PROPS.

3 March 1965

Dear Mr. [REDACTED]

This is in reply to your recent letter requesting information on unidentified flying objects.

The current report on Project Blue Book, the Air Force project on unidentified flying objects, is attached for your information. This report contains information on the program since its origin in 1948.

You will be interested to know that the causes of the recent UFO sightings in Virginia are attributed to a misinterpretation of natural or conventional objects. Examples of this are research and weather balloons, aircraft and/or aircraft lights, meteors, and a satellite.

Sincerely,

JOHN P. SPAULDING
Lt Colonel, USAF
Chief, Civil Branch
Community Relations Division

Gentlemen:

I have been studying in
astronomy for quite a while. Last
night February 3rd and in nights
before I spotted four at different
intervals within 50 min. 3 were
fading red colors, and one was very
bright and large, they were moving
very fast. They would fade out or disappear
I would like information on the Virginia
saucers being seen right now. and a report
and all the information you can send me.
Most of these things were comming
from W to S.E. The largest had a gold
streak like behind it and a kind of
snot.

Sincerely yours,
Future Astronomer
