

1. DATE - TIME GROUP 30 July 1965 20/0710Z	2. LOCATION Roswell, New Mexico
3. SOURCE Civilian & Military	10. CONCLUSION Astronomical (CAPELLA/ARCTURUS) <i>X No - Can't explain motion</i>
4. NUMBER OF OBJECTS One (Each)	Motion of objects consistent with Star/Planet observations under unusual atmospheric conditions. Objects in NW and NE quadrants at about 30 degrees elevation. CAPELLA in NE and ARCTURUS in NW.
5. LENGTH OF OBSERVATION 30 minutes 30-40 minutes &	11. BRIEF SUMMARY AND ANALYSIS firm elevation of specific objects other than Capella & Arcturus.
6. TYPE OF OBSERVATION Ground-Visual <del>Visual</del>	Four lights, white very bright. Described as bright star in shape. Erratic motion including 90 degree movements straight up. Observed by two groups of observers. One object in NW one object in NE. Speed estimated at high. Both groups of observers viewed object for over 30 minutes.
7. COURSE Erratic	
8. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

TO: Combat Intelligence Branch  
6 SAW Intelligence Division  
Walker AFB, N Mexico

1. Reference your message DCOI 58150 July 65, subject UFO.

The object observed by ALC David H Dailey and other personnel at Roswell, New Mexico is characteristic of an astronomical sighting (Capella and Arcturus) with the exception of the reported movement from the northwest to the northeast. It is requested that Ann Dailey be reinterviewed and a time motion sequence of the flight path of the object in terms of degrees of elevation and azimuth be obtained and forwarded to this office.

2. Your message indicated two groups of observers. It is requested that motion sequence be obtained from both groups.
