other \_\_\_\_\_

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- |                 |     |           |               |       |           |
|-----------------|-----|-----------|---------------|-------|-----------|
| a. Eyeglasses   | Yes | <u>No</u> | e. Binoculars | Yes   | <u>No</u> |
| b. Sun glasses  | Yes | <u>No</u> | f. Telescope  | Yes   | <u>No</u> |
| c. Windshield   | Yes | <u>No</u> | g. Theodolite | Yes   | <u>No</u> |
| d. Window glass | Yes | <u>No</u> | h. Other      | _____ |           |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A jet plane, B-52, travelling at a high altitude and speed but leaving no contrail.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

*April '63 - home*  
*March '58 home*

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

Zone

State

TELEPHONE NUMBER

AGE

16

SEX

male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

*Conditions were not favorable for an air inversion*

33. When and to whom did you report that you had seen the object?

Day

Month

Year

# Strange Aerial Objects Still Seen In South Lawrence

Just 20 days ago as three Sacred Heart school boys were entering their school building they spotted something strange in the sky... It has haunted them ever since.

This week Rev. Guy J. Cyr, SM, of the parish, has recounted the sighting of the strange object and has called for additional reports from anyone else who may have seen an unidentified flying object on May 11. In a communication to the public the priest says:

Monday morning May 11, 1964 Robert Dumond of 54 Beacon street and his classmates: Allen Newcomb, John Rheame, Kenneth Gallant and other sixth graders at the Sacred Heart school, saw something in the sky which held them aghast for 7 to 8 seconds.

They testified that they clearly observed in the sky a very mysterious aircraft. It had no wings and it made no sound whatsoever. Yet it traveled at the speed of average airplanes and it wasn't far away.

There was no noise at that time which could have prevented them from hearing it.

It was 8:30. The bell had rung and they were walking two by two on the sidewalk toward the gate. It was in front of them, at first slightly to their left and the sun was behind them.

As some of them pointed to the area where it had been seen, I estimated that the viewing angle

of elevation was about 60 degrees.

There were a few clouds BEHIND it. So, the circumstances for seeing and comparing were excellent.

The ufo was shining "like silver" and had the strangest shape: It looked like a tadpole in its early stages. It was "as big as two moving vans," the boys said. It followed a horizontal straight-line course from SE to NW. The observers 'lost' it behind house-tops.

Just a few hours later, namely at 12:15 the same pupils were at the same place, again going into school and they saw the same or an identical object. However,

(Continued on Page Two)

## UFO SIGHTED

(Continued from Page One)

there was at least one unexpected difference: The craft simply vanished in mid-air while the observers had their eyes "glued" on it.

It didn't disappear behind a tree nor houses: It just 'evaporated' to nothing. At that time, by the way, there were no leaves yet in that one tree to their right. So, even if it had gone behind that tree it's obvious to anybody who went and stood on the spot that they still could have seen it very clearly.

I went twice to the very spot where the youngsters were at the time they made these two stupendous sightings and while I was there interviewing them and trying to catch flaws and contradictions in their testimonies, several planes, including jets passed by. So, it was easy to make comparisons and see how they knew about the "retarded" sound of a jet.

The second time I was there it was on a very bright day at 4:30 in the afternoon and we had the sun almost in our eyes. Yet, poor as my eyesight is, I could easily distinguish the wings and even the ailerons. Some of these planes the eyewitnesses told me, were much further than the strange craft they saw, and moreover, there were no clouds behind those planes by which silhouettes would have been created.

Has anyone else seen this ufo in the sky at that time? If so, let us or someone else know. If you fear ridicule, make an anonymous report.

34. Date you completed this questionnaire:

20 May 1964  
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Objects (U.F.O.'s) were sighted over Lawrence,  
Mass. <sup>or five</sup> four days ago. There were many observers.  
Then at 4:10 <sup>(same day)</sup> it flew directly over-  
head heading toward Boston. At the  
same time an object appeared, headed  
toward it then stopped and disappeared.  
The object was round, very bright, left no  
contrail, and made no sound.
