

1. DATE - TIME GROUP 20 January 65 20/1440Z	2. LOCATION Long Beach, Mississippi
3. SOURCE Civilian	10. CONCLUSION Aircraft (HELICOPTER) ✓
4. NUMBER OF OBJECTS One	The information in observers letter indicates an observation of a Helicopter of some sort.
5. LENGTH OF OBSERVATION Not Reported	11. BRIEF SUMMARY AND ANALYSIS
6. TYPE OF OBSERVATION Ground-Visual	Object was traveling slow and high. At first it appeared to be silver in the sun but as it passed directly above Burke St., observer saw it was transparent as if made of glass or transparent plastic, and seemed to have two people aboard, one in the front, the other seemed to be sitting facing the back of the capsule holding something large, like a large camera.
7. COURSE West	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

and seemed to have two persons aboard,
one ~~was~~ towards the front but the other
seemed to be sitting facing the back, at the
very back of the capsule looking something
as appearing something large, as perhaps
a large camera. This person looked
large and all brown, the color of light ^{black} coffee.

The size of the thing was about the size
of Aero-Commander, compared to the other
flying Jackhead C-130.

Its engine was like a medicine capsule
round in the front and back. Toward the

back it had very short type of wings
that appeared just about five feet the
most, on either side of it.

I have never seen anything like it
before, and am constantly looking at the
sky wondering if I'll see it again. I am
not a story maker, and even my five children
disbelieve me, it seems so impossible to
have been flying there was no sound to it
and it was going slow. To this day every so
often I get an uprush feeling about it, and
wonder how I will be able to call some one else attention
to it. But you must have all your mind, no one.

was home at that time around noon.

Is this one of our country's best inventions
or was it foreign thing. Can you
answer this little please? It would be
so reassuring to know it was our own.

UFO Sighting, 20 Jan 65, Long Beach, Mississippi

28 MAY 1965

Operations Officer
Keesler AFB, Mississippi

1. Reference the attached letter from Mr. [REDACTED] requesting information on an unidentified object which she observed on 20 Jan 1965.
2. The information in Mrs. [REDACTED] letter indicates an observation of a helicopter of some sort. Since she has requested an answer and may have misinterpreted a conventional helicopter, we would like to know the various types operational at Keesler and/or any other operational aircraft of the nature she describes. A photograph of any helicopter similar to this might serve to reassure Mrs. [REDACTED].
3. It is not necessary to contact the observer since the public relations aspects of sightings are handled through the Secretary of the Air Force, Office of Information. This information should be forwarded to TDEW/UFO, Wright-Patterson AFB, Ohio 45433.
